Financial Statement Report

Summary

The audits of the accompanying financial statements of The Illinois Funds of the State of Illinois, Office of the Treasurer, were performed by McGladrey LLP as of and for the years ended June 30, 2014 and 2013.

Based on their audits, the auditors expressed unmodified opinions on The Illinois Funds' financial statements.

Independent Auditor's Report

Independent Auditor's Report

The Honorable William G. Holland
 Auditor General
 State of Illinois

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of The Illinois Funds, a fiduciary (investment trust) fund of the State of Illinois, Office of the Treasurer, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Illinois Funds, of the State of Illinois, Office of the Treasurer as of June 30, 2014 and 2013, and the changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only The Illinois Funds, and do not purport to, and do not, present fairly the financial position of the State of Illinois or the State of Illinois, Office of the Treasurer, as of June 30, 2014 and 2013, and the changes in its financial position, for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements of The Illinois Funds of the State of Illinois, Office of the Treasurer. The Supplementary Information (pages 16 – 22), and the other Information (pages 23 – 28) are presented for purposes of additional analysis and are not a required part of the financial statements.

The Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The Other Information, consisting of the Money Market Fund Investment Policy has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our reports dated December 19, 2014 and December 10, 2013, on our consideration of the State of Illinois, Office of the Treasurer's internal control over financial reporting of The Illinois Funds and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of these reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. These reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Office of the Treasurer's internal control over financial reporting of The Illinois Funds and its compliance.

Notes to the Financial Statements

Background

The Illinois Funds was established in 1976 (through 15 ILCS 505/17) to supplement and enhance the investment opportunities available to custodians of public agency funds throughout the State of Illinois. The management, custodianship, and operation of The Illinois Funds are under the supervision of the State of Illinois, Office of the Treasurer ("Treasurer").

Note 1. Summary of Significant Accounting Policies

Financial Reporting Entity: As described in the Illinois Comprehensive Annual Financial Report, the State of Illinois is the primary government, which includes all funds, elected offices, departments, and agencies of the State, as well as boards, commissions, authorities, universities and colleges over which the State's executive or legislative branches exercise legal control.

The Illinois Funds is not legally separate from the State of Illinois and is, therefore, determined to be part of the primary government. The Illinois Funds is included in the Illinois Comprehensive Annual Financial Report as an investment trust fund. The Illinois Funds consists of an internal and external portion. The internal portion is the portion that belongs to the State and its component units. The external portion is the portion belonging to the noncomponent-unit participants. The scope of The Illinois Funds' financial statements presented herein is limited to the financial position of The Illinois Funds, including net position available to all participants, both internal and external, and the changes in net position. The internal portion of The Illinois Funds is included in the various funds in the Illinois Comprehensive Annual Financial Report as an investment.

As a governmental sponsored investment pool, The Illinois Funds is not eligible to register with the Securities and Exchange Commission ("SEC") and thus is not a registrant with the SEC; however, The Illinois Funds has adopted operating procedures consistent with those required of a SEC 2a-7 Fund (2a-7-like Fund). The Illinois Funds has a policy that it will, and does, operate in a manner consistent with SEC Rule 2a-7, which governs the operation of SEC regulated money market funds.

Fiduciary Fund: The Illinois Funds is classified as an investment trust fund. This investment trust fund is used to account for assets held by The Illinois Funds in a trustee capacity or as an agent for public treasurers and other custodians of public monies throughout the State of Illinois. This investment trust fund is not held in the State Treasury and is a non-appropriated fund.

Basis of Accounting and Measurement Focus: The accounts of The Illinois Funds are maintained and reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place.

Cash Equivalents, Deposits, and Investments: Cash equivalents are defined as short-term, highly liquid investments readily convertible to cash with maturities of 90 days or less at time of purchase.

Repurchase agreements (securities purchased under agreements to resell) are reported at cost plus accrued interest.

Commercial paper is stated at amortized cost, which excludes accrued interest and includes accretion of discounts and amortization of premiums. Commercial paper utilizes the straight-line method of amortization or accretion. It is the intent of management to hold commercial paper to maturity.

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Money market mutual funds are carried at cost and are purchased from various brokerage firms. The funds are comprised of U.S. Treasury and U.S. agency obligations. Mutual fund yields are subject to market rate fluctuations.

