Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grants that could have a material effect on the operations of the University. We are responsible for and we have established and maintained an effective system of, internal controls over compliance requirements. We have performed an evaluation of the University's compliance with the following assertions during the year ended June 30, 2006. Based on this evaluation, we assert that during the year ended June 30, 2006, the University has materially complied with the assertions below.

- A. The University has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. The State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. The money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law.

Very truly yours,

B. Joseph White, President

Stephen K. Rugg, Comptroller
Vice President for Administration

Thomas R. Bearrows, University Counsel

**Independent Accountant's Report on State Compliance
and on Internal Control Over Compliance
for State Compliance Purposes**

Honorable William G. Holland
Auditor General
State of Illinois

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the University of Illinois' compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2006. The management of the University of Illinois is responsible for compliance with these requirements. Our responsibility is to express an opinion on the University of Illinois' compliance based on our examination.

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. The State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the University of Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the University of Illinois' compliance with specified requirements.

In our opinion, the University of Illinois complied, in all material respects, with the aforementioned requirements during the year ended June 30, 2006. However, the results of our procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of State findings and questioned costs as items 06-4, 06-5, 06-6, and 06-7. As required by the Audit Guide, immaterial findings relating to instances of noncompliance excluded from this reports have been reported in a separate letter to your office.

Internal Control

The management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws and regulations. In planning and performing our examination, we considered the University of Illinois' internal control over compliance with the aforementioned requirements in order to determine our examination procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide, issued by the Illinois Office of the Auditor General.

Our consideration of internal control over compliance with the aforementioned requirements would not necessarily disclose all matters in internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws and regulations that would be material in relation to one or more of the aforementioned requirements being examined may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over compliance that we consider to be material weaknesses. As required by the Audit Guide, immaterial findings relating to internal control deficiencies excluded from this report have been reported in a separate letter to your office.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the University Board of Trustees, and agency management, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Honorable William G. Holland
Auditor General
State of Illinois

As Special Assistant Auditors for the Auditor General, we have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois, as of and for the year ended June 30, 2006, which collectively comprise the University of Illinois' basic financial statements and the financial statements of the University of Illinois Auxiliary Facilities System, the University of Illinois Willard Airport Facility, and the University of Illinois Health Services Facilities System as of and for the year ended June 30, 2006, and have issued our reports thereon dated October 4, 2006. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audits, we considered the University of Illinois' internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the University of Illinois' ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. The reportable conditions are described in the accompanying schedule of findings and questioned costs at items 06-1, 06-2, and 06-3.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that the reportable conditions described above are not material weaknesses.

We noted certain deficiencies in the design or operation of internal control over financial reporting which do not meet the criteria for reporting herein and which are reported as State compliance findings in the schedule of findings. We noted certain immaterial instances of internal control deficiencies, which we have reported to management of the University of Illinois in a separate letter dated October 4, 2006.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Illinois' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 06-1. We noted certain matters which are reported as State compliance findings in the schedule of findings. We also noted certain other matters which we have reported to management of the University of Illinois, in a separate letter dated October 4, 2006.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the University Board of Trustees, agency management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Clifton Gunderson LLP

Peoria, Illinois
October 4, 2006

**Independent Auditor's Report on Compliance With
Requirements Applicable to Each Major Program and on
Internal Control Over Compliance and Schedule of Expenditures
of Federal Awards in Accordance With OMB Circular A-133**

Honorable William G. Holland
Auditor General
State of Illinois

Compliance

We have audited the compliance of the University of Illinois with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*, that are applicable to each of its major federal programs for the year ended June 30, 2006. The University of Illinois' major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University of Illinois' management. Our responsibility is to express an opinion on the University of Illinois' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University of Illinois' compliance with those requirements.

In our opinion, the University of Illinois complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 06-1.

