INTRODUCTION

This digest covers Eastern Illinois University's Financial Audit as of and for the year ended June 30, 2025. Digests covering the University's Single Audit and the University's Compliance Examination for the year ended June 30, 2025 will be issued at a later date.

SYNOPSIS

(25-01) The University did not have adequate internal control over reporting its census data to provide assurance that the census data submitted to the State Universities Retirement System (System) and State Employees' Group Insurance Program (Plan) was complete and accurate.

Category 1: Findings that are material weaknesses in internal control and/or a qualification on compliance with State laws and regulations (material noncompliance).

Category 2: Findings that are significant deficiencies in internal control and noncompliance with State laws and regulations.

Category 3: Findings that have no internal control issues but are in noncompliance with State laws and regulations.

EASTERN ILLINOIS UNIVERSITY FINANCIAL AUDIT For The Year Ended June 30, 2025

FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INADEQUATE INTERNAL CONTROLS OVER CENSUS DATA

Internal controls over census data need improvement

Eastern Illinois University (University) did not have adequate internal control over reporting its census to provide assurance that census data submitted to the State Universities Retirement System (SURS) and State Employees' Group Insurance Program (Plan) was complete and accurate.

During testing, we noted the following:

No process to reconcile incremental changes

- While the University had performed an initial complete reconciliation of its census data recorded by the System to its internal records, the University had not fully developed a process to annually obtain from the System the incremental changes recorded by the System in the census data records and reconcile these changes back to the University's internal supporting records.
- During completeness testing of University faculty data, the auditors identified six instructors were not reported as eligible to participate in the System and Plan by the University.
- During cut-off testing of data transmitted by the University to the System, the auditors identified fourteen employee termination events were reported to the System after the close of the fiscal year in which the event occurred, resulting in inaccurate member status (active or inactive) as of fiscal year-end. (Finding 1, pages 5-8)

We recommended the University continue to work with the System to establish the process of annually obtaining from the System the incremental changes recorded in the census data records and reconcile these changes back to the University's internal supporting records. If differences are noted between the University's data and the System's data, these differences should be communicated timely and rectified to ensure the actuarial valuations are using accurate data.

Further, we recommended the University strengthen controls to ensure all eligible employees are reported to the System and State, along with any required employee and employer contributions.

Finally, we recommended the University strengthen controls to ensure all events occurring within the census data accumulation year are reported timely to the System so these events can be

University agreed

incorporated into the census data utilized in the annual actuarial valuation process.

The University agreed with the recommendations.

AUDITOR'S OPINION

The auditors stated the financial statements of the University as of and for the year ended June 30, 2025, are fairly stated in all material respects.

This financial audit was conducted by Plante & Moran, PLLC.
