### **INTRODUCTION**

This digest covers the Northern Illinois University's Financial Audit as of and for the year ended June 30, 2020. The Northern Illinois University's Compliance Examination (including the Single Audit) covering the year ended June 30, 2020 will be issued at a later date.

### **SYNOPSIS**

• (20-1) The University did not have adequate internal control over reporting its census data and did not have a reconciliation process to provide assurance census data submitted to its pension and other postemployment benefits plans was complete and accurate.

Category 1: Findings that are material weaknesses in internal control and/or a qualification on compliance with State laws and regulations (material noncompliance).
Category 2: Findings that are significant deficiencies in internal control and noncompliance with State laws and regulations.
Category 3: Findings that have no internal control issues but are in noncompliance with State laws and regulations.

### FINDINGS, CONCLUSIONS, AND RECOMMENDATIONS

## INADEQUATE INTERNAL CONTROLS OVER CENSUS DATA

Northern Illinois University (University) did not have adequate internal control over reporting its census data and did not have a reconciliation process to provide assurance census data submitted to its pension and other postemployment benefits (OPEB) plans was complete and accurate.

Some of the more significant issues we noted during our testing are as follows:

- The University had not performed an initial complete reconciliation of its census data recorded by SURS and CMS to its internal records to establish a base year of complete and accurate census data.
- We conducted data matches of (1) individuals pulled from the University's records whom the University believed should have been participating in SURS during the census data accumulation period throughout Fiscal Year 2018 and (2) the University's faculty members teaching a class during the census data accumulation period throughout Fiscal Year 2018 to SURS' records. As a result of this testing, we identified 8 individuals who had been improperly excluded from participating in SURS, which resulted in these people not having any employee contributions collected by the University and reported to SURS during the census data accumulation period throughout Fiscal Year 2018. Additionally, we identified 3 individuals who did not qualify to participate in SURS. As these persons had been deemed SURS-eligible, the University collected and reported employee contributions to SURS during the census data accumulation period throughout Fiscal Year 2018.

We performed an analysis of transactions reported by the University to SURS during the census data accumulation period throughout Fiscal Year 2018, noting some of the following problems:

- Nine of 542 (2%) employees reported as hired had actually been hired in other fiscal years. SURS determined the total potential impact to each employee's total service credit was it could be off by one-quarter to 1 year.
- One of 5 (20%) employees reported as laid off by the University were untimely reported to SURS by the

# Internal controls over census data need improvement

An initial complete reconciliation

had not been performed

## 8 individuals were improperly excluded from participating in SURS

University. SURS determined the total potential impact to the former employee's total service credit was it could be off by one-quarter year.

- Five of 26 (19%) employees with a departure on a leave of absence had the start date of the leave of absence untimely reported to SURS by the University. SURS determined the total potential impact to each of these employees' total service credit was it could be off by three-quarters to 23.5 years.
- As of the end of the census data accumulation year on June 30, 2018, we identified 5 employees where each employee's associated termination or rehire date(s) had been untimely reported to SURS. While these employees were all associated with the University at June 30, 2018, some or all of these untimely reports may have occurred at other public universities and community colleges across the State. SURS determined these errors resulted in the employees being misclassified between the active, retired, and inactive member categories within SURS. The total potential impact to each former employee's total service credit was it could be off between 0.0 and 1.75 years. (Finding 1, Pages 5-8)

We recommended the University implement controls to ensure census data events are timely and accurately reported to the State Universities Retirement System (SURS) and the State of Illinois, Department of Central Management Services (CMS). We also recommended the University work with SURS and CMS to develop an annual reconciliation process of its active members' census data from its underlying records to a report from each plan of census data submitted to the plan's actuary.

**University agrees with the auditors** University officials agreed with the finding.

#### **AUDITOR'S OPINION**

The auditors stated the financial statements of the University as of and for the year ended June 30, 2020 are fairly stated in all material respects.

This financial audit was conducted by CliftonLarsonAllen, LLP
