FILED WITH THE OFFICE OF THE AUDITOR GENERAL

July1, 2014 through September 30, 2014

**1 AUDITOR GENERAL - OFFICE OF THE**

**File Date:** 8/22/2014

30 ILCS 5/3-2.1 states "The Auditor General shall conduct a change over audit of the State Treasurer's accounts at the conclusion of each term of the Office of the State Treasurer or, in the case of successive terms by a State Treasurer, at the conclusion of that State Treasurer's time in office". The special assistant auditors currently performing the Office of the State Treasurer's audits at June 30, 2014 is McGladrey LLP. The firm of McGladrey LLP has experience with the Office of the Auditor General's audit program and a current understanding of operations in the Office of the State Treasurer. To properly complete the turnover audit the engagement needs to begin as soon as possible. A fair and reasonable price was negotiated with McGladrey LLP which has sufficient staff and expertise to perform this engagement and begin work within the necessary timeframe to avoid serious disruption in OAG audit services. This Emergency Purchase has an expected start date of 09/08/2014 through 06/30/2015 with an actual cost of \$391,300.00.

**Signed By:** Bruce Bullard, Financial/Compliance Director

<b>Federal Cost</b>	\$0.00	\$0.00	

**2 CENTRAL MANAGEMENT SERVICES**

**File Date:** 7/3/2014

Agency started the process to get a Truck Fleet Overflow Contract bid on 12/13/2013 in order to get a contract in place by 7/1/2014. Agency submitted the IFB on 1/28/2014 to CPO for publication. CPO published bid on 3/6/2014. Bid was due on 3/21/2014. The vendor added amendments to the contract. The amendments triggered additional and very extensive reviews, responses, and clarifications. All of these developments extended significantly the time needed to secure the FY 15 contract. This Emergency Purchase has an expected start date of 07/01/2014 through 07/14/2014 with an original estimated cost of \$245,000.00.

**Signed By:** Jacob Johnson, Portfolio Manager, General Services

July1, 2014 through September 30, 2014

**3 CENTRAL MANAGEMENT SERVICES**

**File Date:** 7/21/2014

The CMS facility (Building No J0205) at 100 W. Randolph, Chicago needed Elevator Repair and Maintenance Services. The bureau of Property Management does not have the in-house staff to provide this service. The emergency purchase was precipitated because the current vendor's contract management does not have the in-house staff to provide this service. The emergency purchase was precipitated because the current vendor's contract was coming to an end on June 30, 2014 and CMS opted not to renew the contract. Safety concerns left CMS with few options and not enough time to go through a full solicitation process to obtain elevator service in the building. CMS sought costs proposals from two vendors and received a proposal from one. This Emergency Purchase has an expected start date of 06/21/2014 through 09/18/2014 with an original estimated cost of \$245,000.00.

**Signed By:** Jay Brown, Portfolio Manager/State Facilities

<b>Vendor:</b> Parkway Elevators			<b>Notary Date</b>	7/15/2014
	<b>Estimate</b>	<b>Actual</b>	<b>FY</b>	<b>QTR</b>
<b>State Cost</b>	\$245,000.00	\$0.00	15	1
<b>Federal Cost</b>	\$0.00	\$0.00		

**4 CENTRAL MANAGEMENT SERVICES**

**File Date:** 8/1/2014

The current contract covering these electrical services for the State expires 7/31/2014. CMS has awarded the contract to Ficek resulting from a RFP 22032808. However, the Department of Central Management Services requires additional time to finalize and execute the contract for the referenced RFP and will be without the services as of 8/1/2014. If a contract for these services is not in place, it could delay response to critical outages and would result in higher costs as the state would have to pay time and material charges. This Emergency Purchase has an expected start date of 08/01/2014 through 10/29/2014 with an original estimated cost of \$1,000,000.00.

