FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INACCURATE CONTROLS OVER SERVICE PROVIDERS

Controls over service providers needs improvement

The Illinois Housing Development Authority (Authority) did not maintain adequate controls over service providers.

Documentation could not be provided for the completeness and accuracy of the population of service providers During the audit, we requested the Authority to provide a population of third-party service providers utilized. Although the Authority provided the population, they did not provide documentation demonstrating the population was complete and accurate. Due to this condition, we concluded the Authority's population was not sufficiently precise and detailed under the Professional Standards promulgated by the American Institute of Certified Public Accountants (AU-C § 330, AU-C § 530, AT-C § 205).

Despite the population limitations noted above, we performed testing. During testing of five service providers, we noted:

- The Authority had not reviewed the service providers' System and Organization Control (SOC) reports.
- The contracts with the service providers did not document roles and responsibilities, controls over the security, integrity, availability, confidentiality, and privacy. In addition, the contracts did not require the service provider to undergo a SOC examination. (Finding 1, pages 88-89)

We recommended the Authority perform procedures to ensure its listing of service providers utilized is complete and accurate. In addition, we recommended the Authority review SOC reports and review its contracts with service providers to ensure roles and responsibilities and security controls are documented and SOC examinations of the service providers' controls are carried out.

Authority agreed with the auditors

Authority officials accepted the recommendation.

OTHER FINDING

The remaining finding pertains to inadequate controls over investments. We will review the Authority's progress towards the implementation of our recommendation in our next financial audit.
