Financial Statement Report

Summary

The audit of the accompanying financial statements of the Illinois Prepaid Tuition Program of the State of Illinois, Illinois Student Assistance Commission (Program) was performed by RSM US LLP.

Based on their audit, the auditors expressed an unmodified opinion on the Program's financial statements.

Exit Conference

In correspondence received from Wendy Funk, Director of Accounting and Finance, on December 19, 2016, the Commission elected to waive an exit conference.

Independent Auditor's Report

Honorable Frank J. Mautino
Auditor General
State of Illinois, and

Mr. Kevin B. Huber
Chair of the Governing Board
Illinois Student Assistance Commission

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the Illinois Prepaid Tuition Program of the State of Illinois, Illinois Student Assistance Commission as of and for the year ended June 30, 2016, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Illinois Prepaid Tuition Program of the State of Illinois, Illinois Student Assistance Commission, as of June 30, 2016, and the changes in financial position and its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 2, the financial statements present only the Illinois Prepaid Tuition Program, and do not purport to, and do not present fairly the financial position of the State of Illinois or the State of Illinois, Illinois Student Assistance Commission, as of June 30, 2016, and the changes in its financial position or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

As discussed in Notes 9 and 10, the Illinois Prepaid Tuition Program has a deficit as of June 30, 2016 of $215 million. The amount of the reported deficit is highly dependent on the actuarial assumptions used to calculate the actuarial present value of future tuition benefit obligations.

As discussed in Note 11, beginning net position was restated to reflect the implementation of GASB Statement No. 72, *Fair Value Measurement and Application*.

Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information:
Management has omitted management's discussion and analysis for the Illinois Prepaid Tuition Program that accounting principles generally accepted in the United States of America requires to be presented to supplement the financial statements. Such missing information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic or historical context. Our opinion on the financial statements is not affected by this missing information.

Other Information:
Our audit was conducted for the purpose of forming an opinion on the financial statements of the Illinois Prepaid Tuition Program of the State of Illinois, Illinois Student Assistance Commission. The Other Information, consisting of the actuarial soundness reports, are presented for purposes of additional analysis and are not a required part of the financial statements. The actuarial soundness reports have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2016, on our consideration of the State of Illinois, Illinois Student Assistance Commission's internal control over financial reporting of the Illinois Prepaid Tuition Program and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Illinois Student Assistance Commission's internal control over financial reporting of the Illinois Prepaid Tuition Program and its compliance.

Net appreciation in fair value of investments	$ 41,637,720

See Notes to Financial Statements.

Note 1. Description of Program

The Illinois Student Assistance Commission (ISAC or Commission) administers the nonshared proprietary fund, Illinois Prepaid Tuition Program (*College Illinois!*® or Program) described below. A nonshared fund is a fund in which a single State agency is responsible for administering substantially all financial transactions of the fund.

Legislation authorizing ISAC to administer an Illinois Prepaid Tuition Program was passed in November 1997. The purpose of this program is to provide Illinois families with an affordable tax-advantaged method to pay for college. Illinois Prepaid Tuition contracts will allow participants to prepay the cost of tuition and mandatory fees at Illinois public universities and community colleges. Benefits of the contracts can also be used at private and out-of-state colleges and universities. Contracts can be purchased in a lump sum payment or in installments.

The Illinois Prepaid Tuition Program Fund is a non-appropriated fund.

A. Program Administration

Oversight of the Program is provided by the Illinois Student Assistance Commission, an agency of the State of Illinois, which was established more than 50 years ago with the mission of helping to make college accessible and affordable for Illinois students. The agency is governed by the Commission, a board of ten persons (barring temporary vacancies) appointed by the Governor. The Commission employs and provides direction to an Executive Director who is responsible for overseeing and implementing the Commission’s day-to-day operations. The Commission’s administrative powers include, but are not limited to: adopting a sound Investment Policy; approving any changes to the investment manager structure; and monitoring and evaluating the investment performance of the Fund.

The Investment Committee (or Committee) refers to a committee consisting of at least three members of the Commission with knowledge of investing. Investment Committee members shall be selected by the Chair of the Commission and approved by a vote of the Commission. The Investment Committee is generally responsible for monitoring Fund investments and performance to ensure compliance with the Investment Policy and making related recommendations to the Commission.

The Commission also appoints the members of the Investment Advisory Panel. The Panel consists of seven persons (barring temporary vacancies) with expertise in the areas of accounting, actuarial practice, risk management or investment management. It provides advice to the Commission on issues related to the Program’s financial policies and practices and its investment strategy and asset allocation with the objective of obtaining the best possible return on investments, consistent with the actuarial soundness of the Program. The Investment Advisory Panel may also advise on other aspects of the Program.

The Program has been designed to comply with all requirements relating to qualified tuition programs under Section 529 of the Internal Revenue Code of 1986 and Illinois law.

Note 2. Summary of Significant Accounting Policies

The financial statements of the Illinois Prepaid Tuition Program administered by ISAC have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). To facilitate the understanding of data included in the financial statements, summarized below are the more significant accounting policies.

A. Reporting Entity

The Illinois Prepaid Tuition Program does not have component units, nor is it a component unit of any other entity. The Illinois Prepaid Tuition Program is not legally separate from the State of Illinois; it is included in the financial statements of the State as a proprietary fund. The State of Illinois' Comprehensive Annual Financial Report may be obtained by writing to the State Comptroller's Office, Financial Reporting Department, 325 West Adams Street, Springfield, Illinois 62704-1871.

The financial statements present only the Illinois Prepaid Tuition Program administered by the State of Illinois, Illinois Student Assistance Commission (ISAC) and do not purport to, and do not, present fairly the financial position of the State of Illinois or ISAC as of June 30, 2016, and changes in their financial positions and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The assets of the Fund are to be preserved, invested and expended solely pursuant to and for the purposes of the Fund and may not be loaned or otherwise transferred or used by the State for any other purpose.

B. Basis of Presentation

In government, the basic accounting and reporting entity is a fund. A fund is a self-balancing set of accounts segregated for specific purposes/activities generally in accordance with laws and regulations or specific restrictions or limitations on resource use. As a proprietary fund, a statement of net position, statement of revenues, expenses, and changes in net position, and statement of cash flows have been presented for the Illinois Prepaid Tuition Program administered by ISAC.

Operating revenues result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Due to the nature of the Illinois Prepaid Tuition Program activities, income from investments is considered an operating activity in the Statement of Revenues, Expenses, and Changes in Net Position. The fund has no nonoperating activities.

C. Basis of Accounting

The Illinois Prepaid Tuition Program is reported as an enterprise fund, using the economic resources measurement focus and the accrual basis of accounting.

Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. The fund accounts for resources received and used for financing self-supporting activities of the Illinois Prepaid Tuition Program that offers services (prepaid tuition contracts) on a user-charge basis to the general public.

Note 2. Summary of Significant Accounting Policies (Continued)

D. Cash and Cash Equivalents

Cash and cash equivalents consist principally of deposits held in the State Treasury. Cash and cash equivalents include cash on hand, cash in banks, interest bearing deposits with banks, and investments in the Illinois Fund.

E. Investments

The Illinois Prepaid Tuition Program presents investments on its Statement of Net Position at fair value or amortized cost which approximates fair value – see Note 3 C for information on the determination of fair value. The net appreciation or depreciation in the fair value of investments since the prior fiscal year (or purchase date for fiscal year 2016 purchases) is included in investment income in the Statement of Revenues, Expenses, and Changes in Net Position. Dividend and interest income are recorded in the period earned.

F. Contracts Receivable

Contracts receivable represents the amount the Program expects to receive from contract holders for contracts purchased on an installment basis. The actuarially determined present value of future contributions was $51,206,641 as of June 30, 2016 using a 6.75% discount rate. The Program expects to receive contributions totaling $15,322,801 in fiscal year 2017. This amount has been classified as current contracts receivable on the Statement of Net Position. The total contract receivable balance is expected to be received over the next fifteen years.

G. Interfund Transactions

The Illinois Prepaid Tuition Program has the following type of interfund transactions with other funds of the State:

Loans— amounts provided with a requirement for repayment. Interfund loans are reported as interfund receivables (i.e. due from other funds) in lender funds and interfund payables (i.e. due to other funds) in borrower funds.

Reimbursements—repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are reported as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the reimbursed fund.

Transfers—flows of assets (such as cash or goods) without equivalent flow of assets in return and without a requirement for repayment. Transfers are reported after nonoperating revenues and expenses.

H. Tuition Obligation

The tuition obligation in the Illinois Prepaid Tuition Program represents the net contract amount for the 41,075 contracts held by the fund as of June 30, 2016, plus the actuarially-determined present value of future benefits the Program expects to provide to contract holders for all contracts.

Note 2. Summary of Significant Accounting Policies (Continued)

I. Net Position (Deficit)

Net position at year-end (when positive) is restricted by the provisions of the tuition contracts, for tuition payments for beneficiaries of the contract owners. Net deficits however are categorized as unrestricted, and represent the unfunded liability of the Program.

J. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, deferred inflows of resources, liabilities, deferred outflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

K. Funding and Actuarial Assistance

Program funding is derived entirely from payments received from contract purchasers and the investment income earned by the Fund. The Commission has obtained actuarial assistance in order to measure the Fund's obligations.

Note 3. Deposits and Investments

A. Investment Authority and Legal Compliance

The State Treasury is the custodian of the State's cash and cash equivalents for the Illinois Prepaid Tuition Program maintained in the State Treasury. The investment authority for the State Treasury is found in the State Treasurer Act (15 ILCS 505), which authorizes the State of Illinois primary government and its component units to engage in a wide variety of investment activities. For further details please refer to the State of Illinois Comprehensive Annual Financial Report (CAFR). A copy of the CAFR can be obtained from the Illinois Office of the Comptroller at 325 West Adams, Springfield, Illinois 62704.

The Illinois Prepaid Tuition Program independently manages cash and cash equivalents maintained outside the State Treasury.

Note 3. Deposits and Investments (Continued)

A. Investment Authority and Legal Compliance (Continued)

The Commission board members have ultimate responsibility for the success and safety of the investment program. Specific responsibilities of the Commission include, but are not limited to, the following:

1. Adopting a sound investment policy. The Policy may be modified from time to time by action of the Commission and shall be adopted annually by the Commission in accordance with the Act.
2. Adopting a sound asset allocation policy. The asset allocation policy shall be reviewed and amended as necessary but at least every three years.
3. Approving any changes to the investment manager structure.
4. Approving the selection and termination of any investment service provider.
5. Monitoring and evaluating the investment performance of the Fund and ensuring the risk profile is consistent with Policy objectives.
6. Establishing the primary duties and responsibilities of those accountable for achieving and reviewing investment results.
7. Adopting and reviewing, at least annually, the diversity policies required by section 30(b-5) of the Prepaid Tuition Act (110 ILCS 979/30(b-5).

The Commission may not delegate its oversight and management responsibilities but will be assisted in its functions by other sub committees, panels and agency staff.

The Commission by statute (Illinois Prepaid Tuition Act, 110 ILCS 979) is required to appoint an investment advisory panel to offer advice and counseling regarding the investments of the Illinois Prepaid Tuition Program.

The Commission appoints members to the panel in a manner consistent with the representation prescribed in the Act. The panel is required to annually review and advise the Commission on provisions of the strategic comprehensive investment plan.

The Investment Policy (Policy) represents the comprehensive investment plan as referred to in the Act. The Policy is reviewed by the Commission annually and identifies a set of investment objectives, guidelines, and performance standards for the investment of the assets of the Fund.

The Commission also appoints an Investment Committee consisting of at least three (3) members of the Commission with knowledge of investing. Investment Committee members are selected by the Chair of the Commission and approved by a vote of the Commission. The Investment Committee meets at least quarterly with the Chief Investment Officer and the Investment Consultant.