**Signed By:** James Ellenberg, Procurement Manager/CMS BCCS

<b>Vendor:</b> Ficek Electric and Communications, Inc.			<b>Notary Date</b>	7/30/2014
	<b>Estimate</b>	<b>Actual</b>	<b>FY</b>	<b>QTR</b>
<b>State Cost</b>	\$1,000,000.00	\$0.00	15	1
<b>Federal Cost</b>	\$0.00	\$0.00

July1, 2014 through September 30, 2014

**5 CHILDREN AND FAMILY SERVICES, DEPARTMENT OF**

**File Date:** 9/8/2014

Medicaid Community Mental Health Services are provided to wards who have serious emotional disturbances and may be delivered on a daily basis. Federal guidelines require state oversight of the provisions of these services to ensure that services are provided in compliance with state and federal requirements. If a contract interruption occurs that results in suspension of these services, wards will not receive these necessary mental health services resulting in negative impacts to their overall mental health functioning, and well being is a basic tenet of child welfare services. Private agencies provide Medicaid Community Mental Health Services and submit billings for those services to DCFS. DCFS certifies, trains and oversees via Post Payment Reviews of the Medicaid Community Mental Health Services provided by private agencies. Because DCFS provides compliance oversight for the Medicaid Community Mental Health Services, DCFS is allowed to submit the services to the federal government to obtain federal financial participation (reimbursement) of \$.50 for each dollar spent on Medicaid Community Mental Health Services. DCFS has a contract in place with IPI that expires on 08/31/2014. An RFP was done for services to be performed after that date and it awarded to the same vendor, IPI. However, the posting did not come down until 08/27/2014 and there was not sufficient time to issue the contract and obtain the signatures of both parties prior to 09/01/2014. Therefore, DCFS is requesting permission to extend the contract with the current vendor for up to 90 days to allow the continuation of Medicaid Certification Services as provided by contract. Because DCFS must be in compliance with state and federal requirements regarding oversight and certification of Medicaid Community Mental Health Services, a contract interruption will result in private agencies having to cease providing those services and DCFS losing the associated federal financial participation. The federal financial participation/reimbursement annually for DCFS is \$13 million, approximately \$38,000 per day. Further, DCFS is in a joint interagency agreement to perform these certifications so not having a contract in place would also impact DHS, HFS and DJJ. This Emergency Purchase has an expected start date of 09/01/2014 through 11/29/2014 with an original estimated cost of \$398,286.00.

**Signed By:** Debra Matlock, APO of DCFS

<b>Vendor:</b> Infant Parent Institute (IPI)			<b>Notary Date</b>	8/29/2014
	<b>Estimate</b>	<b>Actual</b>	<b>FY</b>	<b>QTR</b>
<b>State Cost</b>	\$398,286.00	\$0.00	15	1
<b>Federal Cost</b>	\$0.00	\$0.00

July1, 2014 through September 30, 2014

**6 NATURAL RESOURCES, DEPARTMENT OF**

**File Date:** 8/1/2014

On June 30, 2014, a strong late night storm with winds up to 80 mph caused extensive damage at Starved Rock State Park and forced closure to several areas of the park. The damage mostly consists of hanging tree limbs, downed trees, leaning trees and uprooted trees. While Department staff have performed some clean-up, much tree damage remains; and sections of the park remained closed due to the danger to public safety. Eliminating the hazardous conditions will protect the park against further damage and allow for the State owned facility to re-open all areas to the public. This Emergency Purchase has an expected start date of 08/01/2014 through 09/15/2014 with an original actual cost of \$428,606.00.

**Signed By:** Melissa Orrill, State Purchasing Officer

**Vendor:** Brandt Construction Company

**Notary Date** 7/30/2014

	<b>Estimate</b>	<b>Actual</b>	<b>FY</b>	<b>QTR</b>
<b>State Cost</b>	\$0.00	\$428,606.00	15	1
<b>Federal Cost</b>	\$0.00	\$0.00		

**7 NATURAL RESOURCES, DEPARTMENT OF**

**File Date:** 9/3/2014

Contract will provide necessary services to relocate a sewer force main from a building at North Point Marina. A break in the existing line revealed that the sewer pipe is actually located within the Lake County Forest Preserve District's Spring Bluff Nature Preserve and sewage was leaking into the wetland area. To temporarily remediate the leakage, the lift station pump has been shut off to eliminate further discharge into the wetland area. As a result, there are no functioning toilet facilities in adjacent buildings. This project will eliminate the future threat of sewage discharge into the wetland and restore sanitary service to the buildings. Eliminating these hazardous conditions, will protect the wetland against further damage and eliminate the public health threat. The Vendor selected currently holds the maintenance and repair contract for the Marina; however, this emergency repair exceeds the current contract ceiling. The vendor has been deemed responsive and responsible and will be applying the maintenance and repair contract billing rates. This Emergency Purchase has an expected start date of 09/02/2014 through 11/15/2014 with an original estimated cost of \$53,292.00.