Internal Control Over Compliance

The management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University of Illinois' internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted a certain matter involving the internal control over compliance and its operation that we consider to be reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the University of Illinois' ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. The reportable condition is described in the accompanying schedule of findings and questioned costs as item 06-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that could be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that the reportable condition described above is not a material weakness.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois as of and for the year ended June 30, 2006, and have issued our report thereon dated October 4, 2006. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the University of Illinois' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Auditor General, the General Assembly, the Legislative Audit Commission, the Governor, the University Board of Trustees, agency management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Dollar threshold used to distinguish between Type A and Type B programs: \$3,000,000

Auditee qualified as low-risk auditee? Yes No

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-1 Finding: Inappropriate Charges Paid by the University (Chicago Campus)

Federal Agency: National Institute of Health, Department of Health and Human Services
Program Name: Aging Research
Grant: Snp 3R01 Ag234424-0351
CFDA #93.866
Questioned Costs charged to Federal Grant: \$2,832

Federal Agency: National Institute of Health, Department of Health and Human Services
Program Name: Aging Research
Grant: 5 P30 Ag22849-03
CFDA #93.866
Questioned Costs charged to Federal Grant: \$5,373

Federal Agency: National Institute of Health, Department of Health and Human Services
Program Name: Innovations in Applied Public Health Research
Grant: 5 R01 Dp000094-02
CFDA #93.061
Questioned Costs charged to Federal Grant: \$2,894

The Chicago Campus paid vouchers with inappropriate charges. According to the University, fictitious documents were prepared by 2 employees to collect incentives paid to human test subjects. The employees also allegedly claimed mileage expenses for travel not associated with the project. The one employee also allegedly used University P-Cards for personal expenditures. These charges and expenditures were incurred from November 2004 through September 2005.

The University was alerted to accounting irregularities by a University employee. An internal investigation was conducted by the University to confirm the information. The internal investigation concluded that two employees were creating documents for fictitious participants of a research study and disbursed participant incentives to themselves for personal gain. According to the University, the employees also made up fictitious locations for these participants so that they could receive mileage reimbursements for personal gain. The internal investigation also concluded that the one employee was using a University P-Card for personal expenses including lunches, taxis, and gasoline. According to the University, the total inappropriate charges for this activity were \$13,124; of this amount, \$11,099 was paid with Federal grant funds.

University personnel stated that these inappropriate charges occurred due to falsification of documents and a lack of adequate supervision and review by University personnel.

The UIC Police Department arrested one employee on March 8, 2006, and the other employee on May 31, 2006. Neither employee works for the University at this time. One employee has been convicted of felony theft and ordered to pay \$12,134 in restitution to the University. The University has notified the cognizant agency, but has not yet repaid the federal agencies for the \$11,099 in federal questioned costs.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – *Government Auditing Standards*

**06-1 Finding: Inappropriate Charges Paid by the University (Chicago Campus) -
Continued**

Federal grant requirements contained in OMB Circular A-21, Cost Principles for Educational Institutions, related to allowable costs were violated. In addition, University policies on documentation requirements and allowable costs were not complied with. Including fictitious human subjects in a research study would compromise the integrity of the research being conducted and could lead to a loss of Federal funds. Inappropriate charges paid by the University also results in a misappropriation of University funds. (Finding Code No. 06-1)

Recommendation:

We recommend the University continue communication with the cognizant agency regarding the return of all questioned costs. In addition, we recommend the University review internal controls and segregation of duties to determine that effective controls are in place.

University Response:

Accepted. Communication with the cognizant agency is ongoing. A comprehensive corrective action plan has been implemented to increase the level of internal control and provide for the necessary segregation of duties.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-2 Finding: University P-Card (University Wide)

P-Card transactions were not handled in accordance with University of Illinois Office of Business and Financial Services Policies and Procedures.

The University of Illinois uses a credit card, referred to as a P-Card, to simplify small dollar purchases. University employees may be issued a P-Card with the approval of their Department Head and Fiscal Officer. The P-Card works like any personal credit card and is billed monthly to the University. Vendors are paid directly by the issuing bank and the University pays the bank with a single monthly payment. Purchases are tracked through the P-Card, web based computer software and are automatically posted to the University's general ledger system. The University's P-Card program has four defined roles: (1) department card manager, (2) cardholder, (3) reconciler, and (4) approver. The University has established a Corporate Card Office to provide management over the University P-Card Program.

