#### IMPROPER ACCOUNTING FOR CAPITAL ASSET IMPAIRMENTS

The University did not evaluate changes in circumstances affecting capital assets to determine whether impairment occurred and did not properly account for and report capital asset impairments in the financial statements. We noted:

- Buildings planned for demolition were still depreciated and maintained on the books, rather than evaluated for impairment and adjusted to reflect the decline in value when management chose to change the expected use.
- Deconstruction and demolition costs were capitalized instead of expensed as incurred.
- Notes to the financial statements did not disclose idle capital assets or impairment losses.

As a result, prior year net position balances were overstated by \$7,620,658 and current year expenses were understated by \$752,057. The financial statements and footnotes were corrected subsequent to audit testing. (Finding 1, pages 53-55)

We recommended the University establish procedures to ensure that transactions are carefully reviewed for proper accounting and disclosure and any necessary guidance should be obtained to ensure conformity with Generally Accepted Accounting Principles (GAAP).

University officials agreed with the finding and stated they will modify its capital asset procedures to ensure proper capitalization and as necessary, obtain guidance to ensure conformity with GAAP.

#### **AUDITOR'S OPINION**

Our auditors stated the financial statements of Western Illinois University as of June 30, 2016 and for the year then ended, are fairly stated in all material respects.