**Signed By:** Craig Foxall, SPO Department of Natural Resources

**Vendor:** Ernie Peterson Plumbing, Inc.

**8 DEPARTMENT OF JUVENILE JUSTICE**

**File Date:** 9/24/2014

A 90-day emergency extension is necessary to avoid loss of Federal funding, to ensure that there will be no gap in delivery of clinical substance abuse treatment services to juvenile male inmates at Illinois Youth Center St. Charles, and to allow the Illinois Department of Juvenile Justice sufficient time to evaluate bids for this contract solicited through an RFP process. Wells Center is the current substance abuse treatment services vendor for the grant-funded Juvenile Male Reentry Program at Illinois Youth Center-St. Charles. Wells Center also retains the Required DASA licensure for substance abuse treatment services. This Emergency Purchase has an expected start date of 10-01-2014 through 12-29-2014 with an original estimated cost of \$143,781.00.

**Signed By:** Debra Miller, Public Service Administrator

**10 CORRECTIONS - GENERAL OFFICE**

**File Date:** 9/24/2014

The Illinois Department of Corrections is requesting a 90-day emergency to extend the terms and conditions of the current contract for the Parole Division Communications and Control Center (PCCC) under contract # 0910038 with the current vendor, Protocol Services Acquisition Corps. IDOC is competitively bidding a new contract through the RFP Process. IDOC is in the process of completing all necessary steps of the RFP process and expects to post the new solicitation in early September, 2014. IDOC will then begin the evaluation of the bids to work towards an award of the contract. Extending the PCCC contract for 90 days allows for the listed tasks to be accomplished. This contract will be terminated when the new contract is in place. If this request is denied, IDOC will experience a disruption in service and will not be able to continue to operate the Parole and sex offender supervision programs as mandated by Illinois Statute. Department operations related to monitoring of releasees would be seriously compromised. This Emergency Purchase has an expected start date of 10/01/2014 through 12/29/2014 with an original estimated cost of \$1,752,000.00.

**Signed By:** Alyssa Williams-Schafe, Public Service Administrator

**11 CORRECTIONS, CORRECTIONAL CENTER - GRAHAM**

**File Date:** 9/30/2014

Purchase of Sewer Lift Station Pumps and Control Board. R & M to include repair parts to Sewer Lift Station to ensure continued operation. Flo-systems is the historical Local Vendor, no small businesses could be identified. SPO Waiver approved. Facility currently operating on one pump rigged to pump in the short term with constant monitoring of flow. Control Board had been struck by lightening damaging the control board which controls the operation of the pumps. Pump shafts are bent and need replaced. A procurement was pending to replace the pumps when the control board and the last functioning pump failed. This Emergency Purchase has an expected start date of 09/26/2014 through 12/24/2014 with an original estimated cost of \$24,999.99.

**File Date:** 7/1/2014

Second Filing - 08/11/2014:FY15, Qtr 1, Item# 12

A letter was received on 7/22/2014 in the same reporting quarter stating the actual cost of this purchase was \$22,063.14.

Original Filing: FY15, Qtr 1, Item# 12:

Tuesday evening, June 24, 2014, after receiving only an inch and a half of rain, the Eisenhower Expressway (I-290) was flooded at 25th Avenue in Bellwood. It took over eight hours for the water to recede; throughout that time all traffic using the expressway had to find alternate routes, causing serious traffic congestion in the area. An investigation revealed that the water was unable to reach the main drain due to a failed catch basin on the right side of I-290 EB at 25th Avenue. In order to ensure that the highway doesn't flood again during the next rain event, the catch basin must be reconstructed, the pipes leading to/from the structure must be reconnected, and the surrounding area will need to be properly backfilled. IDOT forces attempted to complete the necessary repairs but found that the work required specialized equipment. This work is beyond the capability of State forces. After contacting several contractors experienced in this type of repairs, Benchmark Construction Co. Inc. was the first available qualified firm that could begin work on the repairs immediately. The following companies were contracted but were unable to begin the repairs immediately: Ricci Welch Inc, 4050 Industrial Ave., Rolling Meadows, IL 60008; Alliance Contractor, Inc, 1166 Lake Ave, Woodstock, IL 60098; Berger Excavating Contractors, Inc., 1205 Garland Rd., Wauconda, IL 60084; and Joel Kennedy Construction Corp, 40 Noll Street, Waukegan, IL 60085. This Emergency Purchase has an expected start date of 06/27/2014 through 07/10/2014 with an original estimated cost of \$40,000.00.

