**ILLINOIS STATE UNIVERSITY FOUNDATION
FINANCIAL STATEMENT REPORT**

SUMMARY

The audit of the accompanying financial statements of Illinois State University Foundation was performed by Nykiel, Carlin & Co., Ltd.

Based on their audit, the auditors expressed an unqualified opinion on the Foundation's basic financial statements.

INDEPENDENT AUDITORS' REPORT

Honorable William G. Holland
Auditor General
State of Illinois

Board of Directors
Illinois State University Foundation

As Special Assistant Auditors for the Auditor General, we have audited the accompanying basic financial statements of Illinois State University Foundation, a component unit of Illinois State University as of and for the years ended June 30, 2006 and June 30, 2005. These financial statements are the responsibility of the Illinois State University Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Illinois State University Foundation, as of June 30, 2006 and 2005 and the respective changes in net assets and cash flows, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards* we have also issued a report on our consideration of the Illinois State University Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The *Management's Discussion and Analysis* on pages 6 through 9 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable William G. Holland
Auditor General
State of Illinois

Board of Directors
Illinois State University Foundation

As Special Assistant Auditors for the Auditor General, we have audited the basic financial statements of Illinois State University Foundation as of and for the years ended June 30, 2006 and 2005, and have issued our report thereon dated November 22, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Illinois State University Foundation's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted certain deficiencies in the design or operation of internal control over financial reporting which do not meet the criteria for reporting herein and which are reported as State compliance findings in the schedule of findings.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Illinois State University Foundation's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain matters which are reported as State compliance findings in the schedule of findings. We also noted certain other matters which we have reported to management of the Illinois State University Foundation in a separate letter dated November 22, 2006.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the Board of Trustees and management of the Foundation and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2006 AND 2005**

Overview of the Financial Statements and Financial Analysis

The following Management's Discussion and Analysis provides an overview of the financial position and activities for the current year and the prior year and should be read in conjunction with the Foundation's financial statements and footnotes. There are three financial statements presented: the Statements of Net Assets; the Statements of Revenues, Expenses, and Changes in Net Assets; and, the Statements of Cash Flows.

Statements of Net Assets

The purpose of the Statement of Net Assets is to present to the readers of the financial statements a fiscal snapshot of Illinois State University Foundation. The Statement of Net Assets presents the assets (current and non-current), liabilities (current and non-current), and net assets (assets minus liabilities) of the Foundation as of the end of the fiscal year. The difference between current and non-current assets are discussed in the footnotes to the financial statements.

Net assets are divided into three major categories. The first category, **invested in capital assets, net of related debt**, provides the Foundation's equity in property, plant and equipment. The second asset category is **restricted net assets**, which is divided into two categories, nonexpendable and expendable. The corpus of nonexpendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the Foundation but must be spent for purposes as determined by the donors that have placed restrictions on the use of the assets. The final category is **unrestricted net assets**. The unrestricted net assets are available to support the University's highest priorities.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2006 AND 2005**

The total assets of the Foundation were \$79,377,672, \$69,224,808, and \$68,397,163 for FY 2006, FY 2005, and FY 2004 respectively. In 2006, other noncurrent assets increased over \$10.5 million. This resulted from an increase in restricted cash, long-term investments and endowment investments due to an increase in donations as well as investment income. In 2005, the College of Business building project was completed with substantial payments to contractors causing a significant decrease in current assets while the conclusion of the comprehensive campaign and continued payment of sizeable pledges attributed to the increase of noncurrent assets.

The total liabilities were \$1,288,270 for FY 2006, \$1,200,333 for FY 2005, and \$2,370,598 for FY 2004. In FY 2005, liabilities returned to a typical level after the significant increase in accounts payable for the College of Business building construction project as of June 30, 2004.

Statements of Revenues, Expenses and Changes in Net Assets

Changes in the total net assets presented in the Statements of Net Assets are based on the activity presented in the Statements of Revenues, Expenses, and Changes in Net Assets (SRECNA). The purpose of the statement is to present the revenues received by the Foundation, both operating and nonoperating, and the expenses paid by the Foundation, operating and nonoperating, and any other revenues, expenses, gains and losses received or spent by the Foundation.