The Investment Committee is generally responsible for monitoring Fund investments and performance to ensure compliance with the Investment Policy and for considering investment initiatives for potential recommendation to the full Commission.

The Chief Investment Officer (CIO) is responsible for the day to day operation and oversight of the Fund and for coordinating the activities of the Investment Committee, the Investment Advisory Panel, and investment related activities of the Commission. The CIO reports directly to the Executive Director and has a “dotted-line” reporting relationship to the Commission. The CIO has the authority and responsibility to ensure that the Commission is adequately informed on matters and concerns relating to Fund investments. The CIO will

Note 3. Deposits and Investments (Continued)

A. Investment Authority and Legal Compliance (Continued)

work closely with the Executive Director, Investment Consultant and Investment Staff to carry out the duties and responsibilities of this role.

In accordance with the Prepaid Tuition Act, the Commission may arrange to compensate for personalized investment advisory services rendered with respect to any or all of the investments under its control to an investment advisor registered under Section 8 of the Illinois Securities Law of 1953 or any bank or other entity authorized by law to provide those services.

A qualified investment consultant, on an ongoing basis, evaluates the Illinois Prepaid Tuition Program. The primary role of the Investment Consultant is to provide the information, analysis, and advice required by the Investment Staff, Investment Advisory Panel, Investment Committee, and Commission to carry out their duties and to assist them in developing and implementing a prudent process for monitoring and evaluating Fund investments. The Investment Consultant will work closely with the CIO, but is expected to provide an independent perspective to the Investment Committee and Commission.

Written reports are provided to the Commission by the investment consultant no later than 45 days after the end of each calendar quarter. The CIO and investment consultant meet with the various investment managers on a regular basis to review the investment guidelines and the asset/liability structure of the Program. The investment consultant also assists the CIO, Investment Committee, Commission and the Investment Advisory Panel with the selection of investment managers and custodians.

The qualified investment consultant retained by the Commission is expected to provide an independent prospective within the parameters set forth in the investment policy guidelines. Effective December 2011, the Program has contracted with Callan Associates to evaluate the investment performance of the Illinois Prepaid Tuition Program on an ongoing basis.

The investment policy authorizes the Commission to utilize a third party custodian to safe-keep the assets of the Fund and to provide reports on a monthly basis to all relevant parties. The custodian retained by the Commission is required to exercise discretion within the parameters set forth in the investment policy guidelines for the portfolio(s) they manage on behalf of the Fund.

The Custodian has three primary responsibilities, namely: (1) Safekeeping of Assets – custody, pricing and accounting and reporting of assets owned by the Fund; (2) Trade Processing – track and reconcile assets that are acquired and disposed; and, (3) Asset Servicing – maintain all economic benefits of ownership such as income collection, corporate actions, and proxy notification issues.

The Commission may direct that assets of the Program's Funds be placed in savings accounts or may use the same to purchase fixed or variable life insurance or annuity contracts, securities, evidence of indebtedness, or other investment products pursuant to the comprehensive investment plan and in such proportions as may be designated or approved under that plan.

The Commission also authorizes the hiring of professional investment managers to manage the assets of the Fund. Investment managers are hired who, by their record and experience have demonstrated their fiduciary responsibility, their investment expertise, their investment experience, and their capacity to undertake the mandate for which they are being considered. Investment managers retained for the Illinois Prepaid Tuition

Note 3. Deposits and Investments (Continued)

A. Investment Authority and Legal Compliance (Continued)

Program acknowledge in writing that they are a fiduciary with respect to the Fund or that they are a fiduciary to a limited partnership or commingled fund in which the College Illinois Prepaid Tuition Trust Fund is an investor.

Unless otherwise exempt from registration, investment managers need to be currently registered and maintain registration as an investment advisor under the Investment Advisors Act of 1940, a bank (as defined in the Act), or an insurance company qualified to perform investment management services under the law of more than one state unless otherwise approved on an exception basis.

The Commission has established strict guidelines to ensure that hiring decisions are made in a full-disclosure environment characterized by competitive selection, objective evaluation, and proper documentation. The overriding consideration with respect to all decisions is that they shall be made solely in the best interest of participants and beneficiaries of the Fund.

The Illinois Prepaid Tuition Program investment policy dictates certain guidelines and restrictions that apply to each approved asset class. Such restrictions may include certain prohibited transactions, as well as restrictions on portfolio composition. In accordance with the investment policy approved on June 25, 2012, the Fund will not make any new direct private investments or new co-investments that are tied to a single company or investment.

B. Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Illinois Prepaid Tuition Program's deposits may not be returned to it. State law (30 ILCS 230/2C) requires that all deposits of public funds be covered by FDIC insurance or eligible collateral. The Illinois Prepaid Tuition Program has no policy that would further limit the requirements under State law. As of June 30, 2016, the Illinois Prepaid Tuition Program's deposits held outside the State Treasury were not exposed to custodial credit risk.

C. Investments

ISAC is required annually to adopt a comprehensive investment policy to invest the funds received through contract payments. The Commission approved the Illinois Prepaid Tuition Program's FY16 revision to the investment policy in June 2015; the most recent policy update was done in June 2016 for the FY17 year.

The comprehensive investment plan specifies the investment policies to be utilized by the Commission in its administration of the Illinois Prepaid Tuition Program. The Commission may direct that assets of the Program be invested in a manner that will meet or exceed the return of the Policy Benchmark consistent with the actuarial soundness of the Fund and the risk level expected from the asset allocation. The investments should be in compliance with all applicable federal and state laws and other statutes governing the investment of Illinois Prepaid Tuition Program resources.

The Commission is required to adopt a sound asset allocation that is reviewed at least once every three years. The asset allocation establishes target weights for each asset class and is designed to maximize the long-term expected return of the Program within an acceptable risk tolerance while providing liquidity to meet Program liabilities.

Note 3. Deposits and Investments (Continued)

C. Investments (Continued)

The table below establishes the interim and long-term asset allocation targets. In order to minimize trading costs and market risk associated with transitioning to the long-term targets, Program cash flows will be used to move gradually toward the long-term target weights. Interim target weights are established for purposes of calculating the policy benchmark and for rebalancing controls.

	Targets		Rebalancing Range	
Asset Allocation	**Long-term**	**Interim**	**Lower Limit**	**Upper Limit**
U.S. Equity	22.00%	22.00%	19.00%	25.00%
Non-U.S. Equity	20.00%	18.00%	15.00%	21.00%
Fixed Income	25.00%	21.00%	18.00%	24.00%
High Yield	3.00%	4.00%	3.00%	5.00%
REIT	5.00%	5.00%	3.00%	7.00%
Absolute Return	9.00%	9.00%	7.00%	11.00%
Real Estate	5.00%	9.00%	N/A	N/A
Infrastructure	5.00%	9.00%	N/A	N/A
Private Equity	5.00%	2.00%	N/A	N/A
Cash	1.00%	1.00%	0.00%	4.00%

The primary benchmark (the Policy Benchmark) for evaluating the performance of the Program is a Target Index consisting of a market index or equivalent for each asset class, weighted in accordance with the target allocation (or interim target allocation if applicable). Over a three to five year period the Program is expected to generate returns, after payment of all fees and expenses, which exceed the returns of the Target Index.

The Target Index components are as follows.

Asset Class	Index	Weight
U.S. Equity	Russell 3000	22.00%
Non-U.S. Equity	MSCI EAFE	18.00%
Fixed Income	BC U.S. Aggregate	21.00%
High Yield	BofA MLHY	4.00%
REIT	MSCI US REIT	5.00%
Absolute Return	90-day T Bills +4%	9.00%
Real Estate	NCREIF ODCE	9.00%
Infrastructure	90-day T Bills +4%	9.00%
Private Equity	Russell 3000 + 3%	2.00%
Cash	90-day T-Bills	1.00%

ISAC has established investment guidelines for the investment managers and conducts thorough due diligence before the appointment of all investment managers. ISAC has retained State Street Global Advisors, Income & Research Management, Rhumbline Advisers, Security Capital Research, Alinda Infrastructure, Portfolio Advisors, JP Morgan AIRRO, Morgan Stanley, Neuberger Berman, Pinnacle Natural Resources, Ativo Capital, Cornerstone Capital Management, Harris/Pyrford, CM Growth, Kennedy Wilson, Lyrical-Antheus, Mesirow, T. Rowe Price and DDJ as investment managers to assist with the investment of the Program assets for the Illinois Prepaid Tuition Program.

Note 3. Deposits and Investments (Continued)

C. Investments (Continued)

Use of funds invested on behalf of the Illinois Prepaid Tuition Program by the investment managers is restricted to the payout of tuition and fee benefits for Program beneficiaries and the administrative costs of running the program.

As of June 30, 2016, 21.53% of the funds were invested in Domestic Equities, 20.91% in Fixed Income, 17.49% in International Equities, 8.86% in Infrastructure Funds, 8.55% in Absolute Return Funds, 2.61% in Private Equity Funds, 10.33% in Real Estate, 5.11% in Real Estate Investment Trust, 3.72% in High Yield, and 0.89% in cash and equivalents.

Investments owned are reported at fair value or amortized cost as follows:

(1) U.S. Government and Agency, Foreign and Corporate Obligations, Convertible Bonds – prices quoted by a major dealer in such securities;

(2) Common Stock and Equity Funds, Preferred Stock, Foreign Equity Securities - (a) Listed – closing prices as reported on the composite summary of national securities exchanges; (b) Over-the-counter – bid prices;

(3) Money Market Instruments – amortized cost which approximates fair values;

(4) Real Estate Investments – fair values as determined by its investment managers and reviewed by Program investment staff and the investment consultant;

(5) Private Equity, Absolute Return, and Infrastructure Funds – fair values as determined by its investment managers and reviewed by Program investment staff and the investment consultant. Valuations generally are based on the investee’s last audited financial statements (generally December 31) and differences attributed to cash flows and subsequent events through June 30.

The Program's investment in REITs represents convertible debt, senior unsecured debt securities, and preferred and common equity securities. Investment strategies of private equity funds include secondary funds.

The Program's investments in infrastructure represent investments used to seek capital appreciation and current income by acquiring, holding, financing, refinancing and disposing of infrastructure investment and related assets. Infrastructure assets include various public works such as water utility, toll roads, inland barge terminals and a gas pipeline system.

The Program's investments in absolute return funds (funds of hedge funds) employ a broad range of diversifying investment strategies including arbitrage, global commodities, and global macro.

Private equity, real estate and infrastructure investment portfolios consist of passive interests in non-publicly traded companies. The Program had outstanding unfunded commitments of approximately $5 million to private equity partnerships and $7 million to infrastructure funds as of June 30, 2016.

Investment Management Fees

The Program has contracted with Commission-approved investment managers to manage the assets of the Program. The investment managers serve as investors and investment advisors to the Program.

For investment managers who invest moneys in publicly held securities the Program pays an investment management fee for investment management services. The investment management fee is based upon contractually agreed upon conditions and provisions. Investment management fees expense for investments in publicly held securities amounted to $1,472,235 for the year ended June 30, 2016 and is accounted for in the Statement of Revenues, Expenses, and Changes in Net Position.

For investment managers of alternative investments (not publicly held securities) the Program pays an investment advisory fee. The investment advisory fees are calculated based upon the terms and conditions agreed upon with each individual contractual agreement and are recognized as investment advisory fees expense in the Statement of Revenues, Expenses, and Changes in Net Position. Investment advisory expense as reflected in the Statement of Revenues, Expenses, and Changes in Net Position for FY 2016 amounts to $1,599,509.