**13 TRANSPORTATION, DEPARTMENT OF**

**File Date:** 8/8/2014

Monday night going into Tuesday morning August 4/5, 2014 northeastern Illinois received an intense burst of rain that caused flash flooding through-out the region. As a result of these rains a small pavement void under Sheridan Road at Hazel Avenue greatly increased to a 20' x 20' void under the pavement causing northbound Sheridan Road to be closed. In order to ensure no further erosion and to re-open northbound Sheridan Road, the existing storm sewer must be repaired, the void filled and the pavement replaced. This work is beyond the capabilities of State forces. The Village of Glencoe is able to do the repairs and is able to start immediately. Additionally there is a sanitary sewer line close to the void. This Emergency Purchase has an expected start date of 08/06/2014 through 08/22/2014 with an original estimated cost of \$30,000.00.

**Signed By:** John Fortmann, Dep. Director Highways/Region One

<b>Federal Cost</b>	\$0.00	\$0.00		

**14 TRANSPORTATION, DEPARTMENT OF**

**File Date:** 8/12/2014

A harsh winter in 2013-2014 caused salt inventories for users and vendors of salt to be low in many areas. CMS bid salt for IDOT and local units of government. Many locations did not receive bids. The prices also increased significantly from last year. The price increase and lack of bids were attributed to a limited supply of salt. This created a market where a relatively large number of local units of government and private sector entities are competing for a limited quantity of salt available for this winter. IDOT decided to use an emergency purchase to acquire 51,880 tons in locations that did not receive bids when CMS bid salt. On July 30, IDOT sent a solicitation to all known salt vendors for locations where bids were not received. The bids were due on August 5. Four vendors responded. Award was made to the low bid vendor for each location. In all cases, that was Compass Minerals. This salt is required to ensure IDOT has an adequate supply to maintain safe roads during the upcoming winter. This Emergency Purchase has an expected start date of 08/06/2014 through 11/04/2014 with an original estimated cost of \$5,400,000.00.

**Signed By:** Amy Eller, Acting Engineer of Operations

**15 TRANSPORTATION, DEPARTMENT OF**

**File Date:** 9/30/2014

In November of 2013 the IDOT took over maintenance of 26th Street from East End Avenue east to State Street in Chicago Heights. In August of 2014, the Department received a complaint from the local elected officials indicating that the condition of the storm sewer along 26th Street from Wallace Street to Stewart Avenue is causing homes in a section of Chicago Heights to flood. After investigating the location and attempting to clean and repair the storm sewer using in-house forces, it has been determined that the entire length of sewer (1100 feet) needs to be replaced. This work is beyond the capability of State forces. The work needs to be completed as soon as possible, prior to additional rains and winter weather to prevent additional flooding in Chicago Heights, and to preserve the condition of the pavement along 26th Street. The low bid was \$268,760.50. At this time due to uncertainty in the exact quantities of pay items, the total cost of this emergency affidavit is being estimated at \$350,000.00. This Emergency Purchase has an expected start date of 09/25/2014 through 10/31/2014 with an original estimated cost of \$350,000.00.

The roofing systems on the Executive Mansion and Carriage House have considerable leaks that are jeopardizing the interior of the facility. Immediate patching is necessary in order to protect against further loss or damage, until which time permanent replacement can take place. Vendor #1 has been selected to provide materials and labor to patch all known leaks at the Executive Mansion and Carriage House, in consultation with CDB. Vendor #1 was chosen because of their availability and proximity to the site and positive work history and capability to attend to the roofing repairs. This Emergency Purchase has an expected start date of 06/30/2014 through 09/27/2014 with an original estimated cost of \$40,000.00.