Operating revenues are received for providing goods and services to customers of the Foundation. A majority of the income for the Foundation, gifts and donations, is considered nonoperating revenue as no goods or services are provided; however, as those funds are paid out, the expenses are categorized as operating expenses. The result of this categorization is a large operating loss offset by a large nonoperating gain. Overall, in FY 2006, the Illinois State University Foundation generated an increase of \$10,064,927 in net assets compared to an increase of \$1,997,910 in FY 2005 and \$11,961,203 in FY 2004.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2006 AND 2005**

The Statement of Revenues, Expenses and Changes in Net Assets reflects a positive trend with an increase in the net assets at the end of the year for FY 2006, FY 2005 and FY 2004. Some highlights of the information presented are as follows:

- An increase of \$5,452,000 in gifts and donations in FY 2006 compared to FY 2005 was due to a large estate gift of \$3,700,000 and a \$1,800,000 computer software gift received in FY 2006. No comparable large gifts were received in FY 2005.
- A decrease in gifts and donations in FY 2005 compared to FY 2004 was due to two large corporate pledges totaling over \$3.4 million as a part of the Illinois State University capital campaign in FY 2004. No comparable large gift pledges were received in FY 2005.
- Additions to the permanent endowment decreased \$1,788,000 in FY 2006 compared to FY 2005. The decrease was due mainly to two endowed gifts of around \$900,000 each received in FY 2005. No such large additions to the permanent endowment were received in FY 2006.
- Returns on endowed investments were 8.8% in FY 2006, compared to 8.1% in FY 2005, and 16.8% in FY 2004.
- Distributions for ISU capital assets decreased significantly in FY 2006 offsetting the increase in FY 2005 with the completion of the College of Business building in FY 2005.

Statements of Cash Flows

The final statement presented by the Illinois State University Foundation is the Statements of Cash Flows. This statement presents detailed information about the cash activity of the Foundation during the year. The statement is divided into five sections. The first section shows the net cash flows from operating activities. The second section reflects cash flows from noncapital financing activities; cash received and spent for nonoperating, noninvesting, and noncapital financing purposes. The third section exhibits the cash flows from capital related financing activities. The fourth section reflects the cash flows from investing activities and indicates the purchases, proceeds, and interest received from investing activities. The fifth and final section reconciles the net cash used and the operating income or loss reflected on the SRECNA.

Capital Asset and Debt Administration

In FY 2007 Illinois State University Foundation has made plans for the design and construction of the Genevieve Green Gardens on the Foundation's Ewing Cultural Center grounds. This will be an approximately \$2.5 million enhancement of the historic landscape at Ewing made possible through an estate gift.

Information concerning the payment on capital debt can be found in the financial statement footnote #7. There have been no significant changes in credit ratings or debt limitations that may affect future financing for the Foundation.

Economic Outlook

Private dollars raised by Illinois State University Foundation continue to play a significant part in support of the University's mission and goals as state appropriated dollars fail to provide adequate funding. FY 2006 ended with the investment portfolio producing positive returns for the fourth consecutive year outperforming the benchmarks. In FY 2005, the comprehensive campaign, *Redefining Normal*, concluded, surpassing its goal of \$88 million, raising \$96 million.

The Foundation is not aware of any additional factors that could have a significant effect on the financial position during this time or future fiscal years.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Illinois State University Foundation (Foundation) was incorporated in May 1948 under the *General Not-for-Profit Corporation Act* for the principal purpose of providing fund raising and other assistance to Illinois State University (University) in order to attract private gifts to support the University's instructional, research and public service activities. The Foundation is an organization as described in Section 501 (c) (3) of Internal Revenue Code and, accordingly, exempt from federal income tax.

The Foundation is a component unit of the University and the Foundation's financial statements are also included as part of the University's financial statements and the State of Illinois Comprehensive Annual Financial Report.

The Foundation has formed two limited liability companies (LLC) to assist in carrying out the Foundation's mission to assist the University. The Foundation is the sole member of each of these LLCs. The governing board for each LLC, known as "Launching Futures, LLC" and "Launching Futures II, LLC", consist of the executive officers of the Foundation. No activity has transpired with either LLC as of June 30, 2006. During the upcoming fiscal year, the LLCs may acquire two properties for lease to the University. If acquired, the University's Board of Trustees has authorized the University to negotiate an agreement to lease the two properties from the LLCs. Any activity will be consolidated within the Foundation's financial statements.

Financial Statement Presentation

The financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles and provides an overall perspective of the Foundation's assets, liabilities, net assets, revenues, expenses, changes in net assets, and cash flows.