U.S. agency obligations are stated at amortized cost, which excludes accrued interest and includes accretion of discounts and amortization of premiums. U.S. agency coupon notes utilize the constant yield method and, when applicable, all others use straight-line amortization. It is the intent of management to hold U.S. agency securities to maturity unless market conditions provide for realization of a gain and management determines a sale would be in the best interest of The Illinois Funds.

U.S. Treasury obligations are stated at amortized cost, which excludes accrued interest and includes accretion of discounts and amortization of premiums. Treasury notes utilize the constant yield method and strips and bills use straight-line amortization. It is the intent of management to hold U.S. Treasury obligations to maturity unless market conditions provide for realization of a gain and management determines a sale would be in the best interest of The Illinois Funds.

Investment expenses consist of bank custodial fees and State management fees. Both custodial fees and State management fees are accrued daily based on the net asset value of The Illinois Funds. For more information, see Note 4.

Management Estimates: To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make certain estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. These estimates may differ from actual results.

Net Position Available to Participants: The net position available to participants represents the total value of all participant deposits including late deposits held in an overnight investment account as of June 30, 2014 and 2013.

The Illinois Funds operates in a manner similar to an open-end mutual fund. Participants' deposits and withdrawals were accounted for as purchases and sales of The Illinois Funds' capital shares. The amount of net proceeds from the sale of shares represents the gross withdrawals, which were redeemed from The Illinois Funds' shares during the year. The cost of shares purchased represents the gross deposits, which were invested in The Illinois Funds' shares during the year. These amounts did not include deposits or earnings, which were remitted directly to participants versus invested (or reinvested) in The Illinois Funds' shares.

Office of the Treasurer
The Illinois Funds

Notes to the Financial Statements

Note 2. Deposits and Investments

Governmental Accounting Standards Board Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, established standards for accounting for investments held by governmental entities. The Illinois Funds operates as a 2a7-like pool and, thus, reports all investments at amortized cost rather than fair value.

Permitted Deposits and Investments: The Treasurer's investment activities are governed by the Treasurer's published investment policies, which were developed in accordance with State statute and the desire to maintain The Illinois Funds' AAA rating from Standard & Poor's. In addition, the Treasurer's Office has adopted its own investment practices, which supplement the statutory requirements.

For The Illinois Funds, the Treasurer may invest in time deposits and other interest-bearing accounts in banks and savings and loan associations located in Illinois that are insured by the Federal Deposit Insurance Corporation ("FDIC"), credit unions whose principal office is located in Illinois, obligations of the United States and its agencies, short-term obligations of corporations whose obligations are rated among the two highest classifications established by at least two standard rating services, repurchase agreements, or other investments approved by State law.

The Illinois Funds is rated AAA by Standard & Poor's Ratings.

The Illinois Funds determines the fair value of investments annually in connection with year-end financial reporting. A summary of investments held at June 30, 2014 and 2013 is as follows:

Summary of Investments at June 30, 2014:

Custodial Credit Risk: Custodial credit risk for deposits and investments is the risk that, in the event of a financial institution failure, The Illinois Funds would not be able to recover the value of the deposits and investments in the possession of an outside party. The Office of the Treasurer has a formal policy to address custodial risk.

Repurchase agreements are purchased from various brokerage firms and financial institutions. Securities pledged as collateral to secure these agreements are required to have a fair value of at least 102% of the agreement. The agreements require both parties to maintain an acceptable margin (yield) on underlying securities to ensure that the agreements are adequately collateralized. The Treasurer accepts only U.S. agency obligations and U.S. Treasury obligations as collateral for repurchase agreements. All securities pledged to secure repurchase agreements are required to be delivered to the appointed Custodian of The Illinois Funds.

Other instruments, such as U.S. Treasury obligations, may be purchased from various brokerage firms and are held in safekeeping by the appointed Custodian of The Illinois Funds.

Investments					\$ 5,309,154					\$ 5,845,271

The master repurchase agreements utilized by The Illinois Funds require the broker or financial institution to maintain the fair value of collateral securities at 102% of the agreement. The carrying amount of the repurchase agreements (excluding accrued interest) was \$2,000,000,000 and \$2,350,000,000 as of June 30, 2014 and 2013, respectively. The fair value, including accrued interest, of the underlying securities to be resold based on commitments under the repurchase agreements was \$2,104,538,223 and \$2,409,564,255 as of June 30, 2014 and 2013, respectively.