We examined 60 P-Card transactions from all areas of the University. The following problems were noted:

- 1 transaction in the amount of \$5,750 was split into two smaller amounts in order to circumvent the cardholder's assigned P-Card single transaction limit .
- 7 transactions included sales tax paid by the University. 1 of those transactions was a refund of sales tax paid on a previous P-Card transaction.
- 7 transactions did not have sufficient supporting documentation. 6 of those transactions were for the payment of continuous services with the P-Card set up as the default method of payment.
- 3 transactions were for purchases made by someone other than the cardholder.
- 1 transaction had the cardholder also established as the reconciler and the approver of their own transactions.
- 8 transactions were shown in the P-Card web based computer software as automatically reconciled and approved by the system, rather than by an employee.
- 1 transaction was for an unallowable expense.
- 1 transaction for airfare was coded to a supplies expense account code.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-2 Finding: University P-Card (University Wide) – Continued

The University of Illinois Office of Business and Financial Services Policies and Procedures (Section 7.6) state that the P-Card may be used for purchases costing \$4,999 or less, unless exceptions are approved by the Executive Vice President for Business and Finance or designee (an exception may be approved for a higher threshold or a lower threshold). The Policies and Procedures also state that a P-Card may only be used by the person to whom it is issued and that the cardholder is to provide the department with original receipts for all P-Card transactions. The Policies and Procedures state that “no one employee may function in all four roles.” The Policies and Procedures also state that the department heads must designate an employee with no P-Card responsibilities to review and reconcile monthly financial reports and statements if the approver and reconciler are the same person.

The Illinois Department of Revenue granted the University a governmental exemption from sales and use taxes on purchases for University use. “University of Illinois” and the University’s sales tax exemption number are printed on P-Cards. The Policies and Procedures require all P-Card purchases to be “in compliance with all procurement, allowable expenditure and funding, payroll, and tax-related policies.”

University personnel acknowledged the circumvention of the approved purchase limits and reprimanded the employee. Corporate Card Office personnel stated that establishing accounts with vendors using the P-Card as default payment is a prohibited practice. University personnel stated that P-Card transactions have a second review; however, that review may be outside P-Card web based computer software, which is also allowed by University Policies and Procedures. University personnel also stated that P-Card web based computer software has specific procedures required to show transactions as appropriately reconciled. If those procedures are not followed completely, transactions may appear in the system as though they have not been reconciled.

University personnel cited department emergencies, unfamiliarity with approved policies, oversight, and a lack of consistent application of procedures as the causes for the other issues.

Failure to adhere to established policies and procedures could result in the University incurring unnecessary costs and the misuse of University assets. (Finding Code No. 06-2)

Recommendation:

We recommend that the University emphasize to its employees the importance of a timely and adequate review, approval, and reconciliation of all transactions. Further, the University should ensure that the Policies and Procedures are clearly understood and followed by all personnel involved in the P-Card Program.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-2 Finding: University P-Card (University Wide) – Continued

University Response:

Accepted. The University will review and revise P-Card policies and procedures to ensure that they are clear, concise, well communicated, and reflect appropriate business practices. The University will emphasize the importance of timely and adequate review, approval, and reconciliation of all transactions and adequate separation of duties through regular training and targeted retraining.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-3 Finding: Testing Center (Urbana Campus)

The Testing Center at the Urbana Campus had inadequate internal controls in place pertaining to examinations administered and revenues collected.

The Testing Center administers examinations for the both the University and for third parties, including ETS. The Testing Center provides proctors for the tests. These proctors are University employees. When tests are administered for third parties, the University is compensated by the third party based upon the number of tests administered.

During fiscal year 2006, the University testing center records reflected revenues totaling \$54,083 from computer-based testing and 2,196 examinations administered. All of the examinations in fiscal year 2006 were administered for third parties.

The third party billing system allowed a University employee to receive direct payments, payable to an individual proctor, in addition to payments to the University. Although the individual proctors made periodic reports on tests administered and revenues collected, no controls were in place to ensure the revenues due the University reconciled to the reports from third parties. This was a significant internal control weakness.

During our audit period, the new Director of the testing center discovered that the amounts reported to a third party as due the University were not the same as the fees due the University for the number of tests administered.