Basis of Accounting

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities (BTA). Due to the Foundation's close relationship with the University, the Foundation follows the same financial reporting guidelines as the University. Accordingly, the Foundation's financial statements have been presented using the BTA reporting requirements and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant inter-account receivables and payables have been eliminated.

The Foundation has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The Foundation has elected to not apply FASB pronouncements issued after the applicable date.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

In accordance with GASB Statement No. 9, cash equivalents are defined as short-term, highly liquid investments that are both:

- 1) Readily convertible to known amounts of cash.
- 2) So near to their maturity that they present insignificant risk of changes in value because of changes in interest rates.

Generally, only investments with original maturities of three months or less meet this definition.

On the statement of net assets, cash and cash equivalents that can be used to pay current liabilities are classified as current assets; restricted cash and cash equivalents that cannot be used to pay current liabilities are classified as non-current assets.

Investments

Investments are recorded at fair market value as determined by quoted market prices and management's estimates. Most long-term and endowment investments are pooled for the purposes of allocating realized gains and losses, unrealized gains and losses and ordinary income, net of investment fees, to Foundation accounts on the basis of percentage of share in the pool.

Management's valuation of the investment in Limited Partnerships is primarily based on valuations by the General Partner. Although the General Partner uses its best judgment in estimating the fair value of the Limited Partnership investments, there are inherent limitations. Therefore, the values presented are not necessarily indicative of the amount that the Partnerships could currently realize. Future events could affect the estimates of fair value and could also affect the amount realized upon liquidation of the Limited Partnership investments.

Foundation policy states that assets are to be invested in a diversified portfolio of equity and fixed income securities. No investment is to be made that will cause the total investment in equities or fixed income securities issued or guaranteed by any one person, firm, or corporation to exceed five percent of the then fair market value of the Foundation; provided, this restriction is not to apply to either well diversified mutual funds, pooled funds, unit trust, or the like, or direct obligations of the U.S. Government and its fully guaranteed agencies. Equities are to represent a majority of Foundation assets up to a desired 75 percent of the total. Investments should be diversified; however investment managers will be allowed to choose reasonable degrees of concentration, or lack thereof. Bias in selection of equity investments should be toward quality and growth. A majority of fixed income securities are to be made in securities rated within the four highest grades assigned by Moody's Investor Service, Inc. or Standard & Poor's Corporation or, if unrated, deemed by the investment manager to be of comparable quality. A maximum of 15 percent of the total portfolio may be invested in foreign securities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pledges Receivable

In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, the Foundation recognizes unrestricted and restricted contribution pledges when all eligibility requirements outlined in GASB Statement No. 33 are met, provided that the pledge is verifiable and the resources are measurable and probable of collection. Contributions, which do not meet these eligibility requirements, including endowed contributions, are recognized upon receipt. According to GASB Statement No. 33, endowment contributions are recognized upon receipt since the Foundation can only comply with the requirement to maintain the principal intact once the contribution is received.

Pledges receivable expected to be received within the next year are classified as a current asset in the statement of net assets. Pledges receivable with expected receipt dates of greater than one year are classified as noncurrent assets and are discounted for the time value of money.

Allowance for Doubtful Accounts

The Foundation provides an allowance for doubtful pledges receivable based on management's best estimate of uncollectible pledges considering type, age, history and any other factors considered appropriate.

Capital Assets

Capital assets are recorded at cost at the date of acquisition. For financial statement reporting, the Foundation uses the following capitalization thresholds and estimated useful lives:

<u>Category</u>	<u>Capitalization Threshold</u>	<u>Estimated Useful Lives</u>
Land	\$ 100,000	-
Buildings	\$ 100,000	40-60 years
Building Improvements	\$ 25,000	30 years
Equipment	\$ 7,000	7 years

Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Other Noncurrent Assets

Other noncurrent assets represent the cash surrender value of insurance policies where donors have transferred ownership of the policy to the Foundation and the Foundation is named beneficiary.

Long-term Liabilities

Long-term liabilities include (1) principal amount of notes payable with a contractual maturity greater than one year; (2) estimated amounts for accrued compensated absences for designated University staff vacation and sick pay that will not be paid within the next year; and (3) estimated discounted value of future payments to beneficiaries of charitable remainder trusts, gift annuitants and a charitable lead trust that will not be paid within the next fiscal year.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Assets

The Foundation's net assets are classified as follows:

Invested in capital assets, net of related debt: Represents the investment in capital assets after depreciation, net of outstanding debt related to the capital assets.