Interest Rate Risk: Interest Rate risk is the risk that changes in the interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the investment policies limit the investment portfolio maturities. The Illinois Funds investment policy limits its investment portfolio to maturities not to exceed two years with a minimum of 75% required to be in authorized investments with less than one-year maturity. The investment policy specifically requires that no more than 50% of total assets can be invested in securities with maturities greater than 30 days issued by any single permissible United States government agency or instrumentality. The Treasurer's Office uses the segmented time distribution method to identify and manage interest rate risk.

Note 2. Deposits and Investments (Continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As of June 30, 2014, The Illinois Funds' investments in U.S. Agencies, including collateral for repurchase agreements were rated AA+ by Standard & Poor's Ratings or Aaa by Moody's Investors Service with the exception of Federal Agricultural Mortgage Corporation obligations which were not rated. The Illinois Funds' investments in commercial paper were rated P-1 by Moody's Investors Service and A-1 by Standard & Poor's Ratings, except for those issued by Toronto Dominion HDG USA which were rated A-1+ by Standard & Poor's. The Illinois Funds' investments in money market mutual funds were rated Aaa by Moody's Investors Service and AAAm by Standard & Poor's Ratings.

As of June 30, 2013, The Illinois Funds' investments in U.S. Agencies, including collateral for repurchase agreements were rated AA+ by Standard & Poor's Ratings or Aaa by Moody's Investors Service. The Illinois Funds' investments in commercial paper were rated P-1 by Moody's Investors Service and A-1 by Standard and Poor's Ratings, except for those issued by Prudential Funding which were rated A-1+ by Standard and Poor's Ratings and P-2 by Moody's Investors Service. The Illinois Funds' investments in money market mutual funds were rated Aaa by Moody's Investors Service or AAAm by Standard & Poor's Ratings.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of The Illinois Funds' investment in a single issuer. The following investments exceeded 5% of The Illinois Funds' total investments at June 30, 2014 and 2013. (Amounts are in thousands.)

Notes to the Financial Statements

Note 3. Investment Income

The Illinois Funds follows the accounting practice known as equalization. Accordingly, distributable investment income is allocated daily and paid monthly to participants on a pro rata (per share) basis and accumulated investment income payable is credited to The Illinois Funds' net asset base. A portion of the proceeds from sales and costs of repurchases of The Illinois Funds' capital shares (equivalent, on a per share basis, to the amount of distributable investment income on the date of the transaction) are credited or charged to undistributed income. As a result, undistributed investment income per share is unaffected by sales or redemptions of The Illinois Funds capital shares.

Note 4. Administrative Fees

To administer The Illinois Funds, the Treasurer has established a division entitled "The Illinois Funds' Administrative Office." This division had 17 and 21 average full time equivalent employees for the years ended June 30, 2014 and 2013, respectively. The revenues and expenditures of the division are recorded in an enterprise fund maintained by the Treasurer entitled The Illinois Funds' Administrative Trust Fund No. 195.

US Bank (USB) performs the custodial responsibilities for the administration of The Illinois Funds. USB calculates the administrative and custodial fees paid to the State Treasurer and USB, respectively.

Fees are calculated on a tiered structure. Both fees are paid from a charge based on the net asset value of The Illinois Funds. The fee is accrued daily and withdrawn monthly from the fund. The custodian's fee is calculated at 0.0395% for the first \$3,000,000,000; 0.0245% for the next \$2,000,000,000; 0.0235% for the next \$1,000,000,000; 0.0185% for the next \$4,000,000,000; and 0.0135% for the amount over \$10,000,000,000 per annum of the market value of the total amount of The Illinois Funds.

The State Treasurer receives up to 0.05% per annum of the net asset value of The Illinois Funds. This fee is used to defray administrative costs associated with investing The Illinois Funds' assets, to increase marketing efforts needed to expand participation in The Illinois Funds, and to improve the level of service to participants.

The Treasurer's Office has the ability to rebate to The Illinois Funds' participants any excess administrative fees collected during the fiscal year. There were no excess administrative fees rebated to The Illinois Funds' participants during fiscal years 2014 and 2013.

Expenditures	2,743,000	3,092,000

Note 5. Related Parties

The Illinois Funds' Administrative Office, a division of the State Treasurer's Office, is responsible for the administration of The Illinois Funds, including management of investments and marketing services. The Illinois Funds' Administrative Office received fees as stated in Note 4 during fiscal years 2014 and 2013, respectively. The Illinois Funds' Administrative Trust Fund No. 195 was maintained by the Treasurer in a separate investment account of The Illinois Funds. The cash balance at June 30, 2014 and 2013, was approximately \$2,571,000 and \$2,952,000, respectively.