**18 MATHEMATICS AND SCIENCE ACADEMY, ILLINOIS**

**File Date:** 8/4/2014

Illinois Mathematics & Science Academy is currently undergoing exterior Residence Hall renovations on seven (7) buildings Under CDB Project #805-030-017. A combination of rainy weather and construction equipment has seriously destroyed the grading and grass around the area of the Residence Halls. Immediate expenditure to repair the grading and grass around the seven Residence Halls is necessary to avoid potential health and safety issues that could result from poor drainage, standing water, and unstable ground. Campus drainage issues will continue to decline due to the existing wear and damage. If the landscape is not repaired, there will be further damage to the interior of the halls as a result of mud on sidewalks, surrounding the halls, being tracked into the buildings. The original date students were to begin moving in was August 12th, school is already being delayed one (1) week due to the construction project. The grading and grass must be repaired to prevent further delay in the start of school. We have chosen Semper Fi (registered veteran-owned small business) to award the project. We have utilized this vendor for projects in the past and found them responsive and responsible. Semper Fi is located close to campus and available to do the work within the time frame required. This Emergency Purchase has an expected start date of 08/04/2014 through 09/19/2014 with an original estimated cost of \$95,000.00.

**19 TOLL HIGHWAY AUTHORITY, ILLINOIS STATE**

**File Date:** 7/29/2014

The existing ISTHA Contract No. 09-0065 expires on September 30, 2014, with no remaining renewal options. This emergency procurement is being requested to extend the current contract until the Request for Proposal ("RFP") process for a new contract is completed. The Tollway's current contract for collection and collection litigation services is with two collection agencies: Harris & Harris, Ltd. And NCO Financial Systems, Inc. If the existing contract were to lapse, collections would cease against approximately 1.2 billion violation accounts placed between each of the two collection agencies. This results in reduced recovery back to the Tollway. The two collection agencies have recovered approximately \$15 million per year from violators over the last three years. The Tollway is requesting a 90-day extension to allow sufficient time to complete the bid and contract negotiation process on the new RFP, as well as process implementation and development, to ensure the continued collection services on bad debt accounts. This Emergency Purchase has an expected start date of 10/01/2014 through 12/29/2014 with an original actual cost of \$0.00.

This emergency procurement is being requested to extend the current contract until the Request for Proposal ("RFP") process for a new contract is completed. The Tollway's current contract for collection and collection litigation services is with two collection agencies: Harris & Harris, Ltd. And NCO Financial Systems, Inc. If the existing contract were to lapse, collections would cease against approximately 1.2 billion violation accounts placed between each of the two collection agencies. This results in reduced recovery back to the Tollway. The two collection agencies have recovered approximately \$15 million per year from violators over the last three years. The Tollway is requesting a 90-day extension to allow sufficient time to complete the bid and contract negotiation process on the new RFP, as well as process implementation and development, to ensure the continued collection services on bad debt accounts. This Emergency Purchase has an expected start date of 10/01/2014 through 12/29/2014 with an original estimated cost of \$500,000.00.

**File Date:** 8/8/2014

The current quantities in the CMS Master Contract Rock Salt Renewal are insufficient to meet the Tollway's anticipated needs for the 2014/2015 winter season. A new CMS solicitation for Rock Salt was let, but only received bids for two of the 15 Tollway Maintenance salt storage facilities. As a result, the Tollway is seeking an emergency purchase of an additional 33,300 tons of Rock Salt to supplement anticipated inventories for the Tollway sites where no bids were received by CMS. Rock salt is an integral part of the Tollway's snow and ice control operation. Using rock salt ensures that the roads are clean and safe for paying customers, diminishing the possibility of increased accidents and lawsuits resulting from unsafe driving conditions. Due to current supply and availability issues, this procurement is time-sensitive and critical to the mission of the Tollway to ensure a safe driving surface on all toll roads during the coming winter season. This Emergency Purchase has an expected start date of 07/29/2014 through 10/26/2014 with an original estimated cost of \$3,344,442.00.

**22 UNIVERSITY OF ILLINOIS**

**File Date:** 7/7/2014

The University of Illinois at Urbana Champaign executed an emergency contract with a Spanish law firm in order to continue receiving critical legal advice regarding the transfer of the School of Architecture's study abroad program from France to Spain.

