DeKalb, Illinois 60115
Government Auditing Report Summary

The audit of the financial statements of the Northern Illinois University (University) was performed by Clifton Gunderson LLP in accordance with Government Auditing Standards. This report is an integral part of that audit.

Based on their audit, the auditors expressed an unqualified opinion on the University’s basic financial statements, issued under a separate cover.

Summary of Findings

The auditors did not identify any matters involving the University’s internal control over financial reporting that they considered to be a significant deficiency or material weakness.
Independent Auditor’s Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Honorable William G. Holland
Auditor General
State of Illinois
and
Cherilyn G. Murer, Honorable Chair of the Legislation, Audit and External Affairs Committee

As Special Assistant Auditors for the Auditor General, we have audited the financial statements of the business-type activities of Northern Illinois University (University) and its aggregate discretely presented component units, collectively a component unit of the state of Illinois, as of and for the year ended June 30, 2010 which collectively comprise the University’s basic financial statements, and have issued our report thereon dated December 6, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the University’s discretely presented component units, as described in our report on the University’s financial statements. This report does not include the results of other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the University’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis.
Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, University management, the University Board of Trustees and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