Good business practices and internal control procedures require adequate review and reconciliation of revenues as compared to activities performed. In addition, a good system of internal control provides for proper segregation of duties so that no one person handles all elements of any transaction.

University officials stated that appropriate revenue reconciliations were not completed and that the paperwork provided to the University by a proctor was altered. The University Testing Center has a new director and new business manager. Also, new reconciliation procedures have been implemented. Further, the proctor associated with the revenue and paperwork discrepancies is no longer an employee of the University.

University officials indicate that revenues of approximately \$90,000 may have been lost over a three-year period due to inadequate reconciliations and the lack of segregation of duties. (Finding Code No. 06-3)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – Government Auditing Standards

06-3 Finding: Testing Center (Urbana Campus) - Continued

Recommendation:

We recommend the University review the segregation of duties surrounding the payments of proctoring exams and determine if duties are properly segregated. Also, the University should establish formal procedures for appropriate revenue reconciliations to be performed on a timely basis. Further, steps should be taken to address the matter of restitution to the University from the former employee.

University Response:

Accepted. Written procedures have now been put in place that provide for the proper segregation of duties and ensure that appropriate revenue reconciliations are being performed on a timely basis. The University is pursuing restitution from the former employee through appropriate legal channels.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-4 Finding: University Publications (University Administration)

The University did not include information required by the Illinois Procurement Code on publications printed for the University.

The Illinois Procurement Code (30 ILCS 500/20-105) requires that “all books, pamphlets, documents, and reports published through or by the State of Illinois or any State agency, board, or commission shall have printed thereon “Printed by authority of the State of Illinois,” the date of each publication, the number of copies printed, and the printing order number.” We interpret this requirement as being applicable to the State universities.

University personnel stated they are pursuing a statutory change to exempt State universities from this requirement. State universities were excluded from this requirement prior to the Illinois Procurement Code, which became effective in 1998. The University does not believe the General Assembly intended to apply this section of the Procurement Code to materials published by State universities.

Failure to include the information listed above is not in compliance with the Illinois Procurement Code. (Finding Code Nos. 06-4, 05-8)

Recommendation:

We recommend the University begin printing the information required by the Illinois Procurement Code on all publications or pursue a statutory change.

University Response:

Accepted. The University is pursuing a statutory change to exempt State Universities from this requirement.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-5 Finding: Contracts and Real Estate Leases Not Filed Timely (Urbana and Chicago Campuses)

Contracts and real estate leases were not filed with the State of Illinois, Office of the Comptroller on a timely basis.

Of thirty-seven contracts and real estate leases tested, eighteen (49%) were not filed timely with the Office of the Comptroller. The late filings ranged from two days to one hundred eighty-two days late.

The Illinois Procurement Code (30 ILCS 500/20-80(b)) and the Statewide Accounting Management System (Procedure 15.10.40) require State agencies to file contracts for professional and artistic services exceeding \$5,000 and all other contracts and leases exceeding \$10,000 with the State Comptroller within 15 calendar days after execution.

University personnel stated that three of the contracts were purchase orders and the University has never filed purchase orders with the Office of the Comptroller unless accompanied by a separate contract agreement. The University's process for contract review and approvals can lead to delays in the filing of those contracts.

Failure to file contracts and real estate leases with the Office of the Comptroller on a timely basis is not in compliance with State statutes and regulations. (Finding Code Nos. 06-5, 05-4, 04-8)

Recommendation:

We recommend the University revise its procedures to ensure all contracts and real estate leases are filed with the Office of the Comptroller in accordance with State statutes and guidelines.

University Response:

Accepted. The University continues to revise its procedures to ensure all contracts and real estate leases are filed with the Office of the Comptroller in accordance with State statutes and guidelines. Filing is now based upon the execution date instead of the start date of the agreement. Discussion with the Comptroller's Office is ongoing regarding whether purchase orders also need to be filed.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-6 Finding: Time Sheets Not Required (University Administration)

The University did not require all employees to submit time sheets as required by the State Officials and Employees Ethics Act (Act).

The Act (5 ILCS 430/1-5) defines “State agency” to include “public institutions of higher learning...” and defines “State employee” to be “any employee of a State agency.” The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/5-5(c)) states, “The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement.” The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University’s policies.