For certain alternative investment managers of private equity, infrastructure and real estate which are closed end funds and ISAC is a limited partner, the investment advisory fee is reflected in a slightly different way. If the investment management fees are outside of the Limited Partner’s capital account then the fees are included as part of the investment advisory fees expense in the Statement of Revenues, Expenses, and Changes in Net Position. If the closed-end fund accounts for management fees within the Limited Partner's capital account, then management fee expense is included in the Net Asset Value calculation and would therefore be included in the income from investment securities on the Statement of Revenues, Expenses and Changes in Net Position.

Investment managers who fall into the last category are listed below:

- Kennedy Wilson
- Lyrical-Antheus
- Mesirow Value
- Alinda Infrastructure
- JP Morgan AIRRO
- CM Growth
- Portfolio Advisors
- Morgan Stanley

Approximately $2.3 million in investment advisory fees are included in the amount reported for income from investment securities for the fiscal year ending June 30, 2016 and is accounted for as a part of the income from investment securities in the Statement of Revenues, Expenses, and Changes in Net Position. Additionally, these amounts are reflected in the carrying value on the Statement of Net Position.

Note 3. Deposits and Investments (Continued)

C. Investments (Continued)

The State Treasurer is the custodian of the State's cash and cash equivalents for the Illinois Prepaid Tuition Program maintained in the State Treasury. Amounts on deposits in the custody of the State Treasurer totaled $1,138,191 at June 30, 2016. These deposits are pooled and invested with other State funds in accordance with the Deposits of State Moneys Act of the Illinois Compiled Statutes (15 ILCS 520/11). Funds held by the State Treasurer have not been addressed as to custodial credit risk because the Illinois Prepaid Tuition Program does not own individual securities. Funds held by the State Treasurer are not rated for credit risk and the interest rate risk cannot be determined because the weighted average maturity information for these amounts is not available for individual funds. Details on the nature of these deposits and investments, along with risk disclosures, are available within the State of Illinois' Comprehensive Annual Financial Report.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Illinois Prepaid Tuition Program's policy for managing interest rate risk is to monitor duration against an appropriate benchmark index.

The duration of the portfolios, by Manager, for the fixed income securities (excluding real estate portfolio), compared to the benchmark index(s) is as follows:

Fixed Income Portfolio Manager	Portfolio Average Duration	Barclays U.S. Aggregate Bond Index	Barclays Capital Int. Government/ Credit Index
Income Research Management	3.9 Years	N/A	4.1 Years
SSGA U.S. Aggregate Bond Index (Common collective trust)	5.5 Years	5.5 Years	N/A
T. Rowe Price	5.4 Years	5.5 Years	N/A

C. Investments (Continued)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The operational guidelines for actively-managed bond managers set forth in the Illinois Prepaid Tuition Program investment policy are:

- The weighted average credit quality of portfolio holding will not fall below A- or equivalent.
- No more than 20% of the portfolio will be invested in issues rated below Baa3 or BBB-, A2 or P2.
- No more than 10% in non-U.S. securities (dollar and non-dollar) rated below investment grade.
- Should a security be downgraded to a rating of "B" or below, the investment manager will determine the appropriate action (sell or hold) based on the perceived risk and expected return of the position and will inform the CIO and the Investment Consultant in writing of the action taken.

The following tables indicate credit ratings, as of June 30, 2016, for the Program's debt security investments (other than obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government which are not considered to have credit risk). Ratings for debt security investments that have multiple ratings are on the following page:

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the Illinois Prepaid Tuition Program will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Program does not have an investment policy for custodial credit risk for investments.

The Illinois Prepaid Tuition Program is not exposed to custodial credit risk at June 30, 2016.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer.

The operational guidelines as set forth in the Illinois Prepaid Tuition Program’s investment policy indicate:

- For fixed income managers no more than 5% of the fixed income portfolio at time of purchase may be invested in any one company, except for U.S. government or agency issues.
- For investments in international equity, investment in any one issuer shall not exceed five percent of the market value of the portfolio at the time of purchase. No more than ten percent of the market value of the portfolio may be held in any one issuer at any time. Investment in any one company in the portfolio may be no more than ten percent of the total market value of that company.
- For investments in domestic equity, investment in any one issuer shall not exceed five percent of the market value of the portfolio at the time of purchase. No more than ten percent of the market value of the portfolio may be held in any one issuer at any time. Investment in any one company in the portfolio may be no more than ten percent of the total market value of that company.

As of June 30, 2016, there were no investments subject to concentration of credit risk.

Note 3. Deposits and Investments (Continued)

C. Investments (Continued)

Foreign Currency Risk

Foreign currency risk is the risk that changes in currency exchange rates will adversely affect the fair value of an investment.

The Illinois Prepaid Tuition Program's investments in international equity are in compliance with the guidelines of the investment policy. As of June 30, 2016, 17.5% is invested in international equities.

Certain alternative investments also hold investments located outside of the United States. These investments denominated in U.S. dollars have underlying investments in other currencies including the Indian rupee and the South Korean won. Fluctuations in foreign exchange rates between the U.S. dollar and other currencies could have an effect on the amounts realized in U.S. dollars involving these investments. The Program has the following investments denominated in foreign currency.

Investments Denominated in Foreign Currency
June 30, 2016

Valuation

The Program categorizes its fair value measures within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs (see page 17); and leveling is not required for investments held at amortized cost. The Program has the following as of June 30, 2016:

	June 30, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Leveling Not Required
Investments by fair value level				
Debt securities				
U.S. Treasury notes	$ 17,335,308	$ -	$ 17,335,308	$ -

Valuation (Continued)

Investments measured at the net asset value (NAV)	June 30, 2016
Real estate investment trust	$ 49,399,957
Real estate	99,826,360
Private equity	25,197,461
Infrastructure	85,683,602
Absolute return	82,574,819
High yield fund	35,913,334
Total investments measured at the NAV	$ 378,595,533
Total investments measured at fair value or amortized cost	$ 964,865,653

The valuation method of investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table.

	Fair Value	Unfunded Commitments	Redemption Frequency If Currently Eligible	Redemption Notice Period
Real estate investment trust	$ 49,399,957	$ -	Quarterly	30 days notice
Real estate	99,826,360	48,052	n/a	n/a
Private equity	25,197,461	5,122,149	n/a	n/a
Infrastructure	85,683,602	6,927,376	n/a	n/a
Absolute return	82,574,819	-	Annual	65 and 180 days notice
High yield fund	35,913,334	-	Quarterly	60 days notice
Total investments measured at the NAV	$ 378,595,533	$ 12,097,577		

Note 3. Deposits and Investments –(Continued)

C. Investments (Continued)

Valuation (Continued)

Real estate investment trust: This investment manager opportunistically sources, structures and executes investments in real estate operating companies. The fair values of the investment in this type have been determined using the NAV per share of the investment. This investment can be redeemed quarterly with 30 days' notice. A liquidating account may be used during period of market stress to provide orderly liquidation.

Real estate: This type includes four real estate funds that invest primarily in U.S. commercial and residential real estate. The fair values of the investments in this type have been determined using the NAV per share of the Program's ownership investment in partners' capital with the exception of Lyrical Antheus Realty Partners III, LP where the partners' capital which is recognized at cost basis on their financial statements has been adjusted to reflect the investment on a fair value basis (see Note 11 for details). These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next six years with 10% to 25% (varies by investment manager) within state fiscal year 2017.

Private equity: This type includes three private equity funds. One holds portfolio securities. A second fund acquires, holds and disposes of investments in secondary opportunities. The third fund invests in a diversified portfolio of private equity limited partnerships purchased in the secondary market. The fair values of the investments in this type have been determined using the NAV per share of the Program's ownership investment in partners' capital. These investments can never be redeemed within the funds. Instead, the nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the funds. It is expected that the underlying assets of the funds will be liquidated over the next six years with 10% to 25% (varies by investment manager) within state fiscal year 2017.

Infrastructure: This type includes two infrastructure funds which invest in infrastructure and related assets in the United States, Asia and Europe. The fair values of the investments in this type have been determined using the NAV per share of the Program's ownership investment in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next six years with 5% to 10% (varies by investment manager) within state fiscal year 2017.

Absolute return: This type includes two absolute return funds of funds. One targets consistent, positive absolute returns with minimal beta to major equity and fixed income markets. The other is a multi-manager fund in the global commodity and commodity related markets. The fair values of the investments in this type have been determined using the NAV per share of the Program's ownership investment in partners' capital. Both have annual liquidity with quarterly liquidity available for a fee. Both have fund level gate thresholds of 20% to 25% of fund assets. Both will withhold a percentage pending the completion of the annual audit. A five million redemption was initiated in July 2016 for distribution within 30 days following January 31, 2017.

High yield: This type seeks income and gains through trading and investing in securities. The fair value of the investment in this type has been determined using the NAV per share of the Program's ownership investment in partners' capital. Ninety percent of liquid securities are available within 30 days of quarter end with 60 days notice prior to quarter end. Up to 25% of the fund may be invested in illiquid securities. Ten percent of any withdrawal may be held until 30 days following the annual audit. As of June 30, 2016, $376,999 was held in a liquidating account related to prior redemptions.

Note 4. Balance Due to Other ISAC Fund

As of June 30, 2016, the Illinois Prepaid Tuition Program owed $281,443 to the Student Loan Operating Fund for expense reimbursements. In addition, the Illinois Prepaid Tuition Program owed $286,888 to Illinois Universities for payment of tuition and fee benefits.

Note 5. Personnel Cost Allocation

Based on a revised cost allocation policy, beginning in FY13, all payroll-related costs are paid out of the Student Loan Operating Fund. This includes salary, benefits, and any vacation or sick payout should they be incurred. On a monthly basis, College Illinois is charged back for the related hours worked and costs incurred.

Note 6. Tuition Obligation

The tuition obligation is management's estimate of the present value of the estimated tuition payments to be made and is expected to be financed from investments of prepaid tuition contracts. The estimate for the future tuition obligation is based on a closed group projection for existing contracts assuming no new contract sales after June 30, 2016. See actuarial assumptions and additional information in Note 10.

Tuition obligation activity for the year ended June 30, 2016 is as follows:

Balance July 1, 2015	$ 1,320,201,957
Add:	
Contributions received in FY2016	26,278,039
Change in contracts receivable, at present value*	(8,614,915)
Adjust tuition obligation based on actuarial valuation	32,463,947
Less:	
Return of contributions	(15,313,422)
Tuition payments	(124,216,105)
Balance June 30, 2016**	$ 1,230,799,501
Reported as:	
Current	$ 152,815,221
Noncurrent	1,077,984,280
	$ 1,230,799,501

*See Note 10. Discount rate used in determining present value was 6.75%.

**The accreted tuition expense is calculated at least annually by the Commission's actuary and is an estimate based on the average increase in tuition for Illinois colleges. Tuition and fee increases that were less than expected and the change in assumptions and methods contributed to the decrease in the tuition obligation compared to the balance at June 30, 2015. Accreted tuition expense is reflected as an expense in the Statement of Revenues, Expenses, and Changes in Net Position and as an increase (or decrease) to the tuition obligation on the Statement of Net Position.

Note 7. Pension Plan

A majority of ISAC's full-time employees who are not eligible for participation in another state-sponsored retirement plan participate in the State Employees' Retirement System (SERS), which is a pension trust fund in the State of Illinois reporting entity. The SERS is a single-employer defined/benefit public employee retirement system (PERS) in which State employees participate, except those covered by the State Universities, Teachers', General Assembly, and Judges' Retirement Systems. The financial position and results of operations of the SERS for fiscal year 2016 are included in the State of Illinois' Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2016. The SERS issues a separate CAFR that may be obtained by writing to the SERS, 2101 South Veterans Parkway, Springfield, Illinois 62794-9255.

