FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

CONTROLS OVER FINANCIAL STATEMENT PREPARATION

The Regional Office of Education #21 did not have sufficient internal controls over the financial reporting process.

The Regional Office of Education #21 is required to maintain a system of controls over the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). Regional Office internal controls over GAAP financial reporting should include adequately trained personnel with the knowledge and expertise to prepare and/or thoroughly review GAAP based financial statements to ensure that they are free of material misstatements and include all disclosures as required by the Governmental Accounting Standards Board (GASB).

The Regional Office of Education #21 did not have sufficient internal controls over the financial reporting process. The Regional Office maintains their accounting records on the cash basis of accounting during the fiscal year and posts year end accrual entries for audit purposes. While the Regional Office maintains controls over the processing of most accounting transactions, there are not sufficient controls over the preparation of the GAAP based financial statements for management or employees in the normal course of performing their assigned functions to prevent or detect financial statement misstatements and disclosure omissions in a timely manner. For example, auditors, in their review of the Regional Office's accounting records, noted adjustments were required to present financial statements in accordance with generally accepted accounting principles.

According to ROE officials, with the wide range of accounting issues the Office deals with, accounting personnel had not obtained necessary training to become proficient in the preparation and review of GAAP based financial statements and to ensure inclusion of all disclosures as required by the Governmental Accounting Standards Board (GASB). (Finding 12-01 pages 10a-10b) **This finding was first reported in 2007.**

The auditors recommended that, as part of its internal control over the preparation of financial statements, including disclosures, the Regional Office of Education #21 should implement a comprehensive preparation and/or review procedure to ensure that the financial statements, including disclosures, are complete and accurate. Such procedures should be performed by an individual(s) possessing a thorough understanding of applicable generally accepted accounting principles, GASB pronouncements, and knowledge of the Regional Office of Education's activities and operations.

The Regional Office of Education #21 responded that in its continuous effort to maintain controls over financial statement preparation, the ROE will follow its hiring of qualified personnel with the pursuit of continued training opportunities to improve its skills and efforts in meeting the requirements. (For previous Regional Office response, see Digest Footnote #1.)
