Summary

The audit of the accompanying Schedule of Employer Allocations and Schedule of Pension Amounts by Employer (Schedules) of the Teachers' Retirement System of the State of Illinois (System) was performed by RSM US LLP.

Based on their audit, the auditors expressed unmodified opinions on the System's Schedules.

Independent Auditor's Report

RSM US LLP

Honorable Frank J. Mautino
Auditor General, State of Illinois
Springfield, Illinois

Board of Trustees
Teachers' Retirement System of the State of Illinois
Springfield, Illinois

Report on the Schedules

As Special Assistant Auditors for the Auditor General, we have audited the accompanying Schedule of Employer Allocations, of the Teachers' Retirement System of the State of Illinois (System), a component unit of the State of Illinois, as of and for the years ended June 30, 2015 and 2014, and the related Notes to the Schedule. We have also audited the total for all entities of the columns titled beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources and total pension expense (specified column totals) included in the accompanying Schedule of Pension Amounts by Employer (Schedules) of the System as of and for the year ended June 30, 2015, and the related Notes to the Schedules.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Schedule of Employer Allocations and the specified column totals included in the Schedule of Pension Amounts by Employer based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Employer Allocations and specified columns totals included in the Schedule of Pension Amounts by Employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations as of and for the years ended June 30, 2015 and 2014, and total beginning net pension liability, total ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for the System as of and for the year ended June 30, 2015, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System's Pension Plan as of and for the year ended June 30, 2015, and our report thereon, dated December 17, 2015, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the Comptroller, System management, System Board of Trustees, System Employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

RSM US LLP

**Teachers' Retirement System of the State of Illinois
(A Component Unit of the State of Illinois)**

**Notes to the Schedule of Employer Allocations and Pension Amounts by Employer
Year Ended June 30, 2015**

The Teachers' Retirement System (TRS or Plan) is the administrator of a cost-sharing, multiple-employer defined benefit plan. TRS was established on July 1, 1939, to provide retirement, death and disability benefits for all full-time, part-time and substitute public school personnel employed outside of the city of Chicago in positions requiring certification. Persons employed at certain State agencies are also members.

Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, defines special funding situations as circumstances in which a nonemployer entity is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity or entities and either (1) the amount of the contributions for which the nonemployer entity is legally responsible is not dependent upon one or more events unrelated to pensions or (2) the nonemployer is the only entity with a legal obligation to make contributions directly to a pension plan. The State of Illinois is considered a nonemployer contributing entity. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer include amounts for the State of Illinois. Within these schedules, the term "employer" encompasses both the employers and the State (nonemployer contributing entity).

A. Defined Benefit Plan

TRS is included in the State of Illinois' financial reports as a component unit. TRS is governed by Chapter 40, Act 5, Article 16, of the Illinois Compiled Statutes. These statutes assign the authority to establish and amend the benefit provisions of the plan to the state legislature, subject to approval by the governor. Operation of the Plan and the direction of its policies are the responsibility of the TRS Board of Trustees. It is also these statutes that define the scope of TRS's reporting entity. There are no statutory provisions for termination of the Plan. The Illinois Constitution provides that the pension obligation of the state shall be an enforceable contractual relationship, the benefits of which shall not be diminished or impaired.

B. Benefit Provisions

A traditional defined benefit plan was established in 1939. A summary of the benefit provisions can be found in the TRS comprehensive annual financial report (CAFR) Notes to the Financial Statements. The TRS CAFR can be accessed on the TRS website at <http://trs.illinois.gov>.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Schedules

Employers participating in a cost-sharing pension plan, and any nonemployer contributing entities that meet the definition of a special funding situation, are required to recognize their proportionate share of the collective pension amounts for pension benefits provided to members through the TRS plan.