For the past 40 years, the study abroad program has operated in Versailles, France but due to increasing housing expenses and other factors, the School of Architecture made the decision to relocate the program to Barcelona beginning in the fall term of 2014. The Office of University Counsel was first contacted for legal advice in mid-November 2013 and determined that the services of lawyers licensed to practice in Spain would be necessary to advise University administrators. After seeking three proposals, the University engaged the Spanish law firm of Cuatrecasas Goncalves Pereira under a small purchase contract for \$19,999 effective 01/16/2014 through 01/15/2015 to provide specific legal advice regarding the proposed move. Because of the unexpected complexity of employment, tax and financial matters surrounding the establishment of a legal presence in Spain, the small purchase limitation has proved insufficient to cover the unexpected legal expenses.

This longstanding study abroad program is integrated into the core curricula of the School of Architecture's degree programs and, there is considered a critical University service under Section 20-30(a) of the Code. The operation in France is now shut down. University employees are in the process of relocating to Spain and obtaining work permits. More than 30 students, all degree-seeking students within the School of Architecture on the University's Urbana-Champaign campus, are enrolled in the Spain study abroad program for the fall 2014 term. The students will be arriving in August for classes that begin the first week of September and will expect to have places to live and classes to attend. Failure of the program to open in Spain as scheduled will result in the University's loss of approximately \$952,881, which includes refunds of collected program fees and tuition. Failure to open as scheduled will disrupt a critical University service by interfering with the academic progress of these architecture students and could jeopardize their safety in they arrive in Spain without secure housing. Therefore, this contract expenditure is necessary to prevent or minimize serious disruption in a critical University service that affects safety and the collection of substantial University revenues in accordance with the standards set forth in Section 20-30(a) of the Code.

It is not reasonable or feasible to competitively bid these legal services at this stage of the project due to the risk of failure to implement the program for the fall 2014 semester. It is crucial that we have a contract for the full 90 days permitted by Section 20-30(a) to ensure the program opens in time as well as to ensure the University's ability to promptly address and respond to any legal issues that might arise during the initial operations. Consequently, the University also intends to pursue a sole source contract with Cuatrecasas Goncalves Pereira for a period following expiration of the emergency contract. This Emergency Purchase has an expected start date of 07/01/2014 through 09/28/2014 with an original estimated cost of \$50,000.00.

The Qiagen RNA/DNA extraction Biorobot used solely to meet the legislative mandate of the Waste Tire Management Fund broke down on August 14, 2014. Illinois National History Survey was in the process of pursuing a sole source purchase for new equipment to the risk of failure and obsolescence when it broke down and created the emergency situation. The repair of the equipment would require the use of discontinued parts, with no warranty provided by Qiagen, and a visit by the vendor with travel and labor costs to provide a quote for repair. The price for this equipment will increase 3-5% on September 12, 2014. In order to prevent or minimize serious disruption in a state-mandated mosquito disease testing program, which affects public health and safety, the University invoked the statutory emergency provision of the Code to purchase a new Qiagen Biorobot. This Emergency Purchase has an expected start date of 08/27/2014 through 09/11/2014 with an Actual Cost of \$108,849.36.

**File Date:** 9/29/2014

The University of Illinois Hospital and Health Sciences System on behalf of its Ambulatory Care Pharmacy requires the purchase of various flu vaccine products for the health and well-being of patients, students, staff and faculty. There are only a few Flu Vaccine manufacturers, and it is therefore necessary to place orders for vaccines with more than one vendor to avoid potential shortages due to production issues. For this reason, Ambulatory Care Pharmacy has placed orders for Flu vaccines with GlaxoSmithKline in the amount of \$420,000.00 and Sanofi Pasteur in the amount of \$75,000.00 for the impending Flu Season based on previous season's utilization. This Emergency Purchase has an expected start date of 09/18/2014 through 12/17/2014 with an original estimated cost of \$495,000.00.

