Government Auditing Standards Report

Summary

The examination of the "Management of the State of Illinois, Department of Innovation and Technology's Description of its Enterprise Resource Planning System" (System and Organization Controls Report) was performed by Sikich CPA LLC in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

Based on their examination, the Service Auditors expressed an unqualified opinion on the Department's "Management of the State of Illinois, Department of Innovation and Technology's Description of its Enterprise Resource Planning System." The System and Organization Controls Report was issued under a separate cover dated October 14, 2026.

Summary of Findings

The Service Auditor's report on the "Management of the State of Illinois, Department of Innovation and Technology's Description of its Enterprise Resource Planning System" does not contain scope limitations, disclaimers, or other significant non-standard language.

Schedule of Findings

Item No.	Page	Last/First Reported	Description	Finding Type

Independent Service Auditor's Report on Internal Control Over Reporting and on Compliance and Other Matters Based on an Examination of a Service Organization Performed in Accordance with *Government Auditing Standards*

Honorable Christopher B. Meister
Auditor General
State of Illinois

As Special Assistant Auditors for the Auditor General, we have examined, in accordance with the attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the State of Illinois, Department of Innovation and Technology's (Department) "Management of the State of Illinois, Department of Innovation and Technology's Description of its Enterprise Resource Planning System" (description) throughout the period from July 1, 2025, through June 30, 2026, and have issued our report thereon under a separate cover dated October 14, 2026.

Report on Internal Control Over Reporting

Management of the Department is responsible for establishing and maintaining effective internal control over (1) fairly presenting the Department's description throughout the period from July 1, 2025, through June 30, 2026, and (2) establishing and maintaining effective internal control over the suitable design and operating effectiveness of the controls related to the control objectives within the Department's description throughout the period from July 1, 2025, through June 30, 2026.

In planning and performing our examination, we considered the Department's internal control as a basis for designing examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's description throughout the period from July 1, 2025, through June 30, 2026, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's description will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the second paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's description throughout the period from July 1, 2025, through June 30, 2026, is fairly presented and the controls related to the control objectives in the Department's description throughout the period from July 1, 2025, through June 30, 2026, were suitably designed and operating effectively, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the Department's description throughout the period from July 1, 2025, through June 30, 2026. However, providing an opinion on compliance with those provisions was not an objective of our examination and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This report is an integral part of an examination performed in accordance with *Government Auditing Standards* in considering the Department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