GASB Statement No. 68, paragraph 92 states that in determining the employer's proportion of the collective net pension liability (NPL), the basis should be consistent with the manner in which contributions to the pension plan, excluding those to separately finance specific liabilities of the individual employer to the Plan, are determined, which is consistent with paragraphs 48-51. GASB Statement No. 68, paragraph 92 further states that in determining the nonemployer's proportion of the collective net pension liability (NPL) and corresponding pension amounts, the Plan should follow the Plan terms to

determine the specific relationship of the contribution requirements of the nonemployer contributing entity to those of the employer and other contributing entities.

The State's contributions to the Teachers' Retirement System are determined through actuarial valuations on an annual basis. Under the Illinois Compiled Statutes (40 ILCS 5/16-158), the actuarially determined contribution (Statutory Contribution) from the State of Illinois is calculated by an actuary in accordance with the Statutory Funding Plan. If an employee is paid from trust, grant or federal funds, the employer must make pension contributions from those funds at a rate equal to the state contribution rate to TRS. The state contribution rate to TRS is the state's share of normal cost plus a contribution for the unfunded liability.

The Schedule of Employer Allocation presents the actual fiscal year 2015 contributions used within the proportionate share calculation for each employer and the nonemployer contributing entity (State of Illinois) and respective allocation percentage. For purposes of allocating the beginning net pension liability, the System utilized contributions reported during fiscal year 2014.

The Schedule of Pension Amounts by Employer presents the proportionate share of total net pension liability (beginning and ending), total deferred outflows of resources, total deferred inflows of resources, and total pension expense subject to allocation for all TRS employers and the State. The pension expense includes the amortization of the differences between expected and actual economic and demographic experience, differences between projected and actual investment earnings (net) on Plan investments, and the impact of changes of assumptions about future economic or demographic factors or other inputs. The total pension expense subject to allocation is adjusted for contributions made to the System by individual employers to liquidate specific liabilities the employers owe to the plan. Employer specific liabilities include contributions payable by employers when members retire utilizing the early retirement option (40 ILCS 5/16-133.2), contributions payable resulting from any salary increase over 6 percent being used in a retiring member's final average salary calculation (40 ILCS 5/16-158(f-h)), and contributions payable when a retiring member, in their last four years prior to retirement, receive sick leave days in excess of the normal annual allotment that are used for service credit (40 ILCS 5/16-128(d-10)).

Due to the nature of the Schedules, the contributions utilized in the allocation calculation were actual contributions received and not rounded. Therefore, the total amounts reported within the Schedules may not agree to the summation of the individual columns.

B. Measurement Focus and Basis of Accounting

The financial transactions are recorded using the economic resources measurement focus and the accrual basis of accounting. Employer and nonemployer contributing entity contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

C. Use of Estimates in the Preparation of the Schedules

The preparation of the TRS Schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts, and the changes therein, and disclosures. Actual results could differ from those estimates and differences could be material. TRS uses an actuary to determine the total pension liability for the defined benefit plan and to calculate the actuarially determined contributions of the State and employers.

Year Ended June 30, 2015**

D. Basis of Allocation

In determining the proportionate share of the net pension liability and corresponding employer pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions to the Plan, excluding those to separately finance specific liabilities of an individual employer, are determined. The Plan has determined that the actual contributions made to the Plan during fiscal year 2015 are appropriate as the basis because they are representative of future contributions.

GASB Statement No. 68 states that special funding situations are defined as circumstances in which a nonemployer entity (State of Illinois) is legally responsible for making contributions directly to a pension plan (TRS) that is used to provide pensions to the employees of another entity or entities (participating TRS employers) and the amount of the contributions is not dependent upon one or more events unrelated to pensions. Chapter 40, ILCS 5/16-158(c) states: "Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State." According to 40 ILCS 5/16-158(b-3) for state fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045.

The net pension liability (NPL) is the System's total pension liability less the fiduciary net position. The NPL was determined by an actuarial valuation measured as of June 30, 2015. The System allocates the NPL to the employers and the State of Illinois, as the nonemployer contributing entity, based on the allocation percentages calculated within the Schedule of Employer Allocations.