A summary of SERS benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the SERS' CAFR. Also included is a discussion of employer and employee obligations to contribute and the authority under which those obligations are established.

The Commission pays employer retirement contributions for the Illinois Prepaid Tuition Program based upon an actuarially determined percentage of its payroll. For fiscal years 2016, 2015, and 2014, the employer contribution rate was 45.6%, 42.3%, and 40.3%, respectively. The required and actual contribution for fiscal years 2016, 2015, and 2014 was $467,660, $362,333, and $498,458, respectively. Contributions to SERS and the net pension liability related to the SERS pension plan are recorded by the Commission's Student Loan Operating Fund.

Note 8. Post-employment Benefits

The State provides health, dental, vision, and life insurance benefits for retirees and their dependents in a program administered by the Department of Healthcare and Family Services along with the Department of Central Management Services. Substantially all State employees become eligible for post-employment benefits if they eventually become annuitants of one of the State sponsored pension plans. Health, dental, and vision benefits include basic benefits for annuitants and dependents under the State's self-insurance plan and insurance contracts currently in force. Annuitants may be required to contribute towards health, dental, and vision benefits in accordance with Public Act 97-0695.

The total cost of the State's portion of health, dental, vision, and life insurance benefits of all members, including post-employment health, dental, vision, and life insurance benefits, is recognized as an expenditure by the State in the Illinois Comprehensive Annual Financial Report. The State finances the costs on a pay-as-you-go basis.

The total costs incurred and related liabilities for health, dental, vision, and life insurance benefits are not separated by department, fund or component unit for annuitants and their dependents nor active employees and their dependents.

A summary of post-employment benefit provisions, changes in benefit provisions, employee eligibility requirements, including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the financial statements of the Department of Healthcare and Family Services. A copy of the financial statements of the Department of Healthcare and Family Services may be obtained by writing to the Department of Healthcare and Family Services, 201 South Grand Ave., Springfield, Illinois 62763-3838.

Note 9. Fund Deficits

As of June 30, 2016, the Illinois Prepaid Tuition Program has a deficit in net position of $215,121,432. The table below details a reconciliation of the fund deficit in the financial statements to the fund deficit in the Actuarial Soundness Report as of June 30, 2016.

Reconciliation of Fund Deficit with Unfunded Liability in the Actuarial Report

Unfunded liability per actuarial soundness report	$ (264,313,965)
Present value of accrued future administrative expense	50,926,303
Other accrued liabilities	(1,733,770)
Fund deficit per Statement of Net Position	$ (215,121,432)

Note 10. Program Risks and Actuarial Data

The Program's ability to honor existing and future contracts depends primarily upon three factors: (i) continued contract sales within projections; (ii) achieving a projected annual net return on Program investments; and (iii) actual tuition/fee increases being within projected amounts.

Gabriel, Roeder, Smith and Company, the independent actuarial firm retained by *College Illinois!* ®, has performed an actuarial soundness valuation of *College Illinois!*®, the State's section 529 prepaid tuition program, as of June 30, 2016 to evaluate the financial viability of the Program as of June 30, 2016. The complete Actuarial Soundness Report as of June 30, 2016 is included in the Other Information Section.

The Program is not supported by the full faith and credit of the State of Illinois, nor is it guaranteed by the State's general fund. The Program is a moral obligation of the State of Illinois requiring the Governor to request an appropriation from the State General Assembly in case the Commission and the Governor determine that the Program does not have adequate assets to meet its contractual obligations in an upcoming fiscal year. While the General Assembly has fulfilled other moral obligations of the State of Illinois in the past, it is not obligated to appropriate, and no assurances can be made that the General Assembly will appropriate sufficient moneys to meet the Program's contractual obligations.

If it is determined by the Commission, with the concurrence of the Governor, that the Program is financially infeasible, the Commission may prospectively discontinue the Program. Pursuant to the prepaid tuition statute, if the Program is discontinued, beneficiaries who are or will enroll within five years at an eligible institution shall be entitled to exercise the complete benefits specified in the contract; all other contract holders shall receive an appropriate refund of all contributions and accrued interest up to the time the Program is discontinued.

Note 10. Program Risks and Actuarial Data - Continued

The following is a summary of the actuarial present value (APV) of the future benefits obligation, funded ratio, and significant assumptions used.

APV of future benefits obligation*	$ 1,230,799,501
Funded ratio	79.40 %
Actuarial assumptions:	
Actuarial valuation date	June 30, 2016
Assumed net investment return	6.75 %
Rates of cancellations	Varies according to years from projected college entrance year
Tuition increases all contract types: All future years	5.00 %

* For all existing contracts as of June 30, 2016

The actuarial present value of the future benefits obligation decreased by approximately $89 million compared to the balance reported at June 30, 2015. Contributing to the overall decrease was tuition paid during the year.

Note 11. Restatement for Implementation of New Accounting Standard

Effective for the year ending June 30, 2016, the Commission implemented GASB Statement No. 72, The implementation of this Statement impacted the Commission's methodology for recognition of investments in the Prepaid Tuition Trust Fund. Specifically, the Prepaid Tuition Trust Fund's investment in Lyrical Antheus Realty Partners III, LP a real estate opportunistic investment which was recognized at cost basis in the Statement of Net Position until fiscal year 2015. Effective June 30, 2016 the Commission has changed its methodology and is recording this investment at fair market value using the net asset value method in its Statement of Net Position.

The change in methodology has resulted in a restatement of beginning net position as of June 30, 2015. The changes are detailed in the below table.

Net Position, June 30, 2015	$ (236,113,466)
Implementation of GASB 72:	17,775,998
Net Position, June 30, 2015, as restated	$ (218,337,468)

Note 12. Risk Management

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; workers' compensation and natural disasters. The State retains the risk of loss (i.e., self insured) for these risks except for insurance purchased by the Commission for the building and EDP equipment. There has been no reduction in insurance coverage from coverage in the prior year. Settlement amounts have not exceeded coverage for the current or prior two years. The Commission's risk management activities for workers' compensation are financed through appropriations to the Illinois Department of Central Management Services and are accounted for in the general fund of the State. The claims are not considered to be a liability of the Commission and, accordingly, have not been reported in the Commission's financial statements for the year ended June 30, 2016.

Note 13. New Governmental Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following statements:

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will be effective for the Commission beginning with its year ended June 30, 2018. This Statement addresses accounting and financial reporting for OPEB that is provided to employees of State and local governmental employers.

GASB issued Statement No. 82, *Pension Issues, an amendment of GASB Statements No. 67, No.68 and No. 73*, will be effective for the Commission beginning with its year ended June 30, 2017. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within The Scope of GASB Statement 68*, and amendments to certain provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Management has not yet completed its assessment of the impact this Statement may have on the financial statements.

Chicago, IL 60601-3293

Re: College Illinois!® Prepaid Tuition Program Actuarial Valuation as of June 30, 2016

Dear Mr. Zarnikow:

In accordance with the request of the Illinois Student Assistance Commission ("ISAC"), Gabriel, Roeder, Smith & Company ("GRS") has performed an actuarial soundness valuation of the College Illinois!® Prepaid Tuition Program ("CIPTP") as of June 30, 2016. Although the term "actuarial soundness" is not specifically defined, the primary purpose of this actuarial valuation is to evaluate the financial status of the program as of June 30, 2016.

This report presents the principal results of the actuarial valuation of the CIPTP including the following:

- A comparison of the actuarial present value of the obligations for prepaid tuition contracts purchased through June 30, 2016, with the value of the assets associated with the program as of that same date;
- An analysis of the factors which caused the deficit/surplus to change since the prior actuarial valuation; and
- A summary of the actuarial assumptions and methods utilized in the actuarial calculations.

This report was prepared at the request of ISAC and is intended for use by ISAC and those designated or approved by ISAC. This report may be provided to parties other than ISAC only in its entirety and only with the permission of ISAC. This report should not be relied on for any purpose other than the purpose described above.

The valuation results set forth in this report are based upon data and information, furnished by ISAC, concerning program benefits, financial transactions and beneficiaries of the CIPTP. We reviewed this information for internal and year-to-year consistency, but did not audit the data. We are not responsible for the accuracy or completeness of the information provided by the Illinois Student Assistance Commission. Further, the data and information provided is through June 30, 2016, and do not reflect subsequent market volatility.

The valuation results summarized in this report involve actuarial calculations that require assumptions about future events. The actuarial assumptions used in this analysis were based on an experience review for the period from July 1, 2011, to June 30, 2014, and were adopted for use commencing with the June 30, 2015, valuation. Beginning with the valuation as of June 30, 2016, the investment return assumption was decreased from 7.00 percent to 6.75 percent and the tuition and fee increase assumption was decreased to 5.00 percent for all future years.

The major actuarial assumptions used in this analysis were provided by and are the responsibility of ISAC.

Given the current asset allocation and liquidity requirements, and assuming that a sufficient number of new contracts are sold in the future to maintain the current asset allocation, the net investment rate of return assumption of 6.75 percent, appears to be consistent with applicable Actuarial Standards of Practice.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; and changes in plan provisions or applicable law. We have performed an analysis of the sensitivity of certain changes in future assumptions.

We believe that the actuarial methods used in this report are reasonable and appropriate for the purpose for which they have been used. In addition, because it is not possible or practical to consider every possible contingency, we may use summary information, estimates or simplifications of calculations to facilitate the modeling of future events. We may also exclude factors or data that are deemed to be immaterial.

To the best of our knowledge, the information contained in this report is accurate and fairly presents the actuarial position of the College Illinois!® Prepaid Tuition Program as of June 30, 2016. All calculations have been made in conformity with generally accepted actuarial principles and practices commonly applicable to similar types of arrangements.

There are currently no Actuarial Standards of Practice which specifically relate to prepaid tuition plans. We have looked to the Actuarial Standards of Practice related to pensions for guidance due to their similar nature.

Lance J. Weiss, Amy Williams and Alex Rivera are Members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. Lance J. Weiss, Amy Williams and Alex Rivera are independent of ISAC.