During the current year, we selected 25 employees across all three campuses and noted that 14 did not file timesheets in compliance with the Act. Based upon inquiry of University management, employees classified as board members, faculty, and academic professionals generally track their time using a “negative” timekeeping system whereby the employee is assumed to be working unless noted otherwise.

University management stated they are currently reviewing the University wide personnel policies and department, college and campus procedures to determine what changes and additions would be required to be in compliance with the Act. They are also reviewing existing time reporting requirements for selected employee groups established by federal granting agencies and others to determine whether the requirements of the Ethics Act can be met by existing requirements rather than requiring dual reporting. The University’s preliminary review shows the need to further document policies and work time requirements for categories of positions, explore various electronic solutions and involve a broad range of University constituencies in a proposed solution.

By not requiring appropriate time sheets from its employees, the University is not in compliance with the Act. (Finding Code Nos. 06-6, 05-6)

Recommendation:

We recommend the University amend its policies to require all employees to submit time sheets in compliance with the Act.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-6 Finding: Time Sheets Not Required (University Administration) - Continued

University Response:

Under study. The University acknowledges the requirements of the State Officials and Employee Ethics Act for employees to periodically report time spent each day on official State business to the nearest quarter hour. We are currently reviewing University wide personnel policies and department, college and campus procedures to determine what changes and additions would be required to be in compliance with the Act. We are also reviewing existing time reporting requirements for selected employee groups established by federal granting agencies and others to determine whether the requirements of the Ethics Act can be met by existing requirements rather than requiring dual reporting. A preliminary review shows the need to further document policies and work time requirements for categories of positions, explore various electronic solutions and involve a broad range of University constituencies in a proposed solution.

UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-7 Finding: Real Estate Leases Not in Accordance With Guidelines (Urbana and Chicago Campuses)

Real estate leases were not in accordance with guidelines of the State of Illinois, Office of the Comptroller.

We examined 25 real estate leases from all areas of the University. The following problems were noted:

- 5 leases were executed after the lease term began. The lease executions ranged from 14 days to 173 days late.
- 1 lease incorrectly stated the federal identification number and did not include a Legal Status Disclosure Certification for the lessor.
- 1 lease did not include the Debt Certification Clause, the Environmental Protection Act Clause, and the Felony Certification Clause.
- 7 leases included Real Estate Disclosure Forms that were signed after the lease term began. The late forms ranged from 2 days to 177 days late.
- 1 lease for a freestanding building did not contain an option to purchase the building or documentation that a purchase option was not feasible or in the State's best interest.

The Illinois Procurement Code (30 ILCS 500 *et seq.*), Statewide Accounting Management System (Procedure 15.20.40) and the University of Illinois Business and Financial Policies and Procedures (Section 2.3) require all real estate leases to include certain clauses and certifications. In addition, good business practices require all leases to be completed and executed prior to the beginning of the lease term.

University personnel stated that the review and approval process may get delayed within the landlord's or the University's departments causing the final approval to be after the start of the lease term. University personnel also overlooked some of the certifications required to be included in the leases.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2006**

Current Findings – State Compliance

06-7 Finding: Real Estate Leases Not in Accordance With Guidelines (University Wide) - Continued

Failure to fully execute a lease prior to the lease term leaves the University vulnerable to unnecessary liabilities and potential legal issues. In addition, failure to include all appropriate clauses and certifications in real estate leases results in noncompliance with State statutes and regulations. (Finding Code Nos. 06-7, 05-5, 04-5, 03-6)

Recommendation:

We recommend that the University improve its procedures to ensure all leases are completed, approved, and executed prior to the start of the lease term. Further, the University should implement uniform procedures to ensure all appropriate clauses and certifications are obtained prior to execution for all real estate lease agreements.

University Response:

Accepted. The University has invested substantial effort to improve its procedures. Both campuses now utilize standard lease templates to ensure all appropriate clauses and certifications are included in all real estate lease agreements. The University will continue to refine its procedures to ensure that all state requirements are met.