Restricted for Nonexpendable: Represents endowed funds where the donors have stipulated, as a condition of the gift instrument, that the principal be maintained in perpetuity and invested for the purpose of producing income, which may either be expended or added to principal.

Restricted for Expendable: Represents funds where the donors have stipulated a specific or general purpose restriction regarding the expenditure of the gift.

Unrestricted: Represents funds where the donors have not stipulated any restriction on the utilization of the gift. These resources may be used to meet current expenditures for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the Foundation's policy is to first pay the expense from restricted resources and then from unrestricted resources.

Classification of Revenues

The Foundation has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions such as contracts and receipts generated by Foundation owned property.

Nonoperating Revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as contributions, special event fundraising receipts and investment income.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of the revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents consist of the following at June 30:

	<u>2006</u>		<u>2005</u>	
	<u>Bank Balance</u>	<u>Carrying Amount</u>	<u>Bank Balance</u>	<u>Carrying Amount</u>
Cash and Cash Equivalents	<u>\$ 6,589,196</u>	<u>\$ 6,183,335</u>	<u>\$ 3,882,734</u>	<u>\$ 3,368,352</u>

Custodial Credit Risk – Deposits: Custodial credit risk is the risk that in the event of a bank failure, deposits may not be returned. The Federal Deposit Insurance Corporation, Security Investor Protection Corporation or private insurance insured bank or account balances of \$3,078,912 and \$393,377 at June 30, 2006 and 2005, respectively. As of June 30, 2005, \$140,451 of the bank balance was uninsured and uncollateralized. The remaining bank balances of \$3,510,284 at June 30, 2006 and \$3,348,906 at June 30, 2005 were invested in a U.S. Treasury Money Market Fund. The Fund invests exclusively in U.S. Treasury bills, notes and other obligations issued or guaranteed by the U.S. Treasury, and repurchase agreements collateralized by such obligations. The Foundation does not have a formal deposit policy for custodial credit risk.

NOTE 3 – INVESTMENTS

The carrying value of the investment portfolio of the Foundation at June 30, 2006 and 2005, is as follows:

	<u>2006</u>	<u>2005</u>
U.S. Government Securities	\$ 11,958	\$ 13,562

NOTE 3 – INVESTMENTS (continued)

Interest Rate Risk: Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's value.

At June 30, 2006 and 2005, the Foundation has the following investments exposed to interest rate risk:

<u>Investment</u>	<u>2006</u>		<u>2005</u>	
	Fair Market Value		Fair Market Value	
Bond Mutual Funds	\$ 8,696,097	4.41 years effective duration	\$ 8,256,072	3.50 years effective duration
Bank Common Trusts	4,971,242	2.86 years effective duration	4,497,248	2.58 years effective duration
U.S. Government Securities	11,958	2/2023 maturity	13,562	2/2023 maturity
Certificates of Deposit	120,503	1/2007 maturity	27,757	3/2006 maturity

Duration is a measure of a fixed income's cash flows using present values, weighted for cash flows as a percentage of the investment's full price. Effective duration makes assumptions regarding the most likely timing and amounts of variable cash flows arising from such investments as callable bonds, prepayments, and variable-rate debt. The interest rate risk information for U.S. Government Securities and Certificates of Deposits is disclosed by specific identification since these investments have a distinct investment objective and are maintained separately.

The Foundation does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: Credit risk exists when there is a possibility that the issuer or other counterparty to an investment may be unable to fulfill its obligations. The Foundation's investment policy permits fixed income investments in securities rated within the four highest grades assigned by Moody's Investor Service, Inc. or Standard & Poor's Corporation or, if unrated, deemed by the investment manager to be of comparable quality.

As of June 30, 2006 and 2005, the Foundation has the following investments exposed to credit risk:

<u>Investment</u>	<u>2006</u>		<u>2005</u>	
	Fair Market Value	Average Quality	Fair Market Value	Average Quality

NOTE 6 – PROPERTY HELD AS TRUSTEE

In accordance with the term of the court order regarding a trust created by the will of Hazel Buck Ewing, the Foundation serves as trustee of the land and building and those contents of the building that were originally transferred to the trust by the executor. The terms of the court order permit the trustee to use the property exclusively for educational purposes as a museum to contain objects of art and of civic and cultural interest. If the Foundation should for any reason cease to qualify as trustee, the executor of the estate has full power to appoint a successor trustee.