The State of Illinois, its agencies, and its universities invest in The Illinois Funds. The detail follows:

The Illinois Funds
Money Market Fund Investment Policy
For the Year Ended June 30, 2014
(Unaudited)

1.0 Policy: The State Treasurer of Illinois ("Treasurer") has authority under Section 17 of the State Treasurer's Act (15 ILCS 505/17) to establish and administer an investment pool to supplement and enhance investment opportunities otherwise available to managers of public funds or public agencies in the state. It is the policy of the Treasurer to invest funds pooled by local governments in the Money Market Fund within The Illinois Funds (previously referred to as the Illinois Public Treasurers' Investment Pool or IPTIP) in a manner which will provide the highest investment return using authorized instruments, while meeting the daily cash flow demands of participants and conforming to all state statutes governing the investment of public funds. It is the policy of The Illinois Funds to operate in a manner consistent with SEC Rule 2a7.

2.0 Objective: The primary objective in the investment of funds within the Money Market Fund is the safety of principal, while providing all participants a competitive rate of return and daily access to invested funds.

2.1 Safety: The safety of principal is the foremost objective of the investment program. Money Market Fund investments shall be undertaken in a manner, which seeks to ensure the preservation of principal in the portfolio. To obtain this objective, diversification among permissible investments is required to ensure that the Money Market Fund properly manages market, interest rate and credit risk.

2.2 Liquidity: The investment portfolio shall remain sufficiently liquid to enable the Money Market Fund to meet all Participant redemption demands that might be reasonably anticipated.

2.3 Return on Investment: The investment portfolio shall be designed to obtain the highest available return, taking into account the Money Market Fund's investment risk constraints and cash flow needs. The Treasurer will select accepted industry benchmarks which best reflects the Money Market Fund's portfolio and measure performance against certain benchmarks over time. The Treasurer will periodically review benchmarks for suitability.

3.0 Ethics and Conflicts of Interest: Authorized investment staff and employees in policy making positions for the Money Market Fund shall refrain from personal business activity that conflicts with proper execution of the investment program, or which impairs their ability to make impartial investment decisions. Such individuals shall disclose to the Treasurer any material financial interests in financial institutions or broker/dealers that conduct business within the State. They shall further disclose any personal investments that are related to the performance of the Money Market Fund's portfolio. In addition, such individuals shall subordinate their personal investment transactions to those of the Money Market Fund, particularly with regard to the time of purchase and sales.

4.0 Authorized Broker/Dealers and Financial Institutions: Authorized investment staff shall utilize the Treasurer's approved list of broker/dealers and financial institutions when selecting institutions to provide investment services. No monies may be deposited in any financial institution until investment officers have conducted a safety and soundness review of the financial institution by consulting various bank rating services, unless the financial institution has not yet been rated by the bank rating services, in which case the institution may be eligible for a deposit that at maturity will not exceed \$100,000. The amount and duration of deposits shall be based on the safety and soundness review in accordance with guidelines established by the Investment Policy Committee and the diversification limits set forth in Section 9.0. No public deposit may be made except in a qualified public depository as defined by the Deposit of State Moneys Act (15 ILCS 520). In addition, a list shall also be maintained of approved security broker/dealers selected according to their credit worthiness, and their financial significance in the

7.0 Collateralization: All Money Market Fund deposits and repurchase agreements shall be secured by direct U.S. Treasury and/or U.S. Agency obligations as required by the Treasurer and provided for by the Deposit of State Moneys Act (15 ILCS 520) and the Treasurer's Acceptable Collateral Listing, which may change from time to time.

8.0 Safekeeping and Custody: All direct treasury, agency and instrumentality security transactions entered into by the Money Market Fund shall be conducted on a delivery-versus-payment ("DVP") or receipt-versus-payment ("RVP") basis. Securities shall be held by a safekeeping agent designated by the Treasurer, and evidenced by safekeeping receipts. Commercial Paper will settle daily with the Depository Trust Company.