Respectfully submitted,

Gabriel, Roeder, Smith and Company

EXECUTIVE SUMMARY

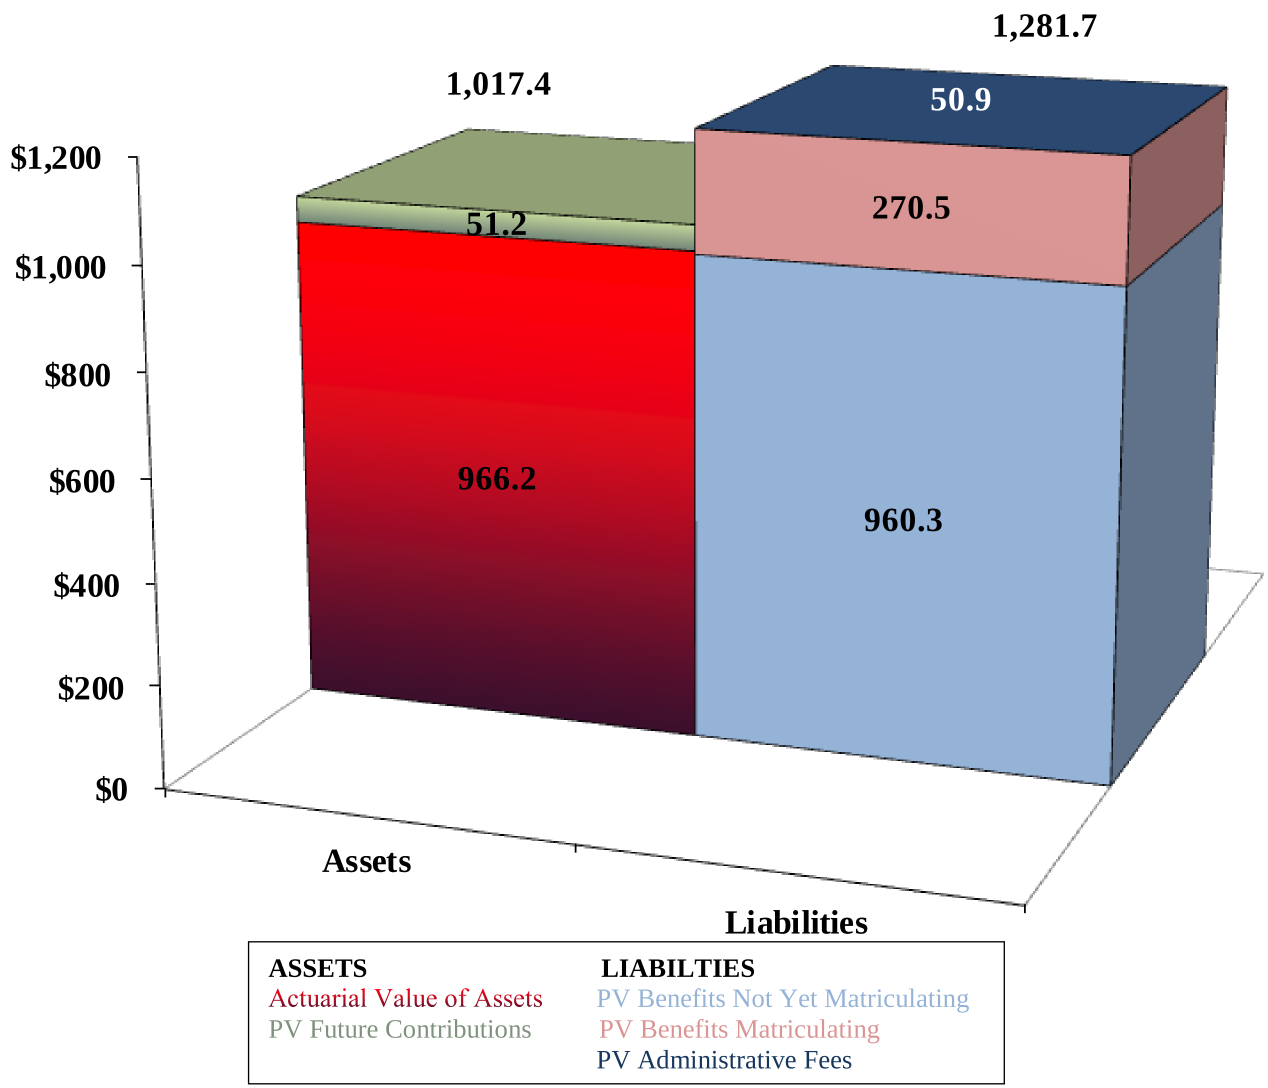
SUMMARY OF RESULTS

Principal Actuarial Soundness Valuation Results

Valuation Date:	June 30, 2016	June 30, 2015
Membership Summary:		
Counts		
Not yet Matriculating	28,234	31,194
Matriculating	12,841	12,385
Total	41,075	43,579
Average years until Enrollment if Not yet Matriculating	4.4	4.7
Assets [1]		
· Actuarial Value of Assets (AVA)	$1,017,411,839	$1,085,206,988
· Estimated Return	6.13%	3.90%
Actuarial Liabilities (Present Value of Future Tuition Payments, Fees, and Administrative Expenses)	$1,281,725,804	$1,377,318,169
Unfunded Liabilities	$264,313,965	$292,111,181
Funded Ratio	79.4%	78.8%

[1] *Asset values include present value of expected future contributions from current members.*

SUMMARY OF ASSETS AND LIABILITIES AS OF JUNE 30, 2016
$ IN MILLIONS



Funded Status as of June 30, 2016

	June 30, 2016
Actuarial Present Value of Future Tuition Payments, Fees and Expenses	$1,281,725,804
Actuarial Value of Assets (Including the Present Value of Installment Contract Receivables)	$1,017,411,839
Deficit/(Surplus) as of June 30, 2016	$264,313,965

Gain/Loss Summary

	Unfunded Liability (Market Value of Assets)
Value at June 30, 2015	$ 292,111,181
Expected Value at June 30, 2016	$ 309,309,748
(Gain)/Loss Due to:	
Investment Experience	$ 8,218,414
Change in Assumptions and Methods	(21,711,495)
Tuition/Fee Inflation	(40,802,985)
Other Demographic Experience*	9,300,283
Total	$ (44,995,783)
Actual Value at June 30, 2016	$ 264,313,965

**Other Demographic Experience includes deviations in actual contract beneficiary experience from our assumptions related to rates of enrollment and utilization of benefits and contract terminations and refunds.*

Additional Details on the development of the Expected Value at June 30, 2016, can be found on Page 9.

DISCUSSION

Actuarial Valuation

Gabriel, Roeder, Smith & Company ("GRS") has performed an actuarial soundness valuation of the College Illinois!® Prepaid Tuition Program ("CIPTP") as of June 30, 2016.

The primary purposes of the actuarial soundness valuation are to:

- Determine the actuarial present value of the obligations for prepaid tuition contracts purchased through June 30, 2016, and compare such liabilities with the value of the assets associated with the program as of that same date; and
- Analyze the factors which caused the deficit/surplus to change since the prior actuarial valuation.

This report summarizes those results and also presents the impact of variances in the rate of tuition and fee increases as well as the rate of investment return on assets.

In addition, the report provides summaries of the member data, financial data, plan provisions and actuarial assumptions and methods.

The actuarial assumptions and methods used for this June 30, 2016, actuarial soundness valuation, with the exception of the net investment return and tuition and fee increase assumptions, were based on an experience review for the period from July 1, 2011, to June 30, 2014, and were adopted for use commencing with the June 30, 2015, actuarial soundness valuation. The change in the net investment return and tuition and fee increase assumptions are discussed below.

Background

Legislation authorizing ISAC to administer an Illinois Prepaid Tuition Program was passed in November 1997. The purpose of the program is to provide Illinois families with an affordable tax-advantaged method to pay for college. CIPTP is open to all Illinois residents and non-Illinois residents purchasing for Illinois-resident beneficiaries. CIPTP contracts may allow participants to prepay the cost of tuition and mandatory fees at Illinois public universities and community colleges at expected projected costs, which may be more stable than actual future costs.

Benefits of the program can also be used at private and out-of-state colleges and universities. Contracts can be purchased in a lump sum or in installments. As a Section 529 plan, CIPTP earnings are exempt from state and federal income taxes.

The first CIPTP contracts were offered for sale in 1998. As of June 30, 2016, the CIPTP had 41,075 contracts in force.

Actuarial Assumptions

The actuarial soundness valuation results summarized in this report involve actuarial calculations that require assumptions about future events. The actuarial assumptions used in this actuarial soundness valuation were based on an experience review for the period from July 1, 2011, to June 30, 2014, and were approved and adopted for use commencing with the June 30, 2015, actuarial soundness valuation by ISAC. These actuarial assumptions are the responsibility of ISAC.

Changes in Actuarial Assumptions Since Prior Valuation

For “Community College,” “University,” “University Plus” and “Legacy” contracts, the select and ultimate rate structure for tuition and fee increases were changed to a flat rate of 5.00 percent for fiscal years 2017 and beyond for all contract types. Furthermore, the net investment return assumption was decreased from 7.00 percent used in the June 30, 2015, actuarial soundness valuation, to 6.75 percent for the June 30, 2016, actuarial soundness valuation. These assumptions were provided to us by ISAC.

Given the current asset allocation and liquidity requirements, and assuming that a sufficient number of new contracts are sold in the future to maintain the current asset allocation, the net investment rate of return assumption of 6.75 percent, appears to be consistent with applicable Actuarial Standards of Practice.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; and changes in plan provisions or applicable law. We have performed an analysis of the sensitivity of certain changes in assumptions.

Financial Status of Program as of June 30, 2016

As of June 30, 2016, the present value of all future tuition obligations under contracts outstanding (and including future administrative expenses) at that date is $1,281,725,804. Fund assets as of June 30, 2016, including the market value of program assets and the present value of installment contract receivables, is $1,017,411,839.

The difference between the present value of future tuition obligations and the value of assets as of June 30, 2016, represents a program deficit of $264,313,965. The comparable program deficit as of the last valuation as of June 30, 2015, was $292,111,181.

Gain/Loss Analysis

As described above, the program deficit decreased from $292.1 million as of June 30, 2015, to $264.3 million as of June 30, 2016. Based on the actuarial assumptions used during the June 30, 2015, actuarial soundness valuation, the deficit was expected to increase to $309.3 million. The primary factors which caused the expected deficit to decrease by $45.0 million include tuition and fee increases that were less than expected and the change in actuarial assumptions and methods. These gains were partially offset by losses due to investment returns that were less than expected and other demographic experience (which includes deviations in actual contract beneficiary experience from our assumptions related to rates of enrollment and utilization of benefits and contract terminations and refunds).

The funded ratio increased from 78.8 percent as of June 30, 2015, to 79.4 percent as of June 30, 2016.

Benefit Provisions

The basic terms and conditions of the College Illinois!® Prepaid Tuition Program (the “Program”) are included in the Illinois Prepaid Tuition Act, 110 ILCS 979 (the "Act") and ISAC Administrative Rules (23 Ill. Adm. Code 2775, et. seq.) ("ISAC Rules").

We understand there were no changes in the program provisions since the last actuarial soundness valuation as of June 30, 2015.

Assets

CIPTP assets are held in trust. ISAC provided the asset information used in the June 30, 2016, actuarial valuation.

This report contains several exhibits summarizing the plan's assets, including a summary of the market value of assets broken down by asset category and a reconciliation of the assets from the last actuarial valuation date to the current actuarial valuation date. The approximate return on market value of assets was 6.13 percent for the year ended June 30, 2016.

Commencing with the June 30, 2015, valuation, the actuarial value of assets is equal to the market value of assets.

Contract Prices

Contract prices are determined for each enrollment period based upon a variety of factors and include a built-in stabilization factor. The stabilization factor is intended to help insulate the Program from unexpected market volatility and improve the funded status of the Program over time. Each year, ISAC reviews the actuarial soundness report, the Mean Weighted Average Tuition and Fees and the stabilization factor amount to establish contract pricing. In effect, contract prices are reviewed in order to reflect tuition and fee increases at Illinois public institutions, as well as other actuarial criteria.

Contracts Sold by Enrollment Year

The chart on page 16 in Section D illustrates the number of contracts sold by enrollment year.

As this chart indicates, the number of contracts sold has decreased significantly during the last five enrollment years from the number sold per year in previous years.

- The average annual number of contracts sold beginning with the enrollment period 1999/2000 and ending with the enrollment period 2009/2010 was 5,235.
- The average annual number of contracts sold during the last six year period 2010/2011 to 2015/2016 was 577 including 2011/2012 when the plan was not open for new contract sales.
- The average annual number of contracts sold during the last six year period 2010/2011 to 2015/2016 was 692 excluding 2011/2012 when the plan was not open for new contract sales.

Projection Scenarios

The June 30, 2015 Actuarial Soundness Report included both closed group and open group projection scenarios. At the request of ISAC, such projections will now be included in a separate report.

Disclosure

This report is not a recommendation to anyone to participate or not participate in the CIPTP. GRS makes no representations or warranties to any person participating in or considering participation in the CIPTP.

