### FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

# NEED TO IMPROVE FINANCIAL REPORTING PROCESS

	The Illinois Conservation Foundation (Foundation) does not have sufficient internal controls over the financial reporting process.	
Reporting errors	Several errors were identified during the audit of the Foundation's financial statements. The Foundation's financial statements were adjusted for the following reporting errors:	
Adjusting entries not made	• The Foundation failed to make numerous adjusting entries to present the financial statements in accordance with Generally Accepted Accounting Principles (GAAP).	
Entries not posted	• The Foundation did maintain records to indicate the balances of accounts payable and accounts receivable. However, no entries were posted to record the activity.	
\$109,282 adjustment to correct the realized and unrealized gain balances	• The Foundation had realized and unrealized gains posted to opposite accounts in error. A net audit adjustment of \$109,282 was recorded to correct the balances in the realized and unrealized gain accounts.	
Vacation accrual for employees was not recorded	• The Foundation does not track vacation accrual for employees. An audit adjustment of \$23,704 was made to record the liability for the Foundation.	
Adjustment for noncash contributions	• Noncash contributions of materials, facilities, and services are not being tracked by management. An audit adjustment of \$25,300 was made to record noncash contributions.	
Foundation could not determine noncash contributions used during special events	• Noncash contributions of items used by the Foundation during special events are not recorded or tracked. The Foundation is unable to determine the amount of items received and utilized during special events throughout the year. (Finding 1, page 13-14) <b>This finding was first reported in 2011.</b>	
	We recommended the Foundation implement additional internal control procedures to ensure financial statements are prepared in accordance with GAAP.	
Management agrees with auditors	Foundation management accepted our recommendation.	

#### NEED TO IMPROVE INTERNAL CONTROLS

The Foundation lacks adequate segregation of duties over its accounting functions.

The Foundation has two employees, an Executive Director and a property manager, and two contractual employees, the Chief Financial Officer and the Contract Federal Grant Director. Because of the small size of the Foundation staff, all of the accounting functions are performed by one employee which creates a segregation of duties issue. (Finding 2, page 15) **This finding was first reported in 2009.** 

We recommended the Board of Directors remain involved in the financial affairs of the Foundation to provide oversight and independent review functions.

Foundation management accepted our recommendation. (For the previous Foundation response, see Digest Footnote #1.)

### NONCOMPLIANCE WITH ACCOUNTABILITY FOR THE INVESTMENT OF PUBLIC FUNDS ACT (ACT)

The Foundation did not present information on the internet concerning their investments of public funds as required by the Act. The Foundation had various investment balances (debt securities, equity securities, commodities, real estate, other assets) totaling \$2,575,588 that would be classified as public funds at June 30, 2012.

The Accountability for the Investment of Public Funds Act (30 ILCS 237) requires each State agency to make available on the internet, and update as least monthly by the 15 of the month, sufficient information concerning the investment of any public funds held by the State Agency to identify the amount of funds held by the agency on the last day of the preceding month or the average daily balance for the preceding month, the total monthly investment income and the yield for all funds invested, the asset allocation of the investments, and a complete listing of all approved depository institutions, commercial paper issuers, and broker-dealers approved to do business with the agency. (Finding 3, pages 16-17) **This finding was first reported in 2008.** 

We recommended the Foundation comply with the requirements of the Act and ensure the information concerning the investment of public funds is updated monthly by the  $15^{\text{th}}$  of each month.

#### Management disagrees with auditors

Foundation management respectfully disagreed with our recommendation and stated they will seek legislation to clarify its exemption from the Investment of Public Funds Act. (For the previous Foundation response, see Digest Footnote #2.)

# All accounting functions are performed by one employee

Management agrees with auditors

# Noncompliance with reporting requirement

#### **AUDITORS' OPINION**

Auditors' qualify opinion on financial statements

The auditors expressed a qualified opinion on the Foundation's financial statements for the year ended June 30, 2012. The auditor's qualified their opinion on the financial statements because the Foundation did not maintain sufficient documentation to determine the value of noncash contributions made to the Foundation's special events held throughout the year.