9.0 Diversification: The primary purpose of diversification in general is to control credit and market risk. The Money Market Fund portfolio will be diversified to eliminate the risk of loss resulting from concentration of assets in a specific maturity, a specific issuer or a specific class of securities. The majority of Money Market Fund investments will be in direct obligations of the United States Treasury and United States Government Agencies and Instrumentalities and Cash Equivalents as listed in section 5.0. In order to properly manage any risk that may be attendant to the investment of Money Market Fund assets, The Money Market Fund portfolio will observe the following diversification limits, at the time of purchase:

- The Money Market Fund will invest no more than 50 percent of its total assets in securities with maturities greater than 30 days issued by any single permissible United States Government Agency or Instrumentality.
- The Money Market Fund will invest no more than 5 percent of its total assets in securities issued by any single Commercial Paper Issuer (calculated at the time of purchase).
- A maximum of 33.3 percent of the portfolio may be invested in direct Commercial Paper Obligations not to exceed 180 days to maturity.
- A maximum of 25 percent of total assets may be invested in any approved AAAM Money Market Fund.
- The Money Market Fund will seek to achieve diversification in the portfolio by reasonably distributing investments within authorized investment categories, issuers and broker/dealers.
- The Money Market Fund shall at no time hold certificates of deposit constituting more than 10 percent of any single financial institution's total deposits.
- The Money Market Fund shall invest a minimum of 75% of its assets in authorized investments of less than one-year maturity. No investment shall exceed two years maturity.

10.0 Internal Controls: The Treasurer shall establish a system of internal controls, which shall be documented in writing and filed with the Treasurer's Chief Internal Auditor for review. The controls shall be designed to prevent losses of public funds arising from fraud, employee error, and misrepresentation by third parties, unanticipated changes in financial markets or imprudent actions by authorized investment staff of the Money Market Fund. The Treasurer shall publish the current investment policy on the Illinois Funds website and in accordance with the statutes.

11.0 Asset Allocation: The Treasurer shall approve asset allocation among investment categories authorized under Section 5.0 of this Investment Policy.

12.0 Competitive Bidding: Authorized investment staff shall obtain competitive bids from at least three broker/dealers prior to executing repurchase agreements, purchasing United States Treasury securities, United States Government Agency or Instrumentality securities or Commercial Paper from a broker/dealer. Reverse inquiry investments and investments in a new issue are exempt from this provision. Certificates of deposit shall be purchased by authorized investment staff on the basis of a financial institution's ability to pay the Treasurer's required interest rate.

13.0 Liability: Authorized investment staff, acting in accordance with written procedures and this investment policy and exercising due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments. The Treasurer is bonded to a level of \$150,000 for the faithful performance of duties in relations to the Illinois Public Treasurers' Investment Pool.

14.0 Reporting: Reports shall be made available quarterly by the Director of The Illinois Funds to the Treasurer and The Illinois Funds' participants. The quarterly report shall contain the following:

- performance as compared to the established benchmark
- asset allocation
- any deviation from the standards established in Section 9.0 above
- any change in investment policy adopted during the quarter
- the average days to maturity

A listing of all investments in the portfolio marked to market shall be made available to the Treasurer and The Illinois Funds participants annually.

15.0 Emergency Powers: In the event of an emergency, the Treasurer may, at his or her discretion, invoke emergency powers and suspend any or all of the provisions of this policy provided that:

- a)** The Treasurer shall, even in the event that emergency powers are invoked, comply with all state statutes governing the use and investment of monies;
- b)** The Treasurer reasonably believes that deviating from the Investment Policy is in the best interest of the Participants;
- c)** Within 30 days of invoking emergency powers the Treasurer shall provide an explanation in writing to the Chief Internal Auditor and the Investment Policy Committee, a notice of which shall be posted on the Treasurer's website that includes:

- i) The date and time that the emergency powers were invoked;**
- ii) The date and time that the emergency powers were repealed, if occurred;**
- iii) The section or sections of the Investment Policy that were affected by the emergency or use of emergency powers; and**
- iv) The reason for deviating from the written Investment Policy.**

16.0 All statutory references in this policy shall include any amendments to or repeals of those statutes.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable William G. Holland
 Auditor General
 State of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Illinois Funds, a fiduciary (investment trust) fund of the State of Illinois, Office of the Treasurer, as of and for the year ended June 30, 2014, and the related notes to the financial statements, and have issued our report thereon dated December 19, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of Illinois, Office of the Treasurer's internal control over financial reporting (internal control) of The Illinois Funds to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Illinois, Office of the Treasurer's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Illinois, Office of the Treasurer's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control of The Illinois Funds that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Illinois, Office of the Treasurer, The Illinois Funds' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of the State of Illinois, Office of the Treasurer's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Office of the Treasurer's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