The trustee has full power and authority to sell, mortgage, pledge, and otherwise dispose of said premises if deemed advisable. The proceeds of any such action would be required to be reinvested with the income to be used exclusively for religious, charitable, scientific, literary, or educational purpose within the State of Illinois.

Also, in accordance with the terms of the will, a second trust, in which the Foundation was not named as trustee, was created. The income from this trust is paid to the Foundation for the maintenance of the museum. During the years ended June 30, 2006 and 2005, the proceeds from this maintenance trust amounted to \$14,880 and \$12,485 respectively.

Notes Payable as of June 30, 2006 and 2005 consists of a \$1,000,000 line of credit (\$240,000 and \$300,000 outstanding as of June 30, 2006 and 2005, respectively) secured by all accounts on deposit with the lender, its subsidiaries, or affiliates; requiring monthly interest payments at 1.25% under the lender's prime rate; and having a principal maturity date of April 15, 2007. The original loan proceeds were used to construct the theatre at Ewing, owned by the Foundation. The Foundation's interest rate was 7% and 5% at June 30, 2006 and 2005, respectively.

NOTE 8 – OPERATING LEASE COMMITMENTS

In 1990, the Foundation established a Chicago office to provide the University with direct access to Chicago area alumni, corporation and Foundation networks. Lease payments for the Chicago office were \$64,244 in 2006 and \$58,867 in 2005. The current lease has been amended to expire on December 31, 2014. In addition, the Foundation leases a vehicle for the Executive Director of the Foundation and ten vehicles for University Athletic Department employees for a total cost of \$46,201 in 2006 and \$55,986 in 2005. The lease for the Executive Director expires in the fiscal year ending June 30, 2009. One of the leases for the Athletic Department vehicles expires in the fiscal year ending June 30, 2007, with nine leases expiring in the fiscal year ending June 30, 2009.

Future minimum lease payments as of June 30, 2006, are as follows:

NOTE 9 – COMMITMENT TO UNIVERSITY PROJECT

During 2003, the University began construction of the College of Business building. This project is jointly funded by the State of Illinois Capital Development Board, the University and private gifts received by the Foundation. The total estimated project cost is approximately \$30,000,000. Gifts and gift commitments, through the Foundation, to fund a portion of the project approximate \$10,760,000, of which approximately \$192,000 was still held by the Foundation as of June 30, 2006.

NOTE 10 – FUNDS HELD BY OTHERS

The Foundation is an income beneficiary of several trusts, the assets of which are held and administered by others, thus, the principal is not recorded in the accompanying financial statements. Income received from these assets was \$45,936 in 2006 and \$171,106 in 2005.

NOTE 11 – TRANSACTIONS WITH RELATED ORGANIZATIONS

The Foundation enters into annual contracts with the University Board of Trustees (acting for and on behalf of the University) that require the Foundation to provide fund raising and other assistance in order to attract private gifts for the use and benefit of the University. In consideration for these services the University provides office space and clerical, accounting and computer support as necessary. For the years ended June 30, 2006 and 2005, the University also compensated the Foundation \$260,000 each year for these services. A majority of accounts payable are due to the University.

NOTE 12 – DONOR RESTRICTED ENDOWMENTS

If a donor has not provided specific instructions, state law permits the Foundation to authorize for expenditure the net appreciation (realized and unrealized) of the investments of endowment funds. The Foundation Investment Committee adopted a spending policy for fiscal years 2006 and 2005 of 4.0% of the average market value of endowment investments for the preceding 12 months.

At June 30, 2006, net appreciation of approximately \$7,643,000 remains available for future authorization for expenditure by the Investment Committee for donor-restricted endowment funds. This amount is included in the Net Assets section of the Statement of Net Assets as Restricted for Nonexpendable.

NOTE 13 – COMMITMENT TO INVEST IN LIMITED PARTNERSHIPS

The Foundation has invested in various limited partnerships. According to the terms of the investment agreements, the Foundation has committed to invest \$4,346,457. As of June 30, 2006, the Foundation has invested \$1,233,740. The balance of the Foundation's investment commitments at June 30, 2006 is \$3,112,717.