Exhibit IV
Sensitivity Testing Results

The actuarial assumptions regarding future increases in tuition costs and fees and the future rate of investment return were provided to us by ISAC. In our opinion, the actuarial assumptions provided to us are reasonable for the purpose of the measurement. However, no one really knows what the future holds with respect to economic conditions and other contingencies. For example, while it is assumed that the assets of the fund will earn 6.75 percent each year throughout the life of the contracts, actual returns are expected to vary from year to year. Therefore, we have projected CIPTP results under alternative assumptions for future investment income, tuition increases and fee increases.

1. Tuition increases are 100 basis points higher/lower in each future year than assumed in the baseline valuation (measurement of soundness).
2. Fee increases are 100 basis points higher/lower in each future year than assumed in the baseline valuation (measurement of soundness).
3. The investment return is 50 basis points higher/lower in each future year than assumed in the baseline valuation (measurement of soundness).

The impact of each of these scenarios on the principal actuarial soundness valuation results is presented on the following page.

SECTION E

METHODS & ASSUMPTIONS

VALUATION METHODS

Actuarial Value of Assets – The Actuarial Value of Assets is equal to the Market Value of Assets.

VALUATION ASSUMPTIONS

The actuarial assumptions used in the valuation are shown in this Section.

Measurement Date June 30, 2016

The net investment return rate 6.75 percent per annum, compounded annually. Includes inflation assumption of 3.00 percent. (Updated for the valuation as of June 30, 2016)

Given the current asset allocation and liquidity requirements, and assuming that a sufficient number of new contracts are sold in the future to maintain the current asset allocation, the net investment rate of return assumption of 6.75 percent, appears to be consistent with applicable Actuarial Standards of Practice.

Weighted Average Tuition and Fees (WATF) Based on the Freshman Blended Tuition Rate and Increases by Contract Type

	Contract Type			
	Choice 1	Choice 2	Choice 3	
	Community College	University	University Plus	Legacy†
2016-2017 Weighted Tuition	$3,698	$10,410	$14,136	$11,318
2016-2017 Weighted Fees	459	3,748	3,662	3,727
2016-2017 Total WATF	4,157	14,158	17,798	15,045

†"Legacy contracts refer to contracts sold prior to October 2008. These contracts can be used for full tuition and fees at any public University in the State of Illinois, including UIUC.

For continuing students at public universities and students attending community colleges, fees are combined with tuition in our projections and follow their respective tuition inflation assumptions.

These assumptions were chosen by ISAC and consider historical Illinois public tuition and fee inflation, typically over a 20-year horizon, as well as current economic and political conditions.

	Contract Type			
	Choice 1	Choice 2	Choice 3	
	Community College	University	University Plus	Legacy†
2016-2017 Total WATF	$4,157	$14,158	$17,798	$15,045
2015-2016 Total WATF	3,980	13,770	17,726	14,687
WATF Increase	4.45%	2.82%	0.41%	2.44%

Tuition and Fee Increase Assumption

Tuition and Fee Increase Assumption - June 30, 2016, Actuarial Valuation				
Effective Date	Community College	University	University Plus	Legacy
6/30/2017 and Beyond	5.00%	5.00%	5.00%	5.00%

(Updated for the valuation as of June 30, 2016)

Truth in Tuition

We have segregated the beneficiaries into two categories, those beneficiaries that fall under the Truth in Tuition law and those that do not. The Truth in Tuition law does not apply to community colleges.

For Truth in Tuition beneficiaries, it was assumed that their tuition will not increase in their second, third and fourth year of school. If they attend school beyond four years, it was assumed that their tuition would increase to the amount charged the year after the year they first enrolled. For all other beneficiaries, it was assumed that tuition will rise for each year enrolled. It was assumed fees will rise for each year enrolled.

Administrative Expenses

Administrative expenses of the Program are assumed to be paid through a combination of investment earnings and fees assessed on purchasers. Marketing expenses (assumed to be 12 percent of the total administrative expenses) were excluded from the liabilities (present value of future administrative expenses) for current contract beneficiaries as it is assumed those costs should be applicable to future contracts. Administrative expenses are projected to increase by the rate of the inflation assumption of 3.0 percent for 7 years and then decline at the same rate the present value of benefits declines (combined with a 3.0 percent increase for inflation). The present value of future administrative expenses was determined to be equal to approximately 4.0 percent of the total liabilities.

Bias Load

"Legacy," Choice 1 and Choice 2 contract beneficiaries were assumed on average to attend more expensive schools than indicated by the headcount information that was used to determine the 2016-2017 WATF. A load of 4.0 percent for "Legacy" contracts, 5.5 percent for Choice 1 contracts and 2.5 percent for Choice 2 contracts was added to the WATF assumption to recognize this bias toward enrollment at more expensive schools. No bias load was applied to the "University Plus" beneficiaries due to the separation of UIUC.

Mortality and Disability

No assumption is made for death or disability. Valuing the rate of incidence is expected to be immaterial.

Future Beneficiary Profile

The characteristics of future beneficiaries are assumed to be the same as the characteristics of 2016 new beneficiaries.

The Rates of Enrollment

These rates are used to measure the probability of eligible members matriculating at and beyond their projected college entrance date.

Years From Projected College Entrance Year	Matriculation Rate
0	70%
1	35%
2	40%
3	30%

0	2%
1	2%
2	3%
3	3%
4	5%
5	5%
6	8%
7	8%
8	5%
9	5%
10	5%

In the event of a cancellation, it was assumed that a refund will be paid equal to the amount of contributions paid by the contract holder, increased by 2 percent for each subsequent year after purchase for contracts sold prior to October 1, 2013.

Utilization of Benefits

Once they start matriculating, beneficiaries are assumed to use the benefits as described by the CIPTP Master Agreement according to the schedule below.

Distribution of Benefit Utilization									
Number of Years	**Number of Semesters Purchased**								
Since Matriculation	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**
1	73%	73%	49%	37%	29%	24%	21%	18%	16%
2	20%	20%	28%	35%	26%	24%	21%	18%	16%
3	7%	7%	14%	17%	19%	22%	21%	18%	16%
4			5%	6%	13%	15%	21%	18%	16%
5			5%	6%	7%	9%	8%	13%	16%
6					3%	4%	3%	6%	8%
7					2%	2%	2%	4%	6%
8							1%	2%	4%
9							1%	2%	1%

Once a contract beneficiary has matriculated, and if the contract beneficiary has used credits within the past year, it is assumed that the contract beneficiary will utilize 22 credits per year until benefits are fully depleted.

If the contract beneficiary has matriculated, but the contract beneficiary has not used credits within the past year, the matriculation rates, cancellation rates and benefit utilization rates that apply to members that have not matriculated yet are assumed. (Updated for the valuation as of June 30, 2016)

SECTION F

PLAN PROVISIONS

PLAN PROVISIONS

(This is a summary only; the full terms and conditions of the College Illinois!® Prepaid Tuition Program are included in the Illinois Prepaid Tuition Act, 110 ILCS 979 (the "Act") and ISAC Administrative Rules (23 Ill. Adm. Code 2775, et. seq.) ("ISAC Rules").

A. Type of Contract

Three types of contracts are available for purchase: Choice 1 - Community College, Choice 2 – University and Choice 3 – University Plus.

B. Benefit

Covered benefits include tuition and mandatory fees at an Illinois public university or community college based on the in-state or in-district undergraduate rate for a full-time student.

Mandatory fees are fees that are required upon enrollment for all students attending the particular institution.

The benefit does not include any optional fees, expenses or cost of supplies.

Benefit shall never be less than payment amount.

C. Member Contributions

The Program offers a variety of payment options, including the following:

- Lump Sum;
- 5-year installment plans paid monthly or annually;
- Extended installment plans of 6 to 15 years, depending on age, paid monthly or annually;
- Down payment options are available for monthly installment plans.

D. Private or Out-of-State Institutions

For beneficiaries attending a private or out-of-state institution, the plan will pay an amount based upon the weighted average tuition and mandatory fees at Illinois public universities or community colleges depending on the type of contract purchased.

PLAN PROVISIONS (CONTINUED)

E. Scholarship

If a qualified beneficiary is awarded a grant or scholarship that duplicates the benefits covered by a prepaid tuition contract, the purchaser may request a refund in semester installments.

Illinois public university or community college – the installments will be in an amount equal to the current cost of in-state or in-district registration fees at that institution, less any benefits used to pay registration fees not covered by the scholarship and any applicable fees.

Illinois Private Institution or an eligible Out-of-State Institution – the installments will be in an amount equal to the current average mean-weighted credit hour value of registration fees at Illinois public universities or Illinois community colleges, depending on the type of the purchased contract, less any benefits used to pay registration fees not covered by the scholarship and any applicable fees.

F. Not Attending an Institution of Higher Education

Benefits can be transferred to a member of the "family" as defined in Section 529 of the Internal Revenue Code.

Purchasers can also choose to postpone the beneficiary's use of contract benefits to a later time or receive a refund payment equal to all contributions, plus two percent interest (only applicable to contracts purchased prior to the 2013/2014 enrollment period), less applicable cancellation fees.

G. Death/Disability of Qualified Beneficiary

Refunds equal to amount paid with all accrued earnings will be made to purchaser.

H. Changes from Previous Valuation

None.

I. Other Ancillary Benefits

There are no ancillary benefits.

Chicago, IL 60601-3293

Re: College Illinois!® Prepaid Tuition Program
Supplemental Actuarial Soundness Valuation Report as of June 30, 2016

Dear Mr. Zarnikow:

In accordance with the request of the Illinois Student Assistance Commission ("ISAC"), Gabriel, Roeder, Smith & Company ("GRS") has performed projections of the College Illinois!® Prepaid Tuition Program ("Program" or "CIPTP") under alternative open group and closed group scenarios. The purpose of these projections is to provide additional information to ISAC regarding the range of potential outcomes of different future year contract sales scenarios.

Please note that the open group scenarios included in this report (1) were specifically requested by ISAC, (2) are presented for illustrative purposes only and (3) do not consider how increases in contract prices can impact future sales. Because there are many factors that may impact the decision to purchase or not to purchase a prepaid tuition contract in Illinois, including but not limited to (1) increasingly unaffordable college tuition, (2) the extended state budget impasse, (3) uncertainty about the state's support and funding for higher education in Illinois, (4) contract prices, (5) the level of contribution premium over the expected costs, and (6) competing savings vehicles, etc., it is very difficult to assess the likelihood of selling a particular number of contracts. Therefore, GRS is unable to judge the reasonableness of these open group contract sales scenarios.

While the closing of the CIPTP has not occurred, we have also provided an alternate closed group projection assuming no new contract sales after June 30, 2016. Please note that this closed group scenario was specifically requested by ISAC and is also presented for illustrative purposes only.

For purposes of this analysis, we used the actuarial soundness valuation results from the June 30, 2016, Actuarial Soundness Valuation, and unless noted differently, the same actuarial assumptions and methods as used for the June 30, 2016, Actuarial Soundness Valuation.

The projection results summarized in this report involve actuarial calculations that require assumptions about future events. The major actuarial assumptions used in this analysis were provided by and are the responsibility of ISAC. We are unable to judge the reasonableness of some of these assumptions without performing a substantial amount of additional work beyond the scope of the assignment.

This supplemental report was prepared at the request of ISAC and is intended for use by ISAC and those designated or approved by ISAC. This report may be provided to parties other than ISAC only in its entirety and only with the permission of ISAC. This report should not be relied on for any purpose other than the purpose described above.

Please understand that future actuarial measurements may differ significantly from the current measurements presented in this analysis due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; and changes in plan provisions or applicable law.

This supplemental report is one of multiple documents providing actuarial soundness valuation results for the College Illinois!® Prepaid Tuition Program as of June 30, 2016. Additional information regarding actuarial assumptions and methods, underlying financial and beneficiary data and important additional disclosures are provided in the June 30, 2016, Actuarial Soundness Valuation.

