For the Year Ended June 30, 2023

## Prior Finding Not Repeated

## A. Inaccurate Census Data

In the prior compliance examination, the Office of the Comptroller (Office) had certain deficiencies in their internal controls in place to ensure accurate census data was provided to the General Assembly Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

During the current compliance examination, we did not detect any errors in our testing which would indicate noncompliance in the census data that is provided to the System for use in the annual actuarial valuation process. As a result, this finding is not repeated. (Finding Code No. 2022-001)