*Original Filing - 08/23/2013: FY14, Qtr 1, Item# 32:*

*Implementation of House Bill 0183. This House Bill created technical changes to the FOID and Mental Health Statutes, required all mental health professionals to report a person who is "intellectually disabled" and/or "developmentally disabled" to DHS within 24 hours. The current FOID reporting System only receives reports from DHS facilities. The new legislation requires that all public and private mental health providers must disclose a patient who poses a clear and present danger to DHS who in turn provides this information to the Illinois State Police. As of July 19, 2013, DHS must comply with the reporting requirements as described in House Bill 0183. Currently, DHS has approximately 485 active users, the additional registered users required to report to DHS/ISP is expected to exceed 249,000 registered users. There are a number of improvements and enhancements which must be completed to comply with the new statute. For instance, the current application has a number of manual processes which must be replaced in order to accommodate timely reporting from thousands of mental health professionals. It has been determined that DHS needs up to three highly experienced JAVA developers to assist with the additional functionality required by the new legislation. This Emergency Purchase has an expected start date of 08/26/2013 through 11/23/2013 with an original estimated cost of \$180,000.00.*

**34 HUMAN SERVICES, DEPARTMENT OF**

**File Date:** 9/29/2014

*Latest Filing - 09/29/2014: FY15, Qtr 1, Item# 34:*

*A letter was received on September 29, 2014 increasing the original amount by an additional \$933,750.00 and extending the original term from 09/29/201 through 12/27/2014. The total estimated amount to date for this Emergency Purchase is \$1,867,500.00.*

*Original Filing - 06/19/2014: FY14, Qtr 4, Item# 21:*

*The vendor processes claims for the Bureau of Early Intervention, a federally-funded program which serves approximately 33,000 children and has approximately 4,500 enrolled and credentialed providers. If provider claims are not processed, Service providers would not be paid and the lack of payments to service providers directly impacts availability of providers and other funding stream. If claims are not paid Medicaid matching funds cannot be requested and Part C federal funds cannot be drawn down for reimbursement to the EI 0502 Revolving fund. This emergency will extend these services provided by Cquest America for an additional 90 days while a competitive procurement can be completed. This Emergency Purchase covers the dates 07/01/2014 to 09/28/2014. This Emergency Purchase has an expected start date of 07/01/2014 through 09/28/2014 with an original estimated cost of \$933,750.00.*

**35 HEALTHCARE AND FAMILY SERVICES, DEPT OF**

**File Date:** 9/16/2014

*Latest Filing - 09/16/2014: FY15, Qtr 1, Item# 35:*

*On 09/16/2014 a letter was received with an Actual Total of \$699,295.00. Listed below are the actual amounts for the listed terms:*

*FY12, Qtr 2, Item# 43: 12/01/2011 through 02/28/2012 actual cost is \$154,239.00.*

*Second Filing 01/25/12: 03/01/2012 through 12/31/2012 actual cost is \$545,056.00.*

*Second Filing - 01/25/2012:*

*A letter was received on January 25, 2012 increasing the original amount by an additional \$631,575.00 and extending the original term from 03/1/2012 through 12/31/2012. The total estimated amount to date for this Emergency Purchase is \$789,394.00.*

*Original Filing: 11/17/2011: FY12, Qtr 2, Item# 43:*

*The services provided under this contract are mandated by federal and state Medicaid laws and regulations, and maintain quality assurance oversight of managed care, quality outcomes and timeliness of an access to services for beneficiaries. Failure to perform these services would result in loss of federal funds associated with non-compliance. A new RFP for these services is under review. Until a new contract is in effect, extension of the current contract with the current vendor is in the best interest of the State. This Emergency Purchase has an expected start date of 12/01/2011 through 02/28/2012 with an estimated cost of \$157,819.*

**39 TOLL HIGHWAY AUTHORITY, ILLINOIS STATE**

**File Date:** 9/9/2014

*Latest Filing - 09/09/2014: FY15, Qtr 1, Item# 39:*

*A letter was received on September 9, 2014 extending the dates from 09/14/2014 through 12/12/2014 with an actual cost of \$0.00.*

*Third Filing - 06/19/2014: FY14, Qtr 4, Item# 73:*

*A letter was received on 06/19/2014 reporting an actual cost of \$155,879.68 for dates starting 02/16/2014 through 05/16/2014.*

*Second Filing - 5/14/2014: FY 14 Qtr 4 Item# 73:*

*A letter was received on May 14, 2014 requesting an extension for May 17, 2014 to September 13, 2014 at an additional estimated cost of \$300,000.00, bringing the total estimated cost to \$525,000.*