Prior Findings Not Repeated

Government Auditing Standards

**06-8 Finding: Class Trip Not in Compliance With University Policies and Procedures
(Springfield Campus)**

During the prior examination, we noted a trip to China taken by a Springfield Campus class was not handled in accordance with various University policies and procedures. (Finding Code No. 05-1)

During our current examination, we tested a similar class trip and noted that it was handled in accordance with University policies and procedures.

Federal Compliance

**06-09 Finding: Inappropriate Charges, Inadequate Documentation of Charges, and
Duplicate Expenditures Paid by the University (Urbana Campus)**

During the prior examination, we noted the University paid vouchers with inappropriate charges, inadequate documentation and duplicate billings. (Finding Code No. 05-2)

During our current examination, we noted the federal questioned costs of \$35,054 were reimbursed to the appropriate agencies. We did not note any similar instances of inappropriate charges, inadequate documentation or duplicate expenditures paid by the University.

06-10 Finding: Inaccurate Amounts Were Submitted on the FISAP (Urbana Campus)

During the prior examination, we noted the University reported inaccurate Federal Perkins Loan program information on their fiscal year 2004 Fiscal Operations Report and Application to Participate (FISAP). (Finding Code No. 05-3)

During our current examination, we noted there was a reconciliation process in place and there were only minor discrepancies on the FISAP.

State Compliance

06-11 Finding: Travel Headquarters Reports Not Filed (University Administration)

During the prior examination, we noted the University did not file Travel Headquarters reports with the Legislative Audit Commission. (Finding Code No. 05-7)

During our current examination, we noted these reports were filed, however, not by the required due dates. It is reported in our current examination as Immaterial Finding IM06-9.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
MATRIX OF PRIOR FINDINGS AS PRESENTED
IN THE COMPLIANCE EXAMINATION REPORT
Year Ended June 30, 2005**

As part of the University of Illinois examination for the year ended June 30, 2006, we have evaluated the recommendations made during the prior year examinations of the University. The following schedule summarizes the results of the evaluation. The recommendation numbers correspond to the University of Illinois Compliance Examination Report for the year ended June 30, 2005.

<u>Recommendation</u>	<u>Repeated</u>	<u>Not Repeated</u>
Prior Findings - Government Auditing Standards		
<u>Springfield Campus</u>		
05-1. <u>Class Trip Not in Compliance With University Policies and Procedures</u> (Finding Code No. 05-1)		
Take immediate steps to ensure that the College of Business and Management and other affected Colleges are aware of University policies and procedures on Travel and Cash Collections. UIS should establish formal policies for approving class trips and establishing course fees, similar to those at UIUC and UIC.		06-8
Prior Findings - Federal Compliance		
<u>Urbana Campus</u>		
05-2. <u>Inappropriate Charges, Inadequate Documentation of Charges, and Duplicate Expenditures Paid by the University</u> (Finding Code No. 05-2)		
Emphasize the importance of the review and approval of vouchers to avoid inappropriate charges being paid. The University should improve the communication between departments when faculty members are working on projects for more than one department.		06-9

Year Ended June 30, 2005**

<u>Recommendation</u>	<u>Repeated</u>	<u>Not Repeated</u>
Prior Findings - Federal Compliance (Continued)		
05-3. <u>Inaccurate Amounts Were Submitted on the FISAP</u> (Finding Code No. 05-3)		
A review process should be established to ensure that the amounts reported to funding agencies are accurate.		06-10
Prior Findings - State Compliance		
<u>University Wide</u>		
05-4. <u>Contracts Not Filed Timely</u> (Finding Code No. 05-4, 04-8)		
Revise the contract procedures to ensure contracts are filed with the Office of the Comptroller in accordance with State statutes and guidelines.	06-5	
05-5. <u>Real Estate Leases Not in Accordance With Guidelines</u> (Finding Code No. 05-5, 04-5, 03-6)		
Improve procedures to ensure adherence to the terms and conditions of all lease agreements. In addition, implement uniform procedures to ensure all appropriate clauses and certifications are obtained prior to execution for all real estate lease agreements. The University should file all real estate leases in excess of \$10,000 with the State of Illinois, Office of the Comptroller as required by the State guidelines. The leases should also be filed with the Secretary of State within the required 15 day deadline.	06-7