This supplemental report is not a recommendation to anyone to participate or not participate in the CIPTP. GRS makes no representations or warranties to any person participating in or considering participation in the CIPTP.

All calculations have been made in conformity with generally accepted actuarial principles and practices commonly applicable to similar types of arrangements. There are currently no Actuarial Standards of Practice which specifically relate to prepaid tuition plans. We have looked to the Actuarial Standards of Practice related to pensions for guidance due to their similar nature.

Lance J. Weiss and Amy Williams are Members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein.

Lance J. Weiss and Amy Williams are independent of ISAC.

Respectfully submitted,

Gabriel, Roeder, Smith and Company

SECTION A

BACKGROUND

BACKGROUND

Purpose of Projections

In accordance with the request of the Illinois Student Assistance Commission ("ISAC"), Gabriel, Roeder, Smith & Company ("GRS") has performed projections of the College Illinois!® Prepaid Tuition Program ("Program" or "CIPTP") under alternative open group and closed group scenarios. The purpose of these projections is to provide additional information to ISAC regarding the range of potential outcomes of different future year contract sales scenarios.

Illustrative Open and Closed Group Scenarios

Please note that the open group scenarios included in this report (1) were specifically requested by ISAC, (2) are presented for illustrative purposes only and (3) do not consider how increases in contract prices can impact future sales. Because there are many factors that may impact the decision to purchase or not to purchase a prepaid tuition contract in Illinois, including but not limited to (1) increasingly unaffordable college tuition, (2) the extended state budget impasse, (3) uncertainty about the state's support and funding for higher education in Illinois, (4) contract prices, (5) the level of contribution premium over the expected costs, and (6) competing savings vehicles, etc., it is very difficult to assess the likelihood of selling a particular number of contracts. Therefore, GRS is unable to judge the reasonableness of these open group contract scenarios.

While the closing of the CIPTP has not occurred, we have also provided an alternate closed group projection assuming no new contract sales after June 30, 2016. Please note that this closed group scenario was specifically requested by ISAC and is also presented for illustrative purposes only.

Historical Number of Contracts Sold by Enrollment Year

The chart on page 16 in Section D of the June 30, 2016, Actuarial Soundness Valuation Report illustrates the number of contracts sold by enrollment year.

As this chart indicates, the number of contracts sold has decreased significantly during the last five enrollment years from the number sold per year in previous years.

- The average annual number of contracts sold beginning with the enrollment period 1999/2000 and ending with the enrollment period 2009/2010 was 5,235.
- The average annual number of contracts sold during the last six year period 2010/2011 to 2015/2016 was 577 including 2011/2012 when the plan was not open for new contract sales.
- The average annual number of contracts sold during the last six year period 2010/2011 to 2015/2016 was 692 excluding 2011/2012 when the plan was not open for new contract sales.

Projections Assumptions

The projection results summarized in this supplemental report involve actuarial calculations that require assumptions about future events. The major actuarial assumptions used in this analysis were provided by and are the responsibility of ISAC. We are unable to judge the reasonableness of some of these assumptions without performing a substantial amount of additional work beyond the scope of the assignment.

For purposes of this analysis, we used the actuarial soundness valuation results from the June 30, 2016, Actuarial Soundness Valuation, and unless noted differently, the same actuarial assumptions and methods as used for the June 30, 2016, Actuarial Soundness Valuation. The contract prices for future new contracts were based on the prices for the enrollment period from January 18, 2017, through May 31, 2017, and are assumed to increase each year by the tuition and fee increase assumption.

Given the current asset allocation and liquidity requirements, and assuming that a sufficient number of new contracts are sold in future years to maintain the current asset allocation, the net investment rate of return assumption of 6.75% appears to be consistent with applicable Actuarial Standards of Practice.

However, for those projection scenarios where the Trust assets are being depleted very quickly, it is likely that ISAC will need to change the Trust asset allocation to a high cash position and will no longer be able to consistently earn 6.75%. Further, for those projection scenarios where the Trust is completely exhausted, ISAC will need to rely totally on additional payments from the State of Illinois. For these scenarios, we have incorporated a "select and ultimate" approach to the investment return assumption (and also the related discount rate for the liabilities). Under this "select and ultimate" approach to the investment return assumption, we have assumed that the net investment return and discount rate grade down from 6.75% to 4.00% in yearly increments based on the number of years until the Trust is projected to run out of money to pay benefits. Implicit in this approach is the assumption that once the Trust is completely exhausted, and ISAC is relying on additional payments from the State of Illinois, the State will be making payments to the College Illinois!® Prepaid Tuition Program from the State Portfolio. (The State Portfolio has assets of approximately $12-$14 billion, and provides the necessary liquidity to meet the state's daily obligations while investing remaining funds in authorized short/long-term investment opportunities.) Based on input from ISAC, we have assumed that underlying return on such assets in the State Portfolio is 4.0%.

Important Disclosure

This supplemental report is not a recommendation to anyone to participate or not participate in the CIPTP. GRS makes no representations or warranties to any person or persons participating in or considering participation in the CIPTP.

SECTION B

PROJECTION RESULTS

Discussion of Scenario Results

Scenario 1 – Closed Group -- Run-Off Scenario; Zero New Contracts Sold Per Year

While the closing of the Program has not occurred, we have provided the results of a closed group run-off projection scenario in Scenario 1. Under this illustrative closed group scenario, we have assumed that the program continues to operate but with no new contract sales after June 30, 2016. Under this scenario, future payments from current contract holders, current Trust assets and future investment income are projected to be insufficient by the year 2025 to make the required tuition payments and additional funds will be required to maintain solvency ($622.9 million for the period 2025 to 2052). The CIPTP funded status is projected to decrease from 74.5% in 2016 to 0.5% in 2025 when additional solvency contributions are required) and then decrease to 0.0% in 2030 and remain at 0.0% for the remaining years in the projection period.

Under this scenario, the Trust is projected to be completely exhausted in 2025. Therefore, we have incorporated a “select and ultimate” approach to the investment return assumption (and also the related discount rate for the liabilities). Under this “select and ultimate” approach to the investment return assumption, we have assumed that the net investment return and discount rate grade down from 6.75% in 2016 to 4.00% in 2025 in equal yearly increments of 0.345%.

Scenario 2 – Open Group -- 500 New Contracts Sold Per Year

Scenario 2 illustrates the results of an open group projection scenario assuming 500 new contracts are sold each year. Under this illustrative new contract sales assumption, member payments, fund principal and investment income future payments from contract holders, Trust assets and future investment income are projected to be insufficient to make the required tuition payments in year 2026 and additional funds will be required to maintain solvency ($386.5 million for the period 2026 to 2039). The CIPTP funded status is projected to decrease from 74.9% in 2016 to a low of 7.0% in 2026 (when additional solvency contributions are required) and then very slowly increase to only 20.9% in 2053.

Under this scenario, the Trust is projected to be completely exhausted in 2026. Therefore, we have incorporated a “select and ultimate” approach to the investment return assumption (and also the related discount rate for the liabilities). Under this “select and ultimate” approach to the investment return assumption, we have assumed that the net investment return and discount rate grade down from 6.75% in 2016 to 4.00% in 2026 in equal yearly increments of 0.306%.

Scenario 3 – Open Group -- 1,000 New Contracts Sold Per Year

Scenario 3 illustrates the results of an open group projection scenario assuming 1,000 new contracts are sold each year. Under this specific new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be sufficient to make the required tuition payments in all projection years. However, the funded ratio is projected to decrease from 79.4% in 2016 to a low of 19.2% in 2032 before slowly increasing to 64.1% in 2053.

Under this scenario, the Trust is not projected to be exhausted during the projection period. Therefore, assuming that ISAC is able to maintain the current asset allocation throughout the entire projection period, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario.

Scenario 4 – Open Group -- 1,500 New Contracts Sold Per Year

Scenario 4 illustrates the results of an open group projection scenario assuming 1,500 new contracts are sold each year. Under this illustrative new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be sufficient to make the required tuition payments in all projection years. However, the CIPTP funded status is projected to decrease from 79.4% in 2016 to a low of 57.3% in 2027 before increasing to 101.8% in 2042. After 2042, the CIPTP funded status is projected to continue to increase to 149.7% in 2053.

Under this scenario, the Trust is not projected to be exhausted during the projection period. Therefore, assuming that ISAC is able to maintain the current asset allocation throughout the entire projection period, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario.

Scenario 5 – Open Group -- 2,500 New Contracts Sold Per Year

Scenario 5 illustrates the results of an open group projection scenario assuming 2,500 new contracts are sold each year. Under this illustrative new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be sufficient to make the required tuition payments in all projection years. However, the CIPTP funded status is projected to decrease from 79.4% in 2016 to a low of 75.1% in 2020 and then increase to 103.3% in 2031. After 2031, the CIPTP funded status is projected to continue to increase to 221.5% in 2053.

Under this scenario, the Trust is not projected to be exhausted during the projection period. Therefore, assuming that ISAC is able to maintain the current asset allocation throughout the entire projection period, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario.

Scenario 6 – Open Group -- 5% Annual Contract Sales Growth From 500 Contracts Sold in FY17 to 2,500 Contracts Sold and Then Stable at 2,500 Contracts Per Year

Scenario 6 illustrates the results of an open group projection scenario assuming new contract sales starting with 500 new contracts sold in 2017 and then increasing by 5.0% each year to 2,500 sold in 2050 and each future year. Under this illustrative new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be insufficient to make the required tuition payments in years 2027 through 2031 and additional solvency contributions will be required to maintain solvency ($164.4 million for the period 2027 to 2031). The CIPTP funded status is projected to decrease very quickly from 79.4% in 2016 to a low of 11.3% in 2027 (and additional solvency contributions are required) and then increase to 128.2% in 2053.

Under this scenario, the Trust is projected to be completely exhausted in 2027. However, because additional solvency contributions are only required for five years before the funded status is projected to increase, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario. This assumes that ISAC is able to maintain the current asset allocation throughout most of the projection period.

Scenario 7 – Open Group -- 10% Annual Contract Sales Growth From 500 Contracts Sold in FY17 to 2,500 Contracts Sold and Then Stable at 2,500 Contracts Per Year

Scenario 7 illustrates the results of an open group projection scenario assuming new contract sales starting with 500 new contracts sold in 2017 and then increasing by 10.0% each year to 2,500 sold in 2034 and each future year. Under this illustrative new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be insufficient to make the required tuition payments in years 2028 and 2029 and additional solvency contributions will be required to maintain solvency ($25.3 million for the period 2028 to 2029). The CIPTP funded status is projected to decrease very quickly from 79.4% in 2016 to a low of 17.0% in 2028 (and additional solvency contributions are required) and then increase to 102.2% in 2042. After 2042, the CIPTP funded status is projected to continue to increase to 156.7% in 2053.

Under this scenario, the Trust is projected to be completely exhausted in 2028. However, because additional solvency contributions are only required for two years before the funded status is projected to increase, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario. This assumes that ISAC is able to maintain the current asset allocation throughout most of the projection period.

Scenario 8 – Open Group -- 15% Annual Contract Sales Growth From 500 Contracts Sold in FY17 to 2,500 Contracts Sold and Then Stable at 2,500 Contracts Per Year

Scenario 8 illustrates the results of an open group projection scenario assuming new contract sales starting with 500 new contracts sold in 2017 and then increasing by 15.0% each year to 2,500 sold in 2029 and each future year. Under this illustrative new contract sales assumption, future payments from contract holders, Trust assets and future investment income are projected to be sufficient to make the required tuition payments in in all projection years. However, the CIPTP funded ratio is projected to decrease from 79.4% in 2016 to a low of 34.1% in 2027 before slowly increasing to 102.1% in 2039. After 2039, the CIPTP funded status is projected to continue to increase to 172.4% in 2053.