The actual employer contributions total for fiscal years 2015 and 2014 used as the denominator for the allocation calculation in the Schedule of Employer Allocations can be reconciled to the TRS CAFR, as follows:

	<u>2015</u>	<u>2014</u>
Defined benefit plan employer & nonemployer contributions – CAFR total	\$ 3,523,256,530	\$ 3,596,717,490
TRS employer contributions and miscellaneous adjustments	(495,437)	(495,070)
Employer specific liability contributions	(18,767,057)	(28,272,576)
Total Contributions – Schedule of Employer Allocations	<u>\$ 3,503,994,036</u>	<u>\$ 3,567,949,844</u>

The employers will be required to recognize revenue (on-behalf contributions) and expense resulting from the special funding situation. Revenue should be an amount equal to the nonemployer contributing entities total proportionate share of collective pension expense that is associated with the employer. This information is not included within this report but unaudited information will continue to be provided to each employer on an annual basis by the Plan.

Year Ended June 30, 2015**

E. Pension Expense and Amortization of Pension Expense

Pension expense, as well as deferred outflows of resources and deferred inflows of resources related to pensions, should be recognized for the employers' (and nonemployer contributing entity's) proportionate shares of collective pension expense and collective deferred outflows of resources and deferred inflows of resources related to pensions.

Deferred outflows of resources are the consumption of net position by TRS that is applicable to future reporting periods. Deferred outflows of resources have a positive effect on net position. Deferred inflows of resources are the acquisition of net position that is applicable to future reporting periods. Deferred inflows of resources have a negative effect on net position. Other than differences between projected and actual investment earnings, deferred inflows and outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan (active or inactive), determined as of the beginning of the measurement period.

Net deferred inflows (or outflows) of resources pertaining to differences between projected and actual investment earnings are similarly recognized over a closed five year period.

The pension amounts allocated to employers and to the State of Illinois are based on total contributions except for contribution from employers for specific liabilities of the individual employers to the plan. Employer specific liabilities include contributions payable by employers when members retire utilizing the early retirement option (40ILCS 5/16-133.2), contributions payable resulting from any salary increase over 6 percent being used in a retiring member's final average salary calculation (40ILCS 5/16-158(f-h)), and contributions payable when retiring members, in their last four years prior to retirement, receive sick leave days in excess of the normal annual allotment that are used for service credit (40ILCS 5/16-128(d-10)).

The components of pension expense are:

	<u>Amount</u>
Service cost	\$ 1,948,079,771
Interest cost on the total pension liability	7,864,916,421
Member contributions	(935,451,049)
Projected earnings on Plan investments	(3,392,278,072)
Pension Plan administrative expenses	21,686,860
Recognition of outflow of resources due to amortization	230,518,233
Recognition of inflow of resources due to amortization	(450,771,159)
Total pension expense – Actuarial Valuation Report	<u>5,286,701,005</u>
Reconciling items: TRS employer contributions and miscellaneous adjustments	(495,437)
Total pension expense – Schedule of Pension Amounts by Employer	<u>5,286,205,568</u>
Employer specific liability contributions	(18,767,057)
Total allocable pension expense – Schedule of Pension Amounts by Employer	<u><u>\$ 5,267,438,511</u></u>

The average of the expected remaining service lives of all members for fiscal year 2015 and fiscal year 2014 is 4.93 years and 5.12 years, respectively.

Year Ended June 30, 2015**

F. Net Pension Liability

The net pension liability for TRS for fiscal year 2015 is set forth in the following table:

	<u>Amount</u>
Net pension liability (beginning) - July 1, 2014	\$ 60,858,272,372
Total pension expense	5,286,701,005
Change in deferred outflows of resources	2,262,775,595
Change in deferred inflows of resources	625,581,310
Defined benefit plan employer & nonemployer contributions	<u>(3,523,256,530)</u>
Net pension liability (ending) - June 30, 2015	<u>\$ 65,510,073,752</u>

Requests for Information

TRS is considered a component unit of the State of Illinois' financial reporting entity and is included in the state's financial reports as a pension trust fund. TRS is governed by Section 5/16, Chapter 40 of the Illinois Compiled Statutes. TRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at <http://trs.illinois.gov>.
