INTRODUCTION

This digest covers the financial audit of the State Lottery Fund as of and for the year ended June 30, 2021, and the six findings arising from the financial audit reported under *Government Auditing Standards*. A separate digest covers the Department's compliance examination for the two years ended June 30, 2021.

SYNOPSIS

- (21-03) The Department had not fully implemented corrective action to quantify the impact of improper prior period overhead charges and had not performed a "true up" of its estimated prize liabilities to prizes paid.
- (21-06) The Department did not maintain adequate controls over changes to its Internal Control System.

Category 1: Findings that are **material weaknesses** in internal control and/or a **qualification** on compliance with State laws and regulations (material noncompliance).

Category 2: Findings that are significant deficiencies in internal control and noncompliance with State laws and regulations.

Category 3: Findings that have no internal control issues but are in noncompliance with State laws and regulations.

FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

INADEQUATE CONTROLS OVER SPECIALTY TICKETS

The Department of the Lottery (Department) had not fully implemented corrective action to quantify the impact of improper prior period overhead charges and had not performed a "true up" of its estimated prize liabilities to prizes paid.

During the Fiscal Year 2017 and Fiscal Year 2018

annual audits, predecessor auditors had questioned

whether the Department's practice of allocating an overhead charge to specialty tickets conformed with the Illinois Lottery Law's net revenue formula. Department officials ultimately agreed with the predecessor auditors and ceased allocating the overhead charge during Fiscal Year 2019. However, the Department has not yet quantified the difference

between the overhead charge and its actual

administrative costs solely related to each specialty scratch-off game from October 2008 through June 2018. As such, the Department has not posted adjusting entries to correct prior period errors.

The Department has not performed its "true up" for its

initial estimated prize liability for specialty ticket

games ending during the two years prior to June 30,

2018. This true up would recalculate the amount of

net revenue based upon actual known prizes paid after the game had formally ended, with adjusting entries being posted to correct for estimation differences.

Due to the two preceding problems, the "accrual only"

information sent by the Department to the Department

of Public Health, the Department of Veterans' Affairs, and the Department of Human Services during the State's annual financial reporting process was not

During testing, we noted the following problems:

•

Prior period errors first identified in Fiscal Year 2017 were not corrected

Adjustments to correct differences between estimated prize liabilities and actual cash payments made have not been performed

Financial data sent to other agencies was not complete and accurate

Management has been unsuccessful in implementing corrective action

Recommendation

In addition, this finding was first noted during the Department's Fiscal Year 2017 engagement, five years ago. As such, Department management has been unsuccessful in implementing a corrective action plan to remedy these deficiencies. (Finding 3, pages 56-59) **This finding has been repeated since 2017.**

We recommended the Department develop an annual financial reporting checklist which includes performing a "true up" of

complete and accurate.

Department officials agree	actual prizes paid to estimated prizes paid for all games that have closed out. Further, the Department should complete its analysis of the impact of allocating the overhead rate as opposed to actual administrative costs and, as necessary, post adjusting entries. Department officials accepted our recommendation.
	INADEQUATE CONTROLS OVER CHANGE MANAGEMENT
	The Department did not maintain adequate controls over changes to its Internal Control System (ICS).
ICS documentation was out of date and lacked certain key controls	 The Department utilizes ICS to process lottery drawing transactions and validate the online gaming system. During our review of the Department's <i>ICS Change Management Procedures</i>, we noted it had not been updated since September 2014 and did not document: guidelines for prioritization and classification of changes; testing and documentation requirements; and, controls over emergency changes.
Department does not have policies controlling developers' access to ICS' production environment	Further, we requested the Department's documentation controlling developers' access to ICS' production environment; however, this documentation was not provided. Therefore, we were unable to determine if developer access was appropriate. (Finding 6, pages 64-65)
Recommendation	 We recommended the Department update the <i>ICS Change</i> <i>Management Procedures</i> to ensure they address: guidelines for prioritization and classification of changes; testing and documentation requirements; and, controls over emergency changes.
	We further recommended the Department ensure the developers of ICS have appropriate access with documentation maintained of such.
Department officials agree	Department officials accepted our recommendation.
	OTHER FINDINGS
	The remaining findings pertain to noncompliance with fund transfer provisions, inadequate controls over census data and SOC report reviews, and system access weaknesses. We will review the Department's progress towards the implementation of our recommendations in our next financial audit.

AUDITOR'S OPINION

The auditors stated the financial statements of the State Lottery Fund as of and for the year ended June 30, 2021, are fairly stated in all material respects.

This financial audit was conducted by Sikich, LLP.