Under this scenario, the Trust is not projected to be exhausted during the projection period. Therefore, assuming that ISAC is able to maintain the current asset allocation throughout the entire projection period, we have used a flat investment return (and discount rate) assumption of 6.75 percent for this projection scenario.

Summary Table

Scenario	Scenario Description	Discount Rate/Type	Tuition/Fee Increase	Year of Asset Depletion	Required Solvency Contributions	Funded Ratio 2016	Funded Ratio 2053	Funded Ratio Minimum	Funded Ratio Year Minimum	Funded Ratio Year 100%
1	Closed Group (Run Off)	Select and Ultimate	5.00%	2025	$ 622,926,368	74.5%	0.0%	0.0%	2030	NA
2	Open Group (500 New Contracts Per Year)	Select and Ultimate	5.00%	2026	$ 386,491,411	74.9%	20.9%	7.0%	2026	NA
3	Open Group (1,000 New Contracts Per Year)	6.75%	5.00%	NA	$ -	79.4%	64.1%	19.2%	2032	NA
4	Open Group (1,500 New Contracts Per Year)	6.75%	5.00%	NA	$ -	79.4%	149.7%	57.3%	2027	2042
5	Open Group (2,500 New Contracts Per Year)	6.75%	5.00%	NA	$ -	79.4%	221.5%	75.1%	2020	2031
6	Open Group (5% Annual Growth)*	6.75%	5.00%	2027	$ 164,374,115	79.4%	128.2%	11.3%	2027	2048
7	Open Group (10% Annual Growth)*	6.75%	5.00%	2028	$ 25,332,730	79.4%	156.7%	17.0%	2028	2042
8	Open Group (15% Annual Growth)*	6.75%	5.00%	NA	$ -	79.4%	172.4%	34.1%	2027	2039

**500 contracts assumed to be sold in FY 2017, with an annual increase in contract sales until a maximum of 2,500 contracts per year are sold annually.*

SECTION D

ACTUARIAL METHODS & ASSUMPTIONS

ACTUARIAL VALUATION METHODS

Actuarial Value of Assets – The Actuarial Value of Assets is equal to the Market Value of Assets.

ACTUARIAL VALUATION ASSUMPTIONS

The actuarial assumptions used in the annual actuarial valuation are shown in this Section.

Measurement Date June 30, 2016

The net investment return rate 6.75 percent per annum, compounded annually. Includes inflation assumption of 3.00 percent. (Updated for the valuation as of June 30, 2016)

For certain projection scenarios where the Trust is completely exhausted, we have incorporated a "select and ultimate" approach to the investment return assumption (and also the related discount rate for the liabilities). Under this "select and ultimate" approach to the investment return assumption, we have assumed that the net investment return and discount rate grade down from 6.75% to 4.00% in yearly increments based on the number of years until the Trust is projected to run out of money to pay benefits.

Weighted Average Tuition and Fees (WATF) Based on the Freshman Blended Tuition Rate and Increases by Contract Type

	Contract Type			
	Choice 1	Choice 2	Choice 3	
	Community College	University	University Plus	Legacy†
2016-2017 Weighted Tuition	$3,698	$10,410	$14,136	$11,318
2016-2017 Weighted Fees	459	3,748	3,662	3,727
2016-2017 Total WATF	4,157	14,158	17,798	15,045

†Legacy contracts refer to contracts sold prior to October 2008. These contracts can be used for full tuition and fees at any public University in the State of Illinois, including UIUC.

For continuing students at public universities and students attending community colleges, fees are combined with tuition in our projections and follow their respective tuition inflation assumptions.

These assumptions were chosen by ISAC and consider historical Illinois public tuition and fee inflation, typically over a 20-year horizon, as well as current economic and political conditions.

	Contract Type			
	Choice 1	Choice 2	Choice 3	
	Community College	University	University Plus	Legacy†
2016-2017 Total WATF	$4,157	$14,158	$17,798	$15,045
2015-2016 Total WATF	3,980	13,770	17,726	14,687
WATF Increase	4.45%	2.82%	0.41%	2.44%

Tuition and Fee Increase Assumption

Tuition and Fee Increase Assumption - June 30, 2016, Actuarial Valuation				
Effective Date	Community College	University	University Plus	Legacy
6/30/2017 and Beyond	5.00%	5.00%	5.00%	5.00%

(Updated for the actuarial valuation as of June 30, 2016)

Truth in Tuition

We have segregated the beneficiaries into two categories, those beneficiaries that fall under the Truth in Tuition law and those that do not. The Truth in Tuition law does not apply to community colleges.

For Truth in Tuition beneficiaries, it was assumed that their tuition will not increase in their second, third and fourth year of school. If they attend school beyond four years, it was assumed that their tuition would increase to the amount charged the year after the year they first enrolled. For all other beneficiaries, it was assumed that tuition will rise for each year enrolled. It was assumed fees will rise for each year enrolled.

Administrative Expenses

Administrative expenses of the Program are assumed to be paid through a combination of investment earnings and fees assessed on purchasers. For purposes of the closed group projections, marketing expenses (assumed to be 12 percent of total administrative expenses) were excluded as it is assumed those costs should be applicable only to future contracts. Expenses are assumed to grow at the rate of the inflation assumption of 3.0 percent. Closed group administrative expenses are projected to increase by 3.0 percent for 7 years and then decline at the same rate the present value of benefits declines (combined with a 3.0 percent increase for inflation). The present value of future administrative expenses was determined to be equal to approximately 4.0 percent of the total liabilities.

Bias Load

"Legacy," Choice 1 and Choice 2 contract beneficiaries were assumed on average to attend more expensive schools than indicated by the headcount information that was used to determine the 2016-2017 WATF. A load of 4.0 percent for "Legacy" contracts, 5.5 percent for Choice 1 contracts and 2.5 percent for Choice 2 contracts was added to the WATF assumption to recognize this bias toward enrollment at more expensive schools. No bias load was applied to the "University Plus" beneficiaries due to the separation of UIUC.

Mortality and Disability

No assumption is made for death or disability. Valuing the rate of incidence is expected to be immaterial.

Future Beneficiary Profile

The characteristics of future beneficiaries are assumed to be the same as the characteristics of 2016 new beneficiaries.

The Rates of Enrollment

These rates are used to measure the probability of eligible members matriculating at and beyond their projected college entrance date.

Years From Projected College Entrance Year	Matriculation Rate
0	70%
1	35%
2	40%
3	30%
4	20%
5	15%
6	15%
7	10%
8	10%
9	10%
10	0%

Rates of Cancellation

These rates are used to measure the probability of eligible members cancelling their contracts before and after projected college entrance date.

Years From Projected College Entrance Year	Cancellation Rate
-17	8%
-16	7%
-15	6%
-14	4%
-13	4%
-12	3%
-11	3%

9	5%
10	5%

In the event of a cancellation, it was assumed that a refund will be paid equal to the amount of contributions paid by the contract holder, increased by 2 percent for each subsequent year after purchase, for contracts sold prior to October 1, 2013.

Utilization of Benefits

Once they start matriculating, beneficiaries are assumed to use the benefits as described by the CIPTP Master Agreement according to the schedule below.

Distribution of Benefit Utilization									
Number of Years Since Matriculation	**Number of Semesters Purchased**								
	1	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**

Once a contract beneficiary has matriculated, and if the contract beneficiary has used credits within the past year, it is assumed that the contract beneficiary will utilize 22 credits per year until benefits are fully depleted.

If the contract beneficiary has matriculated, but the contract beneficiary has not used credits within the past year, the matriculation rates, cancellation rates and benefit utilization rates that apply to members that have not matriculated yet are assumed. (Updated for the valuation as of June 30, 2016)

SECTION E

PLAN PROVISIONS

PLAN PROVISIONS

(This is a summary only; the full terms and conditions of the College Illinois!® Prepaid Tuition Program are included in the Illinois Prepaid Tuition Act, 110 ILCS 979 (the "Act") and ISAC Administrative Rules (23 Ill. Adm. Code 2775, et. seq.) ("ISAC Rules").

A. Type of Contract

Three types of contracts are available for purchase: Choice 1 - Community College, Choice 2 – University and Choice 3 – University Plus.

B. Benefit

Covered benefits include tuition and mandatory fees at an Illinois public university or community college based on the in-state or in-district undergraduate rate for a full-time student.

Mandatory fees are fees that are required upon enrollment for all students attending the particular institution.

The benefit does not include any optional fees, expenses or cost of supplies.

Benefit shall never be less than payment amount.

C. Member Contributions

The Program offers a variety of payment options, including the following:

- Lump Sum;
- 5-year installment plans paid monthly or annually;
- Extended installment plans of 6 to 15 years, depending on age, paid monthly or annually; and
- Down payment options are available for monthly installment plans.

D. Private or Out-of-State Institutions

For beneficiaries attending a private or out-of-state institution, the plan will pay an amount based upon the weighted average tuition and mandatory fees at Illinois public universities or community colleges depending on the type of contract purchased.

PLAN PROVISIONS (CONTINUED)

E. Scholarship

If a qualified beneficiary is awarded a grant or scholarship that duplicates the benefits covered by a prepaid tuition contract, the purchaser may request a refund in semester installments.

Illinois public university or community college – the installments will be in an amount equal to the current cost of in-state or in-district registration fees at that institution, less any benefits used to pay registration fees not covered by the scholarship and any applicable fees.

Illinois Private Institution or an eligible Out-of-State Institution – the installments will be in an amount equal to the current average mean-weighted credit hour value of registration fees at Illinois public universities or Illinois community colleges, depending on the type of the purchased contract, less any benefits used to pay registration fees not covered by the scholarship and any applicable fees.

F. Not Attending an Institution of Higher Education

Benefits can be transferred to a member of the "family" as defined in Section 529 of the Internal Revenue Code.

Purchasers can also choose to postpone the beneficiary's use of contract benefits to a later time or receive a refund payment equal to all contributions, plus two percent interest (only applicable to contracts purchased prior to the 2013/2014 enrollment period), less applicable cancellation fees.

G. Death/Disability of Qualified Beneficiary

Refunds equal to amount paid with all accrued earnings will be made to purchaser.

H. Changes from Previous Valuation

None.

I. Other Ancillary Benefits

There are no ancillary benefits.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

RSM US LLP

Honorable Frank J. Mautino
Auditor General
State of Illinois, and

Mr. Kevin B. Huber
Chair of the Governing Board
Illinois Student Assistance Commission

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Illinois Prepaid Tuition Program of the State of Illinois, Illinois Student Assistance Commission, as of and for the year ended June 30, 2016, and the related notes to the financial statements, and have issued our report thereon dated December 21, 2016. That report contains an emphasis of matter paragraph which states "as discussed in Notes 9 and 10, the Illinois Prepaid Tuition Program Fund has a deficit as of June 30, 2016 of $215 million. The amount of the fund deficit is highly dependent on the actuarial assumptions used to calculate the present value of the future tuition benefits obligation." That report also contains another emphasis of matter paragraph which states "as discussed in Note 11, beginning net position was restated to reflect the implementation of GASB Statement No. 72, *Fair Value Measurement and Application."* Our opinion is not modified with respect to these matters.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of Illinois, Illinois Student Assistance Commission's internal control over financial reporting (internal control) of the Illinois Prepaid Tuition Program to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Illinois, Illinois Student Assistance Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Illinois, Illinois Student Assistance Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control of the Illinois Prepaid Tuition Program that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Illinois, Illinois Student Assistance Commission, Illinois Prepaid Tuition Program's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Illinois, Illinois Student Assistance Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Illinois Student Assistance Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