*Original Filing – 2/21/2014: FY14 Qtr 3 Item# 27:*

*The services provided by the vendor include the repair of critical traffic management and security infrastructure. This infrastructure includes approximately 1,000 cameras monitoring 72 field sites and 286 center-line miles of roadway, 250 roadside traffic sensors, 39 overhead Dynamic Message Signs and many other ancillary equipment items. This equipment monitors Tollway property and records all cash-collection activity in the field for review by Tollway audit and security personnel. Meade Electric Company was selected because they are the incumbent contractor performing this work for the past five years, they have available experienced field crews, equipment, spare parts, and special tools needed to perform the work with no mobilization effort, and they are willing to perform the work under the terms of the existing contract. This critical infrastructure is comprised of thousands of individual pieces of equipment and requires constant repair services in order to maintain the highest level of operational status. Equipment failures occur at a frequency greater than one per day and at least two failures per week must be referred to the maintenance contractor for resolution. Any single failure, depending upon its location, could disable one several, or even many cameras, traffic sensors, or Dynamic Message Signs, causing the potential loss of communication with the public or loss of the ability of Tollway audit and security personnel to maintain oversight over Tollway property or assets in the field. This Emergency Purchase has an estimated start date of 02/16/2014 through 05/16/2014 with an estimated cost of \$225,000.00.*

*Original Filing - 02/20/2014: FY14 Qtr 3 Item# 21:  
District 1 has used all of the salt allocations from all of the vendors under contract. The district cannot purchase any salt from these vendors, therefore, the district has to go on the open market to purchase additional salt because of the severe weather conditions during this winter. The district has utilized our allotted 120% of contract. The district staff checked various vendors, and the vendor has salt available for purchase. The price is estimated at \$150/ton. Since the district cannot purchase from any other vendors, and this vendor has the salt available in the Chicagoland area, the district will purchase up to 30,000 tons of salt from this vendor. The salt will be delivered to their Chicago location at 9301 S. Krieter. Trucks from District 1 will haul the salt to district team sections. The original estimated cost is \$3,840,000.00.*

The pavement on Business Route 24 beneath the TP&N Railroad Viaduct has experienced pavement failure due to excessive moisture and heavy frost. As the area has degraded, Operations has continued to add cold patch to the area. However, due to the moisture, the cold patch will not bond and requires constant vigilance and maintenance. The viaduct is very narrow and has poor drainage. As a result, the pavement degradation within the viaduct causes a hazard to the safety of the traveling public. In order to address this emergency condition, the district has contracted Day Labor, and they have agreed to do an emergency repair. As part of the emergency repair, the district is pursuing emergency purchases of both concrete and aggregate. The original estimated cost is \$60,000.00.*

*Original Filing - 03/31/2014: FY14 Qtr 3 Item# 31:  
Emergency purchase JCM321 was declared in order to purchase from All Team Staffing, Inc. the temporary worker services for twelve (12) food service positions, namely cooks and food preparation for the University of Illinois at Chicago Hospital. The two reasons for the emergency are as follows. First, a rash of hospital food service staffing vacancies exist. Second, the temporary staffing vendor under contract with the University has had difficulty placing viable temporary candidates until vacant positions are filled because food service is a challenging job with low hourly compensation. The University is in the process of hiring permanent positions for the vacancies, but the hiring process is complex and involves multiple steps.*

*Over the past six months there have been several retirements, resignations as well as other staff leaving. Approval was received in November to start hiring for 11 open positions. We have also been approved to hire 15 students. There are offers out to 8 other candidates and if they accept then in addition it takes approximately 4 weeks for these candidates to go through the background/hiring process. The department has 8 people on Disability at the present time. We have one or two people on vacation each week not including staff calling in sick which comes out to be 5-8 call offs a day. Employed Staff has been working overtime to help but they are tired and not signing up for overtime lately.*

*Consequently there is an immediate need for 15 temporary food service workers for a 8 hour daily shift at the agency hourly rate of \$20.00. This equates to a daily service cost of \$2,400. The emergency purchase request is for ninety (90) days at an estimated amount of \$216,000. This emergency procurement will bridge the gap of personnel needs until permanent food service staff can complete the hiring process, are trained and ready to work. The original estimated cost is \$216,00.00.*