FINANCIAL RELATED INFORMATION SUMMARY
Year Ended June 30, 2006**

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
 - Schedule of Expenditures of Federal Awards
 - Attachment to Schedule of Expenditures of Federal Awards
 - Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditor's opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditor's reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

N - Not tested as a major program

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ended June 30, 2006**

NOTE 1 - SCOPE OF AUDIT PURSUANT TO OMB CIRCULAR A-133

All federal grant operations of the University of Illinois (University) are included in the scope of the audit pursuant to Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* (Single Audit). The Single Audit was performed in accordance with the provisions of the *OMB Circular A-133 Compliance Supplement*. Testing of all applicable compliance requirements, as described in the Compliance Supplement, was performed in accordance with the guidance provided by the Compliance Supplement. For programs not included in the Compliance Supplement, compliance testing was performed in accordance with the compliance requirements determined by researching the statutes, regulations, and grant agreements governing the individual programs or by researching the *Catalog of Federal Domestic Assistance*. Additionally, some agencies have developed audit guidance for programs not included in the Compliance Supplement. The University's major programs for which compliance testing was performed are as follows:

- Research and Development Cluster
- Student Financial Aid Cluster
- Fish and Wildlife Cluster
- Cooperative Extension Service
- Medical Library Assistance
- Hatch Act
- Centers for Disease Control and Prevention
- Education and Human Resources

The Office of the Inspector General of the U.S. Department of Defense has been designated as the University's cognizant agency for the Single Audit.

NOTE 2 - FISCAL PERIOD AUDITED

Single Audit testing procedures were performed for program transactions occurring during the fiscal year ended June 30, 2006, in accordance with OMB Circular A-133.

NOTE 3 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal awards activity of the University of Illinois for the year ended June 30, 2006, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The schedule designates federal awards as direct, pass-through, or indirect. Direct awards represent federal funding awarded directly to the University by a federal funding agency. Pass-through awards are federal awards passed through a State of Illinois department or agency to the University. Indirect awards represent federal awards passed to the University through nongovernmental entities or governmental entities other than the State of Illinois.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ended June 30, 2006**

NOTE 4 - MAJOR PROGRAMS

In accordance with OMB Circular A-133, major programs of the University are an individual award or a number of awards in a category of federal awards determined to be major using a risk-based approach. The risk-based approach includes consideration of such criteria as current and prior audit experience, oversight by federal agencies and pass-through entities, and the inherent risk of the federal program. Under the risk-based approach, programs are classified as either "Type A" or "Type B." A Type A program is determined pursuant to formulas based on total federal awards expended. For the University, all programs with federal awards expended exceeding \$3 million are identified as Type A programs. Federal programs not identified as Type A programs are Type B programs.

NOTE 5 - CHILD CARE CLUSTER (93.575, 93.558, 93.667, and 93.596)

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families for subsidized day care. The University expended federal funds in the amount of \$809,680 during FY06 to provide this service. The applications were reviewed according to guidelines set by the Illinois Department of Human Services, who was the prime recipient of the federal funds. As a result of the University's application review, the State Comptroller distributed \$11,709,372 to day care providers.

NOTE 6 - STUDENT LOAN PROGRAMS

As disclosed in the noncash federal awards section of the schedule of expenditures of federal awards, the Federal Direct Student Loan Program (84.268) administered by the University awarded approximately \$130 million at the Urbana campus and \$119.3 million at the Chicago campus. The value of federal loans issued at the Springfield campus under the Federal Family Education Loans Program (84.032) totaled approximately \$12.4 million.

There were no federal capital contributions received for the year ended June 30, 2006 under the Federal Perkins Loan Program (Perkins), for the Health Professions Student Loans Program (HPSL), and for the Loans to Disadvantaged Students (LDS). The values of new loans issued to students for the year ended June 30, 2006 were approximately \$8 million for Perkins (84.038), \$1.9 million for HPSL (93.342), and \$.1 million for LDS (93.342). The total loan balances outstanding at June 30, 2006 were approximately \$37.4 million for Perkins, \$8.2 million for HPSL, and \$.4 million for LDS.
